See Those Little Holes!

It's so nice to be able to roast fowl, bake onions, and plum puddings all together, without any of them being tainted.
You see Jack got me one of McClary's Famous Active Ranges

last week, and I've been testing it. All the roasting fumes escape through those little holes in the back of the oven, and so keep the air pure.
And you'd be surprised at the little coal it burns. It's just a dandy Range, and I'll cook Jack lots of good things with it.
This is the kind of talk that has made the FAMOUS ACTIVE the most popular Range in Canada.
Made in 42 styles and sizes.
