EUROPE'S CROP THIS YEAR IS ENCOURAGING

Cries of Prospective Famine Are Missing--Harvest Expected More Than Care For Wants of Country--Record in France.

LONDON, Aug. 12.—The cry of crop shortage and prospective famine is missing this harvest season in the heart of Europe. Reports from Berlin say that the German grain harvest was excellent, and other crops, including the great staple, potatoes, were excellent.

In other years since there have been each summer reports of German crop failure, though these have usually developed to be in part the alarmist propaganda of the big landholders, hoping thereby to obtain protective tariffs or higher prices from internal consumers.

Good in France.

From France come even more glowing reports of the harvest. She will have the largest wheat crop in her history, and will be independent of import wheat, according to word given the French congress of grain dealers at Tours yesterday. It was even predicted that France would be able to export 10,000,000 hundred weight.

Italy reports a great drive for larger grain production. Behind the campaign lies the fact that Italy's emigration is now restricted; hence the question of more grain for more mouths has become vital.

Russia Hopeful.

Definite reports from Russia are lacking but the indications so far have been that the Russian yield will not be "as disappointing as in some past years, when famine swept some districts."

In French Cabinet

(Canadian Press)

PARIS, Aug. 12.—The cabinet today approved the principle of compulsory arbitration in labor disputes largely as the result of a strike of bank employees. And bill to put the principle into effect, will be introduced by the Government at the next session of Parliament.

COMMENCE INSPECTION OF CATTLE

This morning Thursday, Aug. 13th, upwards of 30 Veterinary Inspectors will have started inspecting cattle of the province for tuberculosis under the provisions of the "Restricted Area" plan. These men will work in groups of three and the ground has been completely mapped out and every thing so arranged as to permit of rapid progress of the work, as far as the arrangements by the Health of Animals Branch is concerned.

The field is a large one and even with perfect organization, on the part of this branch, unless the full co-operation of the farmers is secured the work must necessarily be slowed up to a very great extent. Owners of cattle are therefore asked to keep in touch with the movements of these inspectors and have their cattle young and old stabled at the time the inspector visits the farm, so that the examination may be proceeded with, without a minutes delay. If inspectors are compelled to wait at each farm until the owner rounds up his stock from the pastures, the cleaning up of our herds will be a very slow process indeed not to mention the added cost involved.

The earnest co-operation of our breeders is solicited in this, and every other detail in connection with the policy in which the breeders play a part.

The inspectors will operate in the following districts: inspection commencing today in the first

Modern Girl Is Credit Says Vicar

(Special to the Guardian)

LONDON, Aug. 12.—The modern girl, though not nearly so perfect as old folk is, nevertheless, a credit to her parents, in the opinion of the Rev. E. L. Macassey, vicar of East Grinstead, who objects to the severe criticism of the manners, dress and character of young women that has recently come from many sources.

"Obviously," says the vicar, "you can't expect your niece to dress in the fashions affected by your early Victorian grandmother. Nor do you expect a girl who lives through the air raids to faint when she sees a mouse or to have a chaperone when she answers the telephone."

"The truth is goodness need not be synonymous with dullness. Church's teaching that a strong sense of humor is incompatible with a devout life. The modern girl as a rule shuns the middle-aged sins and responds remarkably to the appeal of religion."

(Special to the Guardian)

Number 14 at New Waterford is expected to start work Friday, and Number 2 at New Aberdeen will also start toward the latter part of the week or as soon as new haulage cables are installed.

In the northern area, both the Florence and Princess collieries will resume operations tomorrow morning.

Preparations Are Being Made For Big Battle With Rifians.

The French have erected barbed wire entanglements and trenches near Oudjda, near the frontier separating the Spanish and French protectorates, to prevent the Rifians who have invaded the French zone from returning to their tribal villages. The French also have offered a reward of 50 francs for each Rifian prisoner captured.

The Spanish zone remains inactive, the authorities being prepared, however, for a possible rebel attack.

Auto Perils Halifax Woman's Home For 2nd. Time In Week

(Canadian Press)

HALIFAX, Aug. 12.—For the third time within a few weeks a runaway motor car dashed through the busiest section of Halifax this afternoon and for the second time within a week the house of Mrs. Julia Poole at 21 Granville street, still bearing a gaping hole in its front wall from the last accident, was the object of an assault.

A sedan car parked in Blowers street left the curb yesterday afternoon and crossed through the heavy traffic of Barrington street and dashed toward Mrs. Poole's residence in Granville at the foot of Blowers.

An unknown man rushed out, opened the door of the car and deflected the wheels to the extent that the car missed the entrance made by the runaway truck a few days ago, and striking a big electric power post and breaking it off close to the ground, came to rest on the doorstep of the house. The unknown man who had attempted to stop the car, limped away and was lost in the quickly gathering crowd. The car was a total wreck.

