Growing Boys and Girls

While it is very gratifying to parents to see their boys and girls grow rapidly, it should not be forgotten that this is a very critical period. There is danger that they may outgrow their strength; there is also danger that the development may not be uniform, that one part of the system is being built up at the expense of the rest, that the bone may not be developing properly, that nerve and brain may lack tone or the muscle may be soft and flabby.

To ensure proper, all round development it is absolutely necessary that the food should be entirely suitable and contain the elements necessary to develop every part of the system.

FERROL

which contains, in proper proportions, the very essentials of life and development, viz: Fat, Iron and Phosphorus. Fat to develop flesh and muscle; Iron for the blood; Phosphorus for the bone, nerve and brain.

If you want your boys and girls to have strong lungs, robust frames, well developed muscles, strong nerves, vigorous brains and rosy cheeks give them FERROL. They will like it, and FERROL never fails.

SEEK ISLAND OF DIAMONDS

Romance Brought Down to Practical Level—Promoter's Story—Twenty Lords Invest in Extraordinary Diamond Syndicate

LONDON, Aug. 25.—In a week the good ship Xema will sail from Cardiff for a certain island on the west coast of Africa, where, it is believed, there is wealth untold in the shape of diamonds. There are only about half a dozen men who know exactly whether the Xema is sailing, and one of these is the manager of Collins Diamond syndicate, a syndicate which has been formed to acquire the plans and charts of the most valuable diamond mine reported to exist off the coast of Africa, with the object of locating and securing the property and all rights connected therewith. The manager is Mr. E. Kenyon-Collis and the shareholders include one prince, twenty peers, eight judges and several famous authors.

"There is nothing mysterious about it," said Mr. Collis, "and the only thing which, naturally, we keep secret from the general public is the name and location of the island. The story of how we came to know of its existence is very simple. A certain Captain R. Jones was master of a Welsh collier sailing between Cardiff and Cape Town. Among his crew was one Dick Powell, an ordinary A. B. (he is now dead), who was in possession of a collection of garnets and other stones.

"There happened to come to the notice of Captain Jones, who submitted them to an expert, the expert discovered that among the stones were several fine diamonds. Dick Powell then told Captain Jones about an island off the African coast where the diamonds had come from. It is not known how Powell got to the island; very possibly he may have had the story from a native who gave him the stones. Anyhow, on Powell's information Captain Jones threw up his berth as master, and consulted his friend, Mr. William Griffith, late manager and consulting engineer to De Beers syndicate, and announced that he was about to locate the diamond island.

"Mr. Griffith briefly instructed Jones how to wash the soil for diamonds, in a primitive way, and Jones shortly afterwards sailed with a black crew."

GEMS WORTH \$75,000.

How he fared is disclosed in the sworn declaration of Mr. Griffith, who says that in November, 1897, he again met Captain Jones in Cape Town. The captain said he had located the island, and had discovered some stones. Mr. Griffith, who is a diamond expert, valued the gems at between \$50,000 and \$75,000. He formed the opinion that they were from an unknown mine, as the crystallization was entirely different from the stones obtained from Kimberly, De Beers and other mines. When Captain Jones landed in Cape Town upon his return from the island he was ill, gradually got worse, and died ten or fourteen days afterwards. Before his death he gave all his property to Mr. Williams, a chemist with whom he was staying, and gave Mr. Griffith a chart or map which he said he would enable him to locate the island.

Best Kidney Remedy Known To Science

For pain in the back—scanty urine—highly colored urine—irritated bladder—irregular bowels—bad stomach—there is nothing that will bring such quick relief and so certain a cure as FRUIT-A-TIVES.

These marvelous tablets are nature's natural remedy for irritated or weakened kidneys. They act directly on the kidneys—soothe the irritated membranes—clean, heal and strengthen the organs—and help them to new vigor with their work. Often kidney trouble is not due to any organic defect in the kidneys. If the bowels are constipated—if the skin does not throw off the tissue waste of the body—then these impurities are carried to the kidneys. In a vain endeavor to rid the system of impurities, the kidneys are overworked—the blood vessels are dilated—the nerves inflamed. That causes a host of kidney troubles.

Fruit-a-tives

FRUIT-A-TIVES are the natural and logical cure for all kidney troubles. They are made of fruit and tonics—are pleasant to take—and a guaranteed cure when faithfully used. See a box or 6 boxes for \$2.50. Sent on receipt of price if your druggist does not handle them. FRUIT-A-TIVES LIMITED OTTAWA.
