PRINCE EDWARD ISLAND

And Its Attractions to Tourists. Prince Edward Island's summer climate is delightful, and the scenery is beautiful and quietly picturesque. Surrounded by the Gulf of St. Lawrence, it enjoys all the coolness of the sea breeze, and the advantages that can only be derived from sea bathing, at about 65 degrees.

Charlottetown has over 12,000 inhabitants, and is the capital. It has many great retail stores, besides a large wholesale trade. It has a Gas Light and Power Company, two Electric Light plants, and a street railway is in embryo. It has a first class water works and sewerage system. It is famed for its wide and shaded streets, its many pleasant drives, the principal of which is the new Park Boulevard, its attractive surroundings, pure water, and clear, cool and bracing air. It is widely known as one of the healthiest cities in Canada. It has two hospitals, many churches and a large and elegant new Opera House. It also has several fine public buildings and a market which is one of the chief sources of the citizens' pride. It has one of the largest and best equipped pork-packing establishments in the Dominion. On its west side is Victoria Park—a favorite summer resort—while on the east are the magnificent new Exhibition Buildings and Driving Park. Chief among its public squares is Queen Square in the centre of the city, beautifully laid out with blooming plants of every description, fountains, and well arranged walks, and enlivened with a band of music during the summer evenings. The rural scenery in the vicinity of Charlottetown is charming, and horses for driving are abundant at very low prices. Boats can also be hired, and steamers run regularly on the bays and rivers, affording most pleasant excursions. The principal hotels are Davies, Queen, and Revere.

Summerside has about 4,000 inhabitants. It is situated on beautiful Bedeque Bay. It has the largest and finest departmental store in the Maritime Provinces, besides having other large retail stores. It has an Electric Light Plant, and a water works system and sewerage are being agitated for. The hotels are—Clifton, Russ, and Campbell. Georgetown and Souris have a population of about 1,000 each. In the former are the Aitken, and Tupper hotels and in Souris the Sea View. At Cape Traverse, a very pleasant summer resort, is the Lansdowne hotel. In Alberton, the Albion Terrace and Wisner. In Tignish the Railway; in Kensington, Clark's and Commercial; in Montague, McDonald, and in Mount Stewart, Clark's and Manson.

The following hotels open for the summer season: At Hampton, Pleasant View; at Stanhope, Match's; and Cliff. At Brackley Point, Shaw's; at Rustico, Seaside; at Malpeque, North Shore; at Tracadie Beach, Acadia; at Alberton, Seaforth, and at Pownal, Florida. In addition to those already mentioned there are other towns and villages in the Province with hotel accommodations, while many farm houses prepare for the reception of tourists. The rivers and streams teem with trout, the bays with mackerel, while game of almost every description abounds. N. B. - Visitors to Prince Edward Island, who desire full information regarding hotels and boarding houses, trains, boats, livery stables, etc., and how to reach the different seaside and country resorts, fishing places, etc., can obtain the same by writing to or calling on Messrs Johnson & Johnson, Druggists, Prowse Block, Charlottetown, and Mr. D. K. Currie Water St. Summerside, where all information will be cheerfully given free of charge. All hotels and farm houses having accommodations should register at the above places at once, stating charges, nature of accommodation, locality, and such matters as tourists would like to know about.

DR. A. W. CHASE

DISCOVERED NERVOUS A NEW TREATMENT DISEASES FOR

In his study of diseases of the nerves, Dr. A. W. Chase found that in nearly every case the cause of trouble was improper nourishment. About one-fifth of all the blood in the human body is found in the brain, and unless this blood is rich and pure the nerves cannot obtain proper nourishment, and become worn out and exhausted. Nervous depression, nervous headache, nervous dyspepsia, loss of sleep and vital force, lack of energy, are symptoms of weak, watery blood and exhausted nerves. It was as a food for blood and nerves that Dr. A. W. Chase's Nerve Food was prepared. Its remarkable success in curing all diseases arising from thin blood and impoverished nerves is proof that Dr. Chase's theory of feeding the nerves and blood is the proper one; stimulants only urge on the tired and worn out nervous system until there comes a complete collapse. Dr. A. W. Chase's Nerve Food creates new brain and nerve cells, and makes the blood pure and rich. It restores to the exhausted nerves the vigor of perfect health. A WRONG IDEA OF... DYSPEPSIA

Throws all the Blame on the Stomach—The Real Seat of Trouble is the Intestines—The Permanent Cure is Dr. Chase's Kidney-Liver Pills.

