Golden Wedding Anniversary

A very happy and enjoyable event took place at the home of Mr. and Mrs. William Mitchell, 154 Walnut street, East Providence, Rhode Island, on Saturday evening, August 17, says the Oakland Maple Leaf, when their family of four sons and three daughters, three daughters-in-law, two sons-in-law and thirteen grand-children gathered at the family home to celebrate the golden wedding anniversary of Mr. and Mrs. Mitchell. They had reached the fiftieth year of happy married life, and those dearest to them were present to congratulate the venerable couple on the happy event.

The festivities commenced with group singing of the old time songs such as "Put on your old gray bonnet." "Silver threads among the gold." "When you and I were young, Maggie" (this being Mrs. Mitchell's name, also other songs suitable to the occasion, accompanied by Miss Peggie Lane on the piano. Other numbers on the program were violin and piano selections by Stephen Mitchell and Miss Lane; musical trio consisting of Stephen Mitchell, violin, Stephen Jr., piano, and Lawrence, saxophone. Congratulations were then extended to Mr. and Mrs. Mitchell, who were presented with a purse of money, after which games of various kinds were played and joy and general hilarity held full sway.

Pictures of the jubilarians were taken, also various group pictures of all present by Frank E. Gregory, a sister by Donald and Frank Gregory and John A. Gregory, after which the real fun began when Mrs. Mitchell, despite her 76 years, with one of her sons danced the wedding reel which was played by Mr. Mitchell, after which Mr. Mitchell, who is an old time violin player of Scotch reels, jigs, flings and strathspeys, accompanied by his son William, Jr., on the piano, enlivened things with some Scotch reels, Highland schottische and "Gillie Colsum" and several marches, one in particular being the "Rock of the North."

The wedding cake was then cut and refreshments served to all present by Miss Dorothy S. Mitchell, assisted by her two sisters, Mrs. Frank E. Gregory and Mrs. Albert Andrews. Mrs. Mitchell is a native of Prince Edward Island, a daughter of the late Archibald Morrison and Christina McCormick-Morrison of Launching Place, Mr. Mitchell is a native of New Glasgow, Nova Scotia. He came to the States when a very young man. Both are descendants of the Scottish pioneers who settled in Pictou and the Island. Mr. Mitchell has been a member of the Providence Caledonian Society since 1898. Mrs. Mitchell is a member of Thistle Lodge No. 1, Daughters of Caledonia, who presented her with a handsome bouquet of flowers. Numerous other bouquets and congratulatory messages were received from friends and neighbors, who extended their wishes for many years of continued happiness. At a late hour the company dispersed after singing "Auld Lang Syne."

Ability To See Comfortably
The object of a modern eye service is to enable patients to see comfortably. That means seeing without strain on the eyes. And also the avoidance of many bodily results of eye strain. That thought deserves the consideration of all who are not certain of the condition of their eyes.
G. F. Hutcheson

Dominion Lamb Feeding Project

The Dominion Lamb Feeding Project which was so successfully carried out in 1933 and 1934 has again been inaugurated for 1935. The project makes possible the feeding and fattening of Western range lambs during the fall and winter on farms in Eastern Canada where there is ample building accommodation, a good water supply and a plentiful stock of feed, including clover or alfalfa hay and home grown grains. For the third consecutive year sheep ranchers in the Maple Creek area of South-western Saskatchewan who are members of the Southern Saskatchewan Wool Growers Association have cooperated with the Dominion Department of Agriculture in consigning lambs under the rancher-feeder agreement plan. Officials of the Dominion Live Stock Branch Field Services are at the moment busily engaged in locating farmers who are desirous of feeding and fattening lambs this coming fall and winter.

Under the above project farmers who are approved as lamb feeders will not be required to lay out any cash. The freight charges to feed lot will be prepaid by the Dominion Department of Agriculture, reimbursement being made from the proceeds of sale when lambs are fattened and have been marketed. Feeders are required to have suitable equipment in the form of feeding sheds, plenty of feed and good water. They are also required to feed and market in accordance with the procedure prescribed by the Dominion Live Stock Branch officials. Ranchers retain ownership of the lambs until marketed so that under the agreement the rancher and the feeder receive their respective share of the net proceeds after the lambs are marketed.

