Advertisement for Sunshine Furnace featuring an image of a man and text: "Sunshine Furnace Fire Pot. The slanting fire-pots in common furnaces provide a rest-place for ashes and clinkers, and these clog the draft, prevent radiation, make the furnace hard to shake, and fill up the fire-pot. The 'Sunshine' pot is straight up and down, which gives an uninterrupted course to the draft, and prevents ashes and clinkers sticking to the sides. The same skill and thought has been used on every feature of the 'Sunshine' furnace—it is Canada's greatest heater. Sold by all enterprising dealers. Booklet free.
