MR. T. J. MURRAY, representing Lud Wurzburg, Halifax, with head office in London, is registered at the Revere. He came from Souris yesterday afternoon and has been visiting Murray Harbor, North Side, and Gasperaux, making extensive purchases of lobsters. The firm that Mr. Murray represents has a salmon factory in British Columbia which packages some 3,000 cases a season. The firm is having their lobsters packed in glass jars instead of tin cans. Mr. Murray says you do not know what you are getting in tin cans. In glass jars you can see what you are getting. You can see if the lobster is clean and free from snout and when opened it is not necessary to remove contents from can. The can has been patented in England, United States and Canada and can be used over and over again if necessary. Mr. Murray said as far as he could learn the lobsters are larger this season than in other years and fishing is good. At Murray Harbor it was dull on Friday last, but fishing is expected to be better in a few days.

You can see if the lobster is clean and free from snout and when opened it is not necessary to remove contents from can. The can has been patented in England, United States and Canada and can be used over and over again if necessary. Mr. Murray said as far as he could learn the lobsters are larger this season than in other years and fishing is good. At Murray Harbor it was dull on Friday last, but fishing is expected to be better in a few days.

MR. T. J. MURRAY, representing Lud Wurzburg, Halifax, with head office in London, is registered at the Revere. He came from Souris yesterday afternoon and has been visiting Murray Harbor, North Side, and Gasperaux, making extensive purchases of lobsters. The firm that Mr. Murray represents has a salmon factory in British Columbia which packages some 3,000 cases a season. The firm is having their lobsters packed in glass jars instead of tin cans. Mr. Murray says you do not know what you are getting in tin cans. In glass jars you can see what you are getting.