A valuation of three dollars and seventy-five cents per hundredweight is placed on the lambs at the Moose Jaw stockyards where official weights are established. Freight from shipping point to feed lot will be added to the initial price charged against the feeder when lambs go into the feed-lot. Under the rancher-feeder agreement for 1935, the feeder receives the value of all the gain in weight plus sixty per cent of the spread after freight and marketing charges have been deducted. The rancher receives the value at three dollars and seventy-five cents per hundredweight, Moose Jaw weights, plus forty per cent of the spread.

In 1934 nearly seven thousand head of feeder lambs were fattened in Ontario under the Lamb Feeding Project. The best feeders were able to make gains as high as forty-seven pounds per lamb. The selling price for feed-lot lambs when sold as fat lambs at Toronto was mostly on a basis of seven dollars to seven dollars and thirty-five cents with Xmas and New Year market at eight dollars and eight dollars and fifty cents per hundredweight. Towards the end of May the price advanced to eight dollars and seventy-five cents per hundredweight. Lambs of the range usually weigh between 50 and 60 pounds. The feeding period is from 100 to 150 days depending on feeds, management, etc.

Saskatchewan lambs will be approved before shipment by an official of the Dominion Live Stock Branch and will be shipped in double deck cars containing 290 head. Care must be exercised during the first month in getting the lambs on grain feed. While oats is considered to be the safest grain to feed at this time. When lambs have become accustomed to eating a pound of grain daily they may be fed a more fattening grain feed by gradually adding barley, wheat screenings or other home grown grains. Clover or alfalfa hay is almost essential for the best results. The amount of hay required may be greatly reduced if corn ensilage is available. Turnips or roots of any kind are also excellent. Those desiring to fatten range feeder lambs should communicate with A. A. MacMillan, Associate Chief, Field Services, Live Stock Branch, Ottawa. Some indication should be given of the accommodation available, the amount of feed on hand, and past experience in fattening live stock.

For Kidney and Bladder Trouble

Stop Getting Up Nights
Here's one good way to flush harmful waste from kidneys and stop bladder irritation that often causes snoring, buzzing and smothering passage. Ask your druggist for a 40 cent box of Gold Medal Earleim Oil Capsules—a splendid safe and harmless diuretic and stimulant for weak kidneys and irritated bladder. Besides getting up nights, some symptoms of kidney trouble are back-aches, puffy eyes, leg cramps, and moist palms, but be sure to get GOLD MEDAL—it's the genuine medicine for weak kidneys—brought from Haarlem in Holland.

Edu. and Literature Secy., Miss Elizabeth McCurdy, Halifax.
Message Editor, Mrs. Wm. Mac-nab.
Message Asst. Editor, Miss Ethel Shaw, St. John.
Message Treas., Mrs. W. L. Hopper.

IN MEMORIAM

MRS. CHARLES PAUL

At Kingston, September 20th there passed away to the Better Land, Mrs. Charles Paul, formerly Rebecca Carew, of Hunter River, at the age of 41 years.

Mrs. Paul underwent a serious operation in Prince Edward Island Hospital last winter and never completely regained her strength. She had the desire to live and take her part in the work of the home and church and community; but God ordered it otherwise and she was reconciled to the Father's will. She was a faithful wife and mother, an active member of the church, and the L. O. B. A., and her funeral was largely attended by a host of friends. The service was conducted by Rev. D. K. Ross assisted by Rev. Henry Pierce and Rev. F. E. Boothroyd. Mr. Pierce baptized Mrs. Paul when he was stationed at Hunter River 40 years ago, and it was under the ministry of Rev. George Ayers she joined the Mission Band. A brief service was conducted at the home and the remains taken to the church where the service was held. The members of the L. O. B. A. conducted a service at the grave. The sunshine after the rain made the service very impressive and beautiful. Rev. Bruce Carey and his family were present, also Clifford Carey and family from Hunter River. The other brother Fred of New Bedford was unable to be present. Our sincere sympathy goes out not only to the brothers and their families but to Mr. Paul and little daughter Mildred in this hour of their sad bereavement.

