HON. MR HYMAN

IS OPPOSED TO RECIPROCITY

Another of Laurier's Former Ministers who Sees that it Will Injure Canada, and is Opposed to it.

SPECIAL TO THE STANDARD. LONDON, Ont., Aug. 26.—Another of Laurier's former ministers has deserted him. Hon. Charles Hyman, Mr. Pugsley's predecessor as minister of public works, is opposed to reciprocity.

In his private life Mr. Hyman is regarded as one of the most successful business men in the Province of Ontario. He owns several factories and is a large employer of labor. His open hostility to the agreement is causing consternation in the Liberal ranks.

As former head of the greatest spending department in the Dominion no man is in a better position than Mr. Hyman to realize the disastrous effect reciprocity will have on the development of east and west trade to further which millions have been spent in building wharves and elevators and in dredging and canals throughout the country.

A TRICK THAT IS COMING. It will be recalled that in the last general election the Liberal party was notably aided by the circulation of the pamphlet known as "The Duty of the Hour."

pamphlet in 1911. Electors should not be deceived. HARD UP. It looks as though Sir Wilfrid was up against it this time. Many of his former strong men are working hard against his foolish reciprocity pact.

A PRACTICAL REASON. A rather convincing illustration of the rottenness of the Reciprocity pact from a Canadian standpoint was given one day recently by a practical farmer. He says here, "I have eight cows in a fine pasture, lots of juicy grass. My neighbor, Sam, who is a keen one in a bargain, and is well pastured about the size of my pasture and his cows have his pasture pretty well nibbled down. One day Sam comes to me, and much to my surprise treats me to a three cent cigar and says, 'Look here John, we're near neighbors and have a great many interests in common and are almost like brothers, let's tear down the fence between our pastures and let our cows all run together it will give your cows a mighty big run to get all over your pasture and mine too. Says I, that may be all right from your standpoint but by the time your 80 cows runs over my pasture for a season or two the picking, for my cows will be pretty slim, so I told him that I guessed we would let the old fence remain intact for a long time. The Willies who got hypnotized and agreed with Taft to open up our rich pasture to Uncle Sam's hungry cows should be promptly turned down by the electorate of our fair and prosperous Dominion."

LIBERALS ADMITTING LOSSES. Some Liberal papers are already publishing estimates of the result of the elections on September 21. It is noteworthy that they all admit there will be gains by the Conservatives, compared with the standing of parties in the late House of Commons. This sort of thing will not be a gift of confidence to the party workers. It means that in the opinion of those who should best know the earth has begun to slide, and many people do not like to stand on sliding earth.

It pays to buy in this Province. Miss Tessie Howatt, Cape Traverse, is visiting friends in Charlottetown.

The prayer service in Grace Church last evening was under the auspices of the W. M. S. at the close of the service Mrs. R. E. Mutch, on behalf of the Auxiliary, in a few well chosen words, presented Mrs. Clements with a life membership gold pin. Mrs. Clements suitably replied and expressed her regret at leaving the Church which she had become so strongly attached. Mrs. Clements, who has been an active member of Grace Church for several years, is leaving the city tomorrow for Boston.

The rumors which have been in circulation for some time that the Plant line service between Halifax and Boston was to be supplemented by a new and fast passenger steamer, now steamer is now being built in Glasgow by the London and Glasgow Engineering and Shipbuilding Company. She is to be 350 feet in length and 46 feet in breadth with a molded depth of main deck of 33 feet. She is of steel and is being built to Lloyds highest class; will have double bottom and seven water-tight bulkheads divided into six compartments; will have five decks and is to be run in screw and capable of developing 2,500 horse power. She will have 265 staterooms and local accommodation for 650 passengers in addition to 1,500 tons cargo. The ship is being built to Lloyds' requirements and will be provided with all the latest and most improved equipment. The contract stipulates her delivery June 1st next, when she is scheduled to leave direct for Halifax.—Halifax Herald.

