What Sulphur Does

For the Human Body in Health and Disease.

COSTS NOTHING TO TRY. The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur acid molasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and, until you tried this old-fashioned remedy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium Chloride (Sulphate) and sold in drug stores under the name of Stuart's Calcium Waters.

They are the natural salt-lake for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and physician alike.

Dr. R. M. Wilkins, while experimenting with sulphur remedies, soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or indigestion, I have been surprised at the results obtained from Stuart's Calcium Waters."

At any rate people who are tired of pills, cathartics and so-called blood "purifiers" will find in Stuart's Calcium Waters a far safer, more palatable and effective preparation.
