LONDON, July 31.—That the triumph of the proletariat involves a bloody revolution, that to achieve it in Great Britain the workers must prepare for civil war and that the day is coming when Communism, sweeping through Europe and engulfing the Eastern Nations in the movement, would meet Great Britain and the United States in mortal conflict are outstanding points in a long communication to the British Independent Labor Party from the third International at Moscow, quoted by the London Times. The communication was made in reply to twelve questions sent to the Independent Labor Party.
