Foster's Beef Iron and Wine

This is a delicious tonic with trying. We never ask anyone to buy the second bottle--they always buy it without asking.

Delicious to the taste, contains iron to enrich the blood, peptonized (digested) beef to feed the tissues and choice wine as an appetizer.

If you feel worn-out tired and run down you need a tonic; you couldn't find a better one than this—like all our remedies it is of the highest quality 50c and 75c bottles.

PRESENTATION OF MEDALS AT P. W. C.

(Continued from page nine)

in the progress of the school to visit it even once or twice a year. Owing to the financial position of the Island they could not have the supervision of education they could desire. It was true the appointment of additional inspectors would enable them to cover more ground than formerly—and he hoped it was the beginning of greater developments—but when all was said the inspectors could only make infrequent visitations, thus the college sent out every year a body of young people who were practically left to their own resources in carrying on the education of the rising generation in the country districts. When they considered that fact they would readily believe that the training these young men and women had received in Prince of Wales College had left a permanent impression for good upon them. Apart altogether from the value of the college as a normal training school for teachers, it was of inestimable value as an institution where pupils from outlying districts could come and further their education. It would be an unfortunate thing if such pupils had no opportunity for a wider outlook such as the Prince of Wales College afforded. In conclusion the Principal mentioned that last year was a record year for the number of pupils enrolled there being 287, against 252 in the previous year. He expressed his regret that only a small percentage of these came from the elementary schools of the city. It seemed the city school children left at the age of thirteen or fourteen and were seen from that age to nineteen and twenty running about the streets of the city both day and night, having evidently nothing to do and no one seeming to exercise any control over them. The number of such young people who are thus idling away the springtime of life was simply appalling, and it was a great pity the parents did not appreciate the opportunities offered by the Prince of Wales College.

GREAT OPPORTUNITIES

The Chairman after having distributed the medals, diplomas and certificates, to the successful students, to the accompaniment of musical honors, congratulated the Principal and staff on the completion of another successful year. It was a pleasure to him to preside on such an occasion

PAINFUL ACCIDENT.—Master Frank Trainor, Charlottetown, met with a very painful accident yesterday afternoon. He was playing with some other lads on the baseball diamond, and at the time was on 1st base. One of his companions running from the home plate made a jump to reach the bag at first before he could be caught out. In jumping he struck young Trainor knocking him down and breaking two bones in his left leg. Medical aid was summoned and the broken member set. At latest reports the lad was resting as well as could be expected.

—ARREST.—Lemuel Coghlan, of Fortune Cove, was arrested on Thursday last and brought to Summerside yesterday morning on a charge of receiving stolen goods. He was taken before Stipendiary Wright, who remanded him to jail until Wednesday next, when he will be given a hearing. This arrest is another of the many in connection with the stealing of a pair of black foxes from the ranch of James Birch, Alberton, some months ago.

"LIKE MAGIC"

New Food Makes Wonderful Changes.

When a man has suffered from dyspepsia so many years that he can't remember when he had a natural appetite, and then hits on a way out of trouble he may be excused for saying "it acts like magic."

When it is a simple, wholesome food instead of any one of a large number of so-called remedies in the form of drugs, he is more than ever likely to feel as though a sort of miracle has been performed.

A Western man, in the delight of restored digestion, puts it in this way:

"Like magic, fittingly describes the manner in which Grape-Nuts relieved me of poor digestion, coated tongue and loss of appetite, of many years standing.

"I tried about every medicine that was recommended to me, without relief. Then I tried Grape-Nuts on the suggestion of a friend. By the time I had finished the fourth package, my stomach was all right, and for the past two months, I have been eating with a relish, anything set before me. That is something I had been unable to do previously for years.

"I am stronger than ever and I consider the effects of Grape-Nuts on a weak stomach as something really wonderful. It builds up the entire body as well as the brain and nerves." Name given by the Canadian Postum Co., Windsor, Ont.

"There's a reason," and it is explained in the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

GRAND OPPORTUNITY FOR BIG DIVIDENDS

Organization of the Melrose Black Fox Company Limited. Ranch to be Locatdd at Marshfieled. The Best Island Stock to be Kept in the Pens.

One of the latest fox companies to be organized in this province is the Melrose Black Fox Company Limited which was incorporated at the last session of Parliament. It is capitalized at $150,000 of which $85,000 will be issued now and the balance reserved for future expansion of the business. It is one of the most desirable propositions put before an interesting public.

The Company have secured five pairs of the best bred island stock including the Dalton, Oulton, Gordon and Tuplin strains, the parents having been selected by expert furriers of fifteen years experience. When the inevitable time arrives for a fur basis of value on the Melrose Black Fox Company will take its place with the best, or its promoters claim, in advance of the best in the province.

The ranch is located at Marshfield, six miles from the city on the farm of Mr. Peter McN. Robertson. It is up to the minute in construction and location, being built in an ideal grove of fir and birch sheltered in winter and cool in summer.

It is close to the dwelling of Mr. Robertson the care-taker, who has had a most successful experience in caring for foxes, both young and old. Its location, a mile from the public highway will insure the greatest possible freedom from noise and other distractions, so injurious to a ranch.

The owners of the ranch will supply the pens, food, keeper, night watchman, attendance of veterinary surgeon and every thing necessary for the health comfort and safety of the animals.

If you intend going into the fox business, you cannot go too soon as the price is rapidly advancing. If the litters average three per pair, (and this is but a low estimate,) then the shareholders can rely upon receiving 100 per cent the first year and still retain their original interest in the old foxes, which, after the first year frequently have five or six in a litter. Then the per centage begins to climb.

The officers of the Company are as follows:—

President—J. A. Farquharson, Merchant, Charlottetown.

Benjamin Rogers, Manufacturers' Agent, Charlottetown.

W. B. Robertson, Collector of Customs, Charlottetown.

H. R. Hilson. Merchant, Charlottetown.

Secretary Treasurer, S. F. Hodgson, Accountant, Charlottetown.

Solicitor—Kenneth J. Martin.

We need not dwell on the standing of these gentlemen, as they are all well and favorably known in the business and professional circles.

Application for stock in the Melrose Black Fox Company, can be made to any member of the Board of Directors or to any Branch of the Bank of Nova Scotia in Prince Edward Island. Ten per cent of the subscribed amount must accompany all applications for stock the remaining 90 per cent to be paid on or before August 15th, 1913. In case of stock not being allotted, for any reason whatsoever, the deposits will be returned in full to each subscriber.