"The Best Show Yet" was the unanimous verdict of the patrons of the People's Theatre last evening. An all splendid photography, unique situations and wonderful climaxes go to make pictures the combination shown. "To the ends of the world" was a wonderful story with a strong lesson to be learned from it—and showing the weird wildernesses of the Alaskan territories—the dogs drawn wastes—the repentant woman finding her lost husband and the happy union which completed the depiction. "A Good Turn" was also fine — but "The Twin Towers" held the audience in such a high pitch of expectation that the applause rose loud and long as the actors developed the strangest story with the most unexpected plot which has been for many a day. Ralph Fisher who closes his engagement very soon, sang a beautiful specialty "Piccolomini's" dainty "Whisper and I shall hear" and got song was dainty, sweet and catchy, and the whole show one of those which makes one feel the better for having seen it.

BIG SCHOONERS IN COLLISION.

VINEYARD HAVEN, Mass., Aug. 29.—A narrow escape from sinking after a collision reported by the schooner Rebecca Palmer on her arrival here today, bound from Sewalls Point, Va., for Portsmouth, N. H. The Palmer and the six-masted Edward B. Winslow, collided forty-five miles south-west of Moncton Point early Sunday morning. The Palmer was struck amidships on the starboard side and the Winslow's libboom carried away the Palmer's main rigging, cutting her down to within two planks of the water's edge.

WHOLE FAMILY WIPED OUT BY TRAGEDIES.

EAST LIVERPOOL, Ohio, Aug. 29.—With the death of Mrs. Neil Laird and her daughter Anna in the Cannonsburg, Pa., picture show panic, the entire family was wiped out after a series of tragedies.

Three years ago the father was drowned in the Reservoir of the water works here and a year later two children were burned to death in the fire which destroyed the family home. Mrs. Laird with the remaining daughter then went to Cannonsburg, where they were employed in a pottery until the disaster which ended their lives.

POLICEMAN GOT WALKING TICKET

OTTAWA, August 29.—Andrew Maloney, a police constable, was today dismissed from the force for conduct unbecoming an officer in his discharge of duty.

At a fire on Saturday morning, Maloney was one of the first on the scene, yet it is charged he took no action and stood by while three spectators reaped a woman and child from almost certain death.

WOMAN STENOGRAPHER TRIES TO REGAIN PRIZE

BOSTON, Aug. 29.—Miss Nellie M. Court at East Cambridge, is in Buffalo, competing in the championship match of the National Shorthand Reporters' Association, in an effort to win back the shorthand writing championship which she lost last year, after defending it against all comers for the three years preceding.

Miss Wood lost the championship to W. B. Bottomo of New York last year, and pressed him so close for the honors that he was compelled to write 263 words a minute during the match, which constituted a new world's record. The contest will be held in Buffalo today and tomorrow during the 13th annual convention of the association, which started yesterday.

Miss Wood gained great fame during a number of the most prominent cases ever tried in this part of the country. During the LeBlanc case, when testimony and tilts between the opposing attorneys on different days filled 300 pages, Miss Wood got every word uttered in the case without a mistake.

Miss Wood has been employed in the East Cambridge court for a number of years, and is well known to all the attorneys, owing to her willingness to oblige and assist them in preparing their cases.

"There's a Reason"

ENGINE TOO BIG, SAY OFFICIALS

MIDDLETON, Conn., Aug. 29.—Careful investigation today of the wrecking of the railroad express train on the Valley Division, three and one-half miles south of Middletown, in which one man, Abraham P. Brown of Hartford, was so severely hurt that he died this afternoon, failed to disclose any evidence that would bear out the statement of the road's officials that the wreck was caused by the pulling out of the spikes fastening the rails and the removal of the angle bars.

ENGINE TOO HEAVY.

Among those conducting the investigations was Chief of Police Archibald Inglis of this city and Sheriff Bert Thompson of Middlesex county. Both stated tonight that they had found nothing to lead them to believe that the accident was the work of wreckers.

It seemed to be the opinion of the chief and sheriff that the engine was a large one, necessitated by the length of the train, and was heavier than the roadbed, under the conditions, could stand.

The railroad company gave out a statement from New Haven alleging that every spike had been pulled on both sides of the inner rail of the curve and angle bars removed.