It is an old idea long since exploded that digestion is confined to the stomach. No modern scientist denies that by far the greater part of digestion and the more difficult part takes place in the intestines. This explains why dyspepsia is never really cured by preparations which merely aid stomach digestion and act only on the stomach. This fact also explains why Dr. Chase's Kidney-Liver Pills have been so remarkably successful as a cure for the worst forms of dyspepsia and indigestion. Dr. Chase's Kidney-Liver Pills act directly on the kidneys, liver and bowels, and give new tone and vigor to the intestines, and make them able to perform their work of digesting the substances on which the stomach has no effect. Stomach treatment may do well enough for slight indigestion, but if you have chronic indigestion or dyspepsia of a serious nature you can profit by the experience of scores of thousands who have been permanently cured by using Dr. Chase's Kidney-Liver Pills. One pill a dose, 25c. a box, at all dealers, or Edmanston, Bates & Co., Toronto.

Artificial Teeth on Metal Plates

A dentist who knows his business, and one that has any regard for his patients will always advise them to have a metal plate. PROF. MELVILLE B. BUCKLEY, Instructor Boston Dental College, Boston Mass.

In view of the vast amount of injury done to the mouths of wearers of rubber or vulcanite plates, by the retention of undue heat, owing to the non conductivity of rubber, and as aluminum is now so cheaply produced and making as it does a rigid, light, clean, unobjectional plate there seems no reason why any person should wear a rubber or vulcanite plate. Not only this, but better results in fit and adhesion are obtained in difficult cases, than in the use of rubber.

L. P. HASKELL, D. D. S. Chicago Ill. Dental School. The above quotations are from hundreds by eminent dentists whose close observation in many years experience in plate work has learned them the many advantages of metal over rubber.

Many persons who are compelled to wear artificial teeth on a plate find that the ordinary plate causes heating of the mouth, bad taste, shrinkage of the gums, etc., finally causing the plate to get loose, sometimes sore lips, sore mouths and sore throats, and caused directly from the wearing of an ordinary plate.

We recommend a Metal Plate either of Gold, Platinum, Aluminum. It is a conductor of heat and cold, it is non-irritating, and is thinner, lighter, and stonger than any other plate.

We have testimonials from persons for whom we have made metal plates—not one would wear an ordinary plate again. You can have your impression taken, and a metal plate made same day fully guaranteed because we make them ourselves, and know all about the material used. Call and see specimens of our work. Every piece of work done by us must give entire satisfaction to the patient, else we will not allow it to leave our office.

See our Artificial Teeth without plate **Berlin Dental Parlors** CHARLOTTETOWN, P. E. I.

FERTILIZER FACTS!

The value of all Fertilizers consist in the amount of soluble Phos. Acid Nitrogen, and Potash they contain, and the brand which shows the greatest value in these is the one to buy, on the same principle that milk testing 4 per cent. butter fat is more valuable than 3 per cent milk. ENGLISH MANURES costing the same price, contain 20 per cent. to 25 per cent more Phos. Acid, Nitrogen and Potash than any other complete Fertilizer on the market.

Or in other words the Plant Food contained in a ton of other Fertilizer costing say \$35, can be purchased from us for about \$28. All fertilizers are sold under a guaranteed analysis enabling any who may, to verify he above, and the superior quality of these Manures is being shown by actual test year after year by the really wonderful results produced wherever
