The Stanley is coming—so is Christmas. Queen Victoria Council Royal Arsenals will meet in Y. M. C. A. rooms Monday night next.

You will not find it difficult to select a Christmas present if you call at Small & Bealro's store.

This is the night of Rev. W. H. Smith's lecture on "The Problem of the Universe in Presbyterian Halls."

Rich and poor will find in Small & Bealro's stock of Christmas goods just what they want for the holiday season.

WINTER begins this year Dec. 22.—It has been a cold fall.—The Stanley will likely be here before Autumn is ended.

THOMAS E. Ramsay has closed his residence for the winter and is boarding at Mrs. C. R. Rogers', Sanders' House, Second Street.

Seldom, if ever, has there been such an elegant line of Christmas goods shown in Summerside as comprise the stock of Small & Bealro this season.

I. O. F.—The members of Court Cabot are reminded that an important meeting will be held tonight. Election of officers will take place and urgent business will be dealt with.

Tax probabilities are that the Stanley will have a long season of this year. Because the season started in severe it does not as a consequence follow that the winter will be a hard one.

Two rooms formerly occupied as offices by Peters, Ings & Saunders, over the store of J. C. Jardine, are offered to let by Sipeclair & Stewart. These rooms are large and comfortable and located in the most central part of the business portion of Summerside. d 11 31 & w 11.

In reply to despatches sent to the Marine Department, Ottawa stating "the condition of navigation and urging that the Stanley be at once placed on the Summerside-Tormentine route the following telegram was received here yesterday:

OTTAWA, Dec. 11.

R. G. McLEOD:
Wind laid instructions last night, send Stanley Summerside soon as possible. Will be some delay at Pictou.

(Sgd.) W. L. MacGEE,
Acting Deputy Marine and Fisheries.

It is understood that the delay referred to above will be coming at Pictou and also relieving a large coal steamer ashore off Pictou Lighthouse besides three or four schooners frozen in up Middle River, Pictou. It is expected that the steamer will be ready to go on the Summerside-Tormentine route on Monday next.

THE SKIN ON FIRE.

So dreadful are the sensations of burning, itching eczema that victims frequently describe their suffering by saying that the skin is all on fire. The stinging, biting fires of eczema are quenched by the use of Dr. Chase's Ointment. The first few applications may cause a little uneasiness but cure is sure to result and the skin is healed without scar or blemish.

GIVING STRENGTH

MORE HEAT LESS FUEL

This is what everybody wants and we have the stove that will do it as no other stove will.

The Heating Heater is more of a heating machine than it is a stove. It can be regulated like a lamp. You can have your room any temperature you wish. You positively keep a slow fire burning 24 hours by putting in one large stick or knot. Will heat 20 feet square in ten minutes in cold weather. Absolutely air tight, and the cleanest stove in the world. No ashes, dust or soot can get out. Keeps fire on all night, is a handsome stove, the outside being Russian iron. Made with steel, and needs no blacking. Will save half the fuel of the average stove. Burns large knots, chunks, chips, cobs and trash. Remove the ashes only once every one or two months. Will take a stick 16, 21 and 24 inches long by 10 inches thick, according to size of stove. Never wants the wood split up. It burns your wood in large chunks. It makes a regular heat and lasts longer. Write for prices and call and see these stoves.
