Better than jewels — that schoolgirl complexion

Take a lesson from Cleopatra

The girl with a clear, smooth skin, radiant with freshness and natural color, should leave jewels to those less fortunate, for she doesn't need them. The charm of a perfect natural complexion attracts far more than elaborate dress and ornaments.

If your complexion lacks the beauty which women envy and men admire, don't depend on clothes and jewelry to draw attention from its defects.

Every woman can transform her bad complexion into a good one, for alluring freshness and clear color isn't a gift of Nature, but a matter of care.

Do this every day

There is too much dirt and dust where most of us live to make it advisable to neglect this cosmetic cleansing even for a day. Powder should be removed, and rouge, if you use it. They combine with dirt and skin secretions in dangerous clogging.

Dry skin is benefited by cold cream after cleansing. If unusual dryness is your trouble, apply a little before, as well as after washing.

Blended from the same oils

Palmolive Soap is blended from the same bland soothing oils which adorned the sumptuous marble baths of Egyptians, Greeks and Romans.

Modern scientists, with all their research, have not been able to discover milder, more soothing, or more efficient soap ingredients.

But although very expensive, the gigantic volume in which Palmolive is produced keeps the price very low. Users profit by Palmolive popularity.

The Palmolive factories, working day and night, and the importation of the rare oils in vast quantities, allow you to enjoy this finest facial soap for a modest price—no more than ordinary soap.

Made from the Palm and Olive Oils Cleopatra Used

Volume and Efficiency produce 25c quality for 10c

How to have a perfect skin

No girl need be afflicted with a bad complexion, for improvement is simple and easy. Daily cleansing, gentle but thorough, is the secret.

You must use soap, for nothing will remove the dirt, oil and perspiration which collects in the pores and causes most skin trouble.

Choose Palmolive, because its action is soothing. Harsh soap should never be used for washing the face.

Massage the smooth, creamy lather gently into the skin until it removes all clogging deposits. Don't forget your neck and throat. They are as conspicuous as the face for any lack of beauty.

Careful rinsing leaves the skin stimulated, freshened and free from the accumulation which enlarges the pores, causes blackheads and carry infection.
