RAYNOR - MacQUARRIE — An exceptionally pretty spring wedding took place on Friday morning, May 3rd, at the home of the bride, when Miss Marion Pearl Raynor, daughter of Mr. and Mrs. E. W. Raynor, Mount Herbert, was united in marriage to Mr. William Richard MacQuarrie, son of Mrs. Bertha MacQuarrie and the late H. W. MacQuarrie, of Victoria. The ceremony, which took place under a beautifully decorated arch in the living room was performed by the Rev. D. K. Ross. The bride, who was given in marriage by her father, was attended by her sister, Miss Kathleen Raynor. Lieut. F. S Jenkins of the 6th District Signals, who journeyed from Glace Bay where he is stationed, was groomsman. The bride looked charming in a navy tailored suit, smart hat and matching accessories. Her corsage was of varied colored sweetpeas and she wore a rich scarf of silver fox. The bridesmaid wore a becoming light blue tailored suit with navy hat and accessories and a corsage of sweetpeas. Lohengrin's Wedding March was played by Mrs. Raymond MacDonald and during the signing of the register, Mr. Ralph Raynor rendered a very fine violin selection, "At Dawning." After the wedding breakfast was served, the happy young couple, amid a shower of confetti and good wishes, left by motor on a wedding trip through the Maritimes. The groom's gifts to the bridesmaid and groomsman were a monogrammed gold locket and cuff links. The bride is an efficient school teacher. COAL ACT UPHELD

WASHINGTON, May 20 —(AP)—The United States supreme court, in a decision upholding the bituminous coal act ruled 8 to 1 today that Congress can constitutionally prescribe price-fixing marketing controls and other regulatory remedies to cure "chaotic conditions" in interstate industry.

The act was passed in 1937 after [illegible] Guffey Coal Act of 1935, was ruled invalid. The [illegible] was to curb the "overproduction and savage, competitive warfare" which, Justice William Douglas said in today's majority opinion, had "wasted" the bituminous coal industry.

Canada is fortunate in having abundant water power resources. More than 95% of the above is hydro-power. Output rose to a new high level in 1939 reflecting industrial activity and continued expansion in mining. An outstanding feature is the wide spread distribution of low priced power and light to domestic consumers.