Later today the company issued the following offer of a \$25,000 reward: "The New York, New Haven and Hartford Railroad Company hereby offers a reward of \$2,500 for information which will lead to the conviction under Section 1182 of the General Statutes, of the person or persons who, on the 27th of August, 1911, caused the derailment of a passenger train at Middletown, Conn., by pulling the spikes fastening the rails of the track to the ties and removing the angle bars from the rails."

(Signed) The New York, New Haven & Hartford Railroad Company.

"By C. N. WOODWARD, Superintendent." "The wreck followed a hard run of several days and it is the opinion of those who made the investigation today that the heavy engine, going at a high rate of speed, struck the slight curve at that point and that the rails parted."

EIGHT SEAMEN ARRESTED FOR MUTINY ON HIGH SEAS

KINGSTON, Ja., Aug. 29.—When the Atlantic fruit steamer Bella reached here this morning from Philadelphia, eight members of the Chinese crew were arrested for attempting mutiny on the high seas. After leaving Philadelphia August 22nd the prisoners refused to keep up the fires in the boiler room, thereby delaying the ship's voyage, and the ring leader, Captain Bevan, attacking him with a knife. Upon being arrested seven of the mutineers released and were sent back to the ship.

SAYS TO SUCCEED MEANS CHAOS.

SAN FRANCISCO, Aug. 28.—That to grant the demands of the Federation of Shop Employees of the Harriman lines would mean chaos, and that it would diminish the ability of the corporations to fulfil the duties imposed upon them by law, was the statement made tonight by Julius Kruttschnitt, vice-president and director of maintenance and operation of the Harriman roads. Mr. Kruttschnitt took up in detail the reasons for refusing the demands of the federation, saying:

"These are the reasons why we decline to surrender to an irresponsible committee of federated employees, representing a very small portion of the entire public, and why we will not concede to such a committee the right to dictate whether we shall or shall not fulfill for 20,000,000 of people in the United States, the duties clearly prescribed by law."

NEW YORK POLICE IN BLACK HAND WAR

NEW YORK, Aug. 29.—The police attacked the problem of restoring two kidnapped Italian children today with the belief that they had to deal with an organized gang operating under the auspices of the Black Hand.

Four weeks ago Vincenzo Sabella disappeared and three weeks later little Peter Quartararo vanished while playing in the street and afterwards their parents received a number of letters, demanding \$10,000 ransom for the Sabella boy and \$1,000 for young Quartararo. The letters, signed with the skull and cross bones and smeared apparently with blood, finally caused the parents to overcome their dread of the Italian Secret Society and report the cases to the police. Neither made any effort to comply with the demand of the kidnapers although Sabella is said to be wealthy.

The letters in both cases were worded practically the same.

GERMAN SPY ON TRIAL AT PLYMOUTH, ENG.

PLYMOUTH, England, August 29.—Lt. Philip M. Schultze of the 15th Hussars, stationed at Frankfort-on-the-Main, Germany, who was arrested here August 19 last, charged with espionage, was arraigned in open court for the first time today and the department of public prosecution made known part of the government's case.

According to the public prosecutor Lt. Schultze was especially commissioned by the German authorities to obtain precise information as to how far the British government was backing up France in the Morocco dispute. Specific questions, copies of which were found among his belongings, were to be asked by Schultze regarding the naval preparations, the fortifying of ports, and the commissioning and reserve of ships, etc.

Insistence was laid on the necessity of the information coming from the officers of the active list of the British navy. A copy of the cipher employed by Schultze was also found. Counsel for the prosecution asserted that the lieutenant had offered considerable sums of money to local formations. The residents, instead, formed the authorities who caught the spy.

More Money for the Small Dealer

The big man isn't big in spite of the telephone—it's because of it, to a certain extent.

If you're satisfied with the profits your great-grandfather made, if you just want to eke out a bare existence from your business, if more business don't look good to you—well, a phone will be just in the way—a bothersome ornament.

But, mark it down plain, if you want more business, a larger and better class of customers, straight tips on all the markets, the most profitable of inside information and the respect of your customers and envy of your competitors—in short if you want success—you'll see what we can do for you, and you won't waste time over it either.

The phone will bring you business—it will prove it's worth in better returns, in actual additional cash in your till.