Rumors

(Special to the Guardian)

OTTAWA, Aug. 12.—It is rumored that Herbert Marten of the St. Lawrence and St. George's division of Montreal will be taken into the Government as a Minister without portfolio on the understanding that if the Government is returned he will secure the portfolio of Trade and Commerce in the place of Hon. T. A. Low. Still another probability is that Wilfred Laurier MacDonnell of the Montreal Harbor Board will be taken into the Cabinet and run in an Ontario seat.

Grain Elevator Used For Tee

VANCOUVER, B. C., Aug. 12.—The first golfers in the world and in all probability the last to use a grain elevator as a teeing off place are Chick Evans, American champion, and Jock Hutchison, former British open champion, who recently drove off the roof of the Spillers elevator here.

Two hundred and fifty feet above the waters of Burrard Inlet, the visiting golf champions sent their balls far out across Vancouver harbor. The little white balls were addressed to Liverpool via Vancouver and were also inscribed with the good wishes of Chick Evans and Jock Hutchison.

"Big Guns" Turned On Coolidge Economy Progress Budget

(Canadian Press)

SWAMPSCOTT, Mass., Aug. 12.—"Big Guns" of the army and navy here turned today on part of the Coolidge Economy Progress Budget, Director Lord favors cutting the army and navy appropriations by many million dollars perhaps \$50,000,000 under this year's total of \$574,000,000 to be expended for this purpose. President Coolidge holds the same views, but General Pershing and other powerful advocates of large navies and armies for the United States do not. Some high officers of the two services including many retired officers are preparing to wage war upon the economy demands in what they believe to be in the interest of national safety.

Drunken Brawl Results In Brutal Murder

MONCTON, N. B., Aug. 12.—Howard Cairns is dead at Harvey Albert County as the result of a brutal beating about the face and head received about ten o'clock last night Lawrence Doherty of the same place is being held pending an inquiry. It is reported the men had been drinking.

Troops Will Be Withdrawn Saturday

(Canadian Press)

HALIFAX, Aug. 12.—Announcement was made today by Hon. J. C. Douglas, Attorney General of Nova Scotia that the thousand odd troops who have been on duty in Cape Breton since the riot of June 11 between the striking miners and police of the British Empire Steel Corporation when one man was killed, will be withdrawn Saturday. The estimated cost of the troops in Cape Breton is \$325,000.

Some of The Leaders.

Such men as E. A. Reilly, member elect for Moncton, M. S. Agar, member elect for St. John city, Mayor (ret.) colleague of Dr. Baxter, J. M. Flewelling, member elect for St. Stephen-Milltown, C. D. Richards, member elect for Fredericton-Devon-Marysville, and former House leader of the Conservatives, are all strong exponents of the cause of Maritime Rights. And it is worthy of note that the outstanding business and commercial leaders in New Brunswick were supporting Hon. Dr. Baxter in the recent campaign. Such men as Angus MacLean, of the Bathurst Lumber Company, A. D. Ganong, of Ganong's Limited, and others who in recent years have come to realize the necessity of a more concerted action on the part of the people of the Maritimes in the fight for the claims of this section of the Dominion, rallied behind the Premier-elect and they are prepared to continue the fight.

Dr. Baxter's victory on Monday was not a victory for the Conservative party alone, just as in Nova Scotia, many independent Liberals of New Brunswick flocked to the standard of the Opposition party. And the majority of these electors were animated with the desire to serve notice on the administration at Ottawa that the people of New Brunswick are not satisfied with the treatment accorded them by the Federal leaders.

There is general approval in New Brunswick of the great fight the Halifax Herald has made on behalf of the Maritime Rights campaign. When the Halifax Herald and Evening Mail, intimated this movement some four or five years ago the people of New Brunswick seemed but slightly interested. Today that apathy towards the Maritime Rights campaign has ended. New Brunswick is in line for a bigger and even more aggressive campaign.

U. M. W. PRESIDENT

JOHN L. LEWIS.
Leader of the United States miners who have elected him chief of a committee of six with full powers to call a strike in the coalfields of that country.

NEW BRUNSWICK MEMBERS FOR MAR. RIGHTS

SAINT JOHN, August 12.—Hon. J. B. Baxter, premier-elect, will have as supporters in the new Legislature of New Brunswick, some of the most ardent advocates of the policy of Maritime Rights.

During the campaign, which ended so successfully for the Conservative leader, many of his outstanding campaigners were business men who for the last few years have realized that the Maritimes must fight for their own rights; that the petty partisanship must be relegated to the scrap heap.

And electors in New Brunswick, harkening to the appeal of these men, forsook party on Monday last and voted into power a leader who has been in the vanguard of the battle for Maritime Rights, the mandate given Hon. Dr. Baxter is a clear one; he has demonstrated in the past where he stands on the cause of Maritime Rights and now that his party and his policy has been endorsed so handsomely the people here expect the fight to be carried on to victory.
