ADVERTISING in the Saturday morning newspaper reaches the people who get paid Saturdays, and draws their attention to their wants while their money is warm.

A LETTER of condolence from Carnegie Division, S. O. T. Bradalbane, has been addressed to Willie and Annie Macdonald sympathizing with them in the death of their brother.

THE latest American fad is buying launches on the instalment plan and you will find on page 3 the advertisement of that millionaire firm, the Michigan Steel Boat Co. represented by Jas. Elliott, St. John, N. B. offering a boat on the plan of payment. Over eight thousand of these boats have already been sold this year which alone testifies to the popularity and quality of this family launch, handsome in appearance, speedy, and roomy.

If any of the Guardian's readers are interested in the stars, they may have a slight chance of seeing Jupiter on the evening of May 11th, says Words and Works the May number of which is to hand. On that evening he will be only one degree south of Venus. On the 18th Mars passes one degree north of Jupiter. The same paper, which has become rather famous for its weather forecasts predicts a reactionary storm period for the middle of this month.

THE attractions of summer life in Nova Scotia are most seductively set out in a well illustrated pamphlet issued by the Dominion Atlantic S. S. Line. Nova Scotia is receiving some first class advertising from many sources and the efforts of the Dominion Atlantic, through its popular travelling passenger agent, F. H. Armstrong, will no doubt result in diverting many travellers to the land of Evangeline. The illustrations in the pamphlet are splendid.

THE energy of the directors of the St. John, N. B., Y. M. C. A. has been chiefly concentrated on the effort to secure funds for a new building. Thirty-two thousand dollars in cash has been collected for this purpose, \$7,000 of which has been invested in the lot opposite the Public Library. Unpaid pledges amount to about \$10,000. The directors expect to be able to raise an additional \$10,000, and this with a \$10,000 mortgage secured by long term subscriptions will be enough to cover the cost of the new building. The architect's plans have been forwarded to the international committee's experts for criticism and the president urged that as soon as the plans were fully decided, the erection of the building should be proceeded with.