The burial was at Kingston Cemetery and the funeral under the direction of Mr. N. D. McLean.

ANN JEAN MATHESON

The passing of young Ann Jean Matheson, daughter of Rev. and Mrs. Angus Matheson of Glen William at the tender age of 8 years at the Montague Hospital on Sept. 23rd, 1935, brought keen general sorrow to Glen William, Caledonia, and all around, as one of, if not the largest funeral gatherings in quite a few years witnessed. Taken ill about 10 weeks ago, nine of which were spent in the Hospital, all that medical skill could do was done for her. Operated on three out of each of which she awoke, but after the last one she began to sink and soon slipped away, which news came as a great shock to her sorrowing mother and father. Ann Jean was quite a precocious child, smart and intelligent in school, bright, loving and loved by all who knew her. Ahead of her colleagues in school in her studies and possessed of an unusual grasp of her Bible and God's plan of salvation, which she eagerly drank in as unfolded to her by her pastor, and of which she gave a wonderfully clear evidence to the end, giving all who knew her or heard of her that in her death "the damsel is not dead, but sleeping." Mark 5:39, the passage from which her Minister, Rev. Allister Murray,

pre-ative discourse at the home in Caledonia, preached a deeply im-Glen William, to the large saddened reverend crowd. The burial was in Caledonia Cemetery, Mr. Murray conducting the service there also. The pall bearers were Messrs. Peter and Angus McDonald, Neil and J. N. McPherson, Aleck McKinnon and Colin McInnis. The sympathy of the whole community for many miles around is with the bereaved parents and their two young boys and girls. (Patriot Please Copy)

MRS KATHERINE MARY HOGG

PICTOU, Sept. 27.—Mrs. Katherine Mary Hogg, passed away this morning at her home on Front St. She was 79 years of age, and for the past few years she had been in failing health. She was the wife of James Hogg and last night was the 61st anniversary of their wedding. They were married by the late Dr. Bayne, of Pictou, and before her marriage, Mrs. Hogg was Katherine Mary Currie, a daughter of the late Captain and Mrs. James Currie, one of the oldest families of Pictou. Mrs. Hogg was a gentle, kindly Christian woman, highly regarded and universally esteemed in Pictou, where she and Mr. Hogg had lived for the greater part of their married life. Mr. Hogg today observed his 83rd birthday. He formerly was the proprietor of the Wallace hotel and he and Mrs. Hogg were well known by the travelling public. Mrs. Hogg is survived by one sister, Miss Maud Currie, in Pictou, and one brother, Alexander Currie of Montague, P. E. I. She was a faithful member of Pictou United church, and the funeral service will be conducted by the pastor, Rev. Gerald Rogers, from her home the service begin-

ning at 2:30 Sunday afternoon. Burial will be made in Haliburton cemetery.

"One In A Million"

(C. P. By Guardian's Special Wire)
LINDSAY, Ont., Sept. 28.—There really is one girl student at Lindsay Collegiate whose present ambition is to become "a good wife for some man." The others, an independent survey revealed, would like to become teachers, nurses, stenographers, dieticians, writers and interior decorators. Would-be teachers led the list. The exceptional young lady said she "would like to have just enough education to keep my husband proud of me, and at the same time I'm going to study cooking, for they ain't no man who does not like a good cook." The boys chose vocations all the way from farmer to bank president. Only one showed a desire to become a minister. One boy combined avocation and vocation in one grand sweep. He wants to become as good a currier as his dad and then "think about looking for something more remunerative."

PHENOMENON KILLS MILLIONS OF FISH

BROWNSVILLE, Tex., Sept. 28.—A strange marine condition which sometimes ago killed millions of fish in the Gulf of Mexico in the vicinity of Corpus Christi today had led more millions dead along a 50-mile strip of coast north and south of here. Both times the phenomenon was

preceded by a strong odor of sulphur dioxide, which made persons could and hurt their eyes. Brownsville residents who camped on Padre Island Saturday night reported the water there was yellowish in places, and that they could see heavy gas rising from the water. Hundreds of tarpon, the great fighting fish of the gulf, were washed up, as well as millions of smaller fish.
