CHRISTABEL PANKHURST AGAIN IN LIMELIGHT

As Candidate for Westminster She Made a Slashing Attack on Lloyd George, President Wilson and Politicians Generally.

(Special to The Guardian)
LONDON, April 12.—Christabel Pankhurst sprang into the lime-light again yesterday. She is the candidate for the expected vacancy in Parliament for the Abbey Division, Westminster, and she inaugurated her campaign by a characteristically slashing attack on Lloyd George, President Wilson, the League of Nations and the Politicians in general for the way the Peace Conference is going. So far as the Premier was concerned she saw hope he might yet make the right choice between the support of a great patriotic majority of Englishmen and heterogeneous gang of Asquithians, Pacifists, pro-Germans, money grabbers and Bol-

shevists, but she seemed to be in despair about Wilson. He is another culprit, she cried. "We must speak out now without fear or favor. He threatens to have a greater voice in British affairs than the Prime Minister himself. He is our great weakness today. If we misjudge him he has only himself. He is our great weakness today, pardonable secrecy."
Miss Pankhurst quoted Von Kuhlmann's sneers at the President and sneered herself at his defeat at the last elections and then she declared that the peace negotiations were after all primarily a European affair and as England was nearer the German volcano she must understand it better than Wilson.

CANADA-ROUMANIA STEAMSHIP SERVICE

First Steamer Sails in a Few Days, Four Others to Follow. Canadian Grecian Service also Inaugurated.

(Special to the Guardian)
LONDON, April 12.—The Roumanian steamship Jruil will sail from Liverpool in a few days for Montreal to inaugurate the Canadian Roumanian service.
This is one of five Roumanian steamers to be placed on this route.

The second boat will leave Liverpool early in May and the others will follow every four weeks.
Arrangements are under way for 75,000 tons of Greek shipping to be placed on the Canadian Grecian route. The greatest difficulty for Canadian trade in Europe is securing sufficient shipping.

The leg was amputated three days later.

This agreement will not prejudice the ultimate disposition of the ships under the terms of the treaty of peace. The vessels will fly the flag of the allied maritime council as well as the national flag of the country undertaking their management.

THE CANDIDATES KEEPING TERRIBLE CONDITIONS SHARP EYE ON FIGHT

Determination and Energy Prime Factors in Contest to Win Place in Big Prize Campaign for Men and Women.

Speculation is already rife as to who will enter the charmed circle of 15 at the close of the contest for the magnificent prizes given away by "The Guardian."
The different candidates are already watching the other candidates and all are planning ways and means to secure substantial returns in votes and corresponding rapid advances. One thing is certain. No mysticism charms or legerdemain will enter into the success. Planning their campaign by the light of the moon, while it is shining over the left shoulder, or carrying the left hind foot of a black rabbit captured in a grave yard, will not further their efforts. There is no luck about this campaign. This moon and his shadow, a black cat, Friday the 13th, crossing your fingers behind your back, or throwing salt over your right shoulder, none of these have any part in the making of success of those who will accumulate the necessary number of votes to secure the honors for their districts.

Letters into your territory, asking support from those people you are depending on, but have neglected seeing. The real interest the active candidates and their friends are taking in the race is becoming apparent, and a number of letters have been received from prospective candidates who are anxious to know whether it is "too late to enter the contest."
The question is easily answered. The contest has hardly started. There is no doubt that some of those who are making good progress were just as skeptical of success as many who still hesitate to enter. Generally the candidates who deliberate well on their chance of winning before enrolling are the ones who are victorious in the end.
A feeling of timidity and hesitation often goes before brave achievements.

DON'T BE TIMID

Most certainly there is no sense in acknowledging your self defeated before you begin. Many will say, "Oh, I would just hate to enter and then not win," but how are you to tell you will not win? What reason is there for you to believe that you should not be among the fortunate ones? Being skeptical of success in any venture where you know effort will bring success is many times the incentive to greater effort and the consequent accomplishment of what you start out to do. Timidity, however, is reprehensible.

ENERGY ALONE COUNTS

The open sesame that will throw wide the doors of success is just energy, determined and undismayed. It is energy that will push your standing far ahead, and lack of energy that will cause you to slip back.

If there ever was incentive to work it is for those candidates fortunate enough to have enrolled their names so early in the contest. They have an advantage which will cease to be of any use unless they avail themselves of it by reaping the first harvest of votes which lies about them in such profusion. There are opportunities now that will be gone later. Perhaps some candidates for another district is planning right now to write

Conference Considering Means of Relief, 200,000 Dying Monthly of Starvation and all Children Under Two Years Dead.

(Special to The Guardian)
WASHINGTON, April 12.—Hjalmar Branting, the Swedish Socialist leader and Dr. Fridtjof Nansen, head of the Norwegian Food Mission to the United States, and several other prominent Scandinavians and Swiss subjects have been conferring with members of the inter-allied relief council in an effort to arrange for the feeding of the larger cities of Russia, especially Petrograd. Dr. Nansen is anxious that the revictualing plan be adopted speedily so that food ships can approach Petrograd as soon as the ice breaks up. Dr. Nansen estimates the death rate at 200,000 monthly, directly or indirectly due to starvation. He says the world cannot stand idly by and watch women and children starve. Virtually all the children of less than two years are now dead in Petrograd, according to Dr. Nansen and conditions are terrible beyond description in the orphan's homes and hospitals.

The Peace Treaty Now Ready

(Special to The Guardian)
PARIS, April 12.—In British circles there is a very clear impression that the Council of Four is now nearer agreement than as yet any one has dared imagine. Today the Dominion Premiers, Borden of Canada, Hughes of Australia, Botha of South Africa and Massey of New Zealand are invited to breakfast with Premier Lloyd George to hear a communication of the gravest importance.
The general impression among these Premiers, according to information from the highest source, is that the communication affects the peace terms to be imposed on Germany. The deduction drawn from this is that the Council of Four has reached a substantial agreement. It is further made known that the utmost secrecy is considered in regard to the peace terms. It is even stated that any journal in attempting to reproduce the feat of M. De Blowitz in 1871 would be held to be a traitor.
