KINSMEN PEANUT DAY, Saturday, October 5th. Buy Peanuts and help Kinsmen War Service Work. L-13-10-3-31.

MAKE GAS for yourself buying a 38 Willys delivery and 38 De Luxe model Willys Coupe, run only a few months. T. G. Ives. L-85-10-4-21.

NEW GLASGOW CHURCH OF CHRIST—Services Sunday, October 6th. Bible School 10 A. M. Worship and Communion 1:30 P. M. Cavendish Baptist Services. L-106-10-5-11.

ARRIVES AT CAMP—Rev. C. Guy MacKenzie arrived at Debert, Tuesday night and is busy at his post as senior Y.M.C.A. officer in the Lebert Area. Mr. MacKenzie comes here from Sackville, N.B., where for the past four years he has been United Church minister. He is a native of Charlottetown. — Truro News.

TRYON — BONSHAW UNITED BAPTIST CHURCH SERVICES.—Westward 11 A. M. Preaching service. Tryon 3 P. M. Preaching service. Bonshaw 7:30 P. M. Preaching service. Communion service at Tryon. Rev. S. D. Truro, M.A., Pastor. L-104-10-5-11.

BLUEBERRIES.—We are gathering statistics in regard to the quantity of blueberries marketed in the province and have just received a letter from Clark Bros., Miramichi, to the effect that they have handled (86,880) lbs of blueberries for which they paid three and five-sixths (3 5/6) cents per lb. W. H. Dennis, Minister of Agriculture. L-112-10-5-11.

NEW LADIES' WEAR STORE.—Samuel Kennedy, Proprietor of Kennedy's Ladies' Ready to Wear, situated in new brick Tanton Building, 154 Great George Street, City, announce the opening of his store in this issue. Mr. Kennedy, accompanied by an experienced buyer of ladies' wear visited Montreal, Toronto and other large manufacturing centres placing orders direct with the factories and buying at the lowest possible prices. This stock consisting of a full line of Ladies' Ready to Wear is new and up to the minute in every particular. The business will be run by competent ladies and run economically thereby enabling the savings to be passed on to the buying public.

Germans Trying To Stamp Out Poland

The hand of Hitler falls heavily on occupied Poland. By harsh decrees and prison camp, Germany is endeavoring to stamp out the still glowing sparks of Polish nationality. By forced labor, she is endeavoring to repair her own dwindling supplies of food.

Polish-language newspapers published in the United States reveal some of the story.

American Echo of Toledo, Ohio, tells how, on the anniversary of the day when German troops first crossed the Polish frontier, German authorities held celebrations throughout all German-held territories.

Every Polish town had to name one of its main thoroughfares after Adolf Hitler.

A new government decree makes every German landowner responsible for preparing all of his land for spring sowing. Any land lying fallow will be confiscated by the German authorities and rented to persons of their choosing.

Hundreds of thousands of Polish men and women have been sent to work on German farms and in factories since the Spring of 1940.

German authorities have started the registration of all Polish labor from 15 to 40 for forced work. Educated women are taken first and as intellectual work has been declared unsuitable for Poles, many women are made to scrub floors, clean privies and gather garbage.

Arthur Greiser, governor of Posen, recently declared in a radio speech that Germans who have settled in Posen are "lords of creation" and must remain on their newly acquired lands forever.

Every German, he said, must build his own home, unlike the primitive Polish houses, but corresponding to German character and needs. German youth must move into such homes and in them found new generations.

Polish soil is drenched with German blood and must remain German.

"Kurier Polski," published in Milwaukee, reports that Polish prisoners of war in Germany are starving. Only food parcels from home keep them alive. But the parcels are not coming regularly and deficiency diseases are frequent. Scurvy has been observed in all camps.

THE EMPIRE'S HOUR The people of London are sad tonight. Their hearts full of anxious care. For the bombs have taken their heavy toll. And many are homeless there.

The enemy cares not where he drops His load of death from the skies. For Hitler's orders must be obeyed. Though countless thousands die.

But the heart of the Empire beats as strong. For this is her greatest day. As alone she battles for truth and right. In her proud and fearless way.

She does not fight for herself alone. This battle 'gainst fearful odds. But that other nations might have the right. To freedom of speech, and worship of God.

And out of this conflict bitter and cruel. A greater Empire shall surely rise. And those nations who left her to fight alone, Will look at her then with envious eyes.

—Constance I. Heckbert.

MAYFIELD WOMEN'S INSTITUTE The members of the Mayfield Women's Institute met at the home of Mrs. Millar Orr, on Thursday night, Sept. 19, with the president in the chair. Meeting opened by singing carol and repeating creed in unison. The minutes of last meeting were read and adopted. Roll call was answered by nine members and two visitors. The sick committee reported no sick calls. Committees appointed for next month are: Sick, Mrs. Willard Nicholson and Mrs. Millar Orr; program, Misses Cora Toombs and Stella Inman. Members decided to get 20 lbs. more yarn from Red Cross to distribute among the women of the district. Members decided to paint school seats in Fall vacation. Delegates appointed to attend F. B. League meeting are: Mrs. Willard Nicholson and Mrs. Gordon Houston. Members having to pay 25c to Red Cross at next meeting are Mrs. Millar Orr and Mrs. Edward Cole. Next meeting is to be held at the home of Mrs. Warfield Orr on regular night. Meeting closed by singing the National Anthem.

Anticipates Greater Volume of Traffic on Eastern Lines

MONCTON, N. B., Oct. 4, 1940.—"We anticipate a considerable greater volume of traffic moving to the eastern section this winter than last," declared Mr. J. Hungerford, chairman and president of the Canadian National Railways, when passing through Moncton last night on his return following an inspection trip to the east. During his trip Mr. Hungerford inspected the new work that has been in progress on the Atlantic region of the railway to take care of the anticipated increase volume of traffic. This includes extensions to the freight yards at Moncton and Truro, a new locomotive erecting shop at Moncton and a new engine terminal at Fairview (Halifax). Mr. Hungerford also inspected the Moncton airport, eastern terminus of the Trans-Canada Air Lines of which he is also president. Accompanying Mr. Hungerford on his trip east were N. B. Walton, vice-president in charge of operation and R. C. Vaughan, vice-president in charge of purchasing and stores. Joining the party at Moncton were W. U. Allen, vice-president and general manager of the Atlantic region of the railway, J. E. Gibault, assistant general manager, and Mr. M. F. Tompkins, traffic manager.

*SUBSCRIPTIONS to the Charlottetown Guardian may be handed to their Rept. Arcine Hume.

*WEDDING BELLS.—A very interesting event in the utmost simplicity was an outstanding characteristic, took place at Montague on Tuesday Sept. 10, when Miss E. McLure was united in marriage to Mr. Martin Currie, the Rev. T. O. Hughes, B.A., pastor of St. Andrew's Presbyterian church, Montague, performing the ceremony. Owing to the great upheaval in Europe, with the fate of freedom and democracy hanging in the balance, the wedding was strictly in keeping with the spirit of the times, only a few of the immediate relatives of the contracting parties being present. At the home of the bride's parents, Mr. and Mrs. A. D. McLure, Montague, where a delicious wedding supper was served. A dress of white, together with all the accessories which greatly enhanced her natural charm, made her one of the most pleasing brides to cross the matrimonial threshold in Montague for many years. As a token of her popularity and the esteem in which she is held, she was kindly remembered by practically every worthy organization in Montague, the Rebecca Lodge, of which she is a member, the Sunday school where she finds time to train the youthful mind, and the choir of St. Andrew's Presbyterian church, where she is a valued member. On Sept. 19, a monster shower was held for her at the spacious home of Mrs. J. W. Murdoch, which was largely attended. A number of parties being given by friends and relatives abroad added a lustre, and made a fitting climax to the many useful and costly presents she received. The bride and groom, who are both socially prominent, begin the matrimonial journey amid the best wishes of a wide circle of friends. After a trip through the Maritime Provinces they have taken up their residence in Montague.

ALBERRY PLAINS W. I. The regular monthly meeting of the Alberty Plains W. I. was held at the home of Miss Maria McMillan on Tuesday, Oct. 1. Ten members and two visitors were present. Roll call was answered by Labour Saving Device. It was decided to send for ten lbs. of yarn for knitting. Next meeting to be held at the home of Mrs. Robert Coady on Tuesday, Nov. 5, roll call to be answered by having annual dues. The program consisted of a contest by Mrs. Thomas Doyle, presided by Mrs. Frank Hynes, and a sing-song led by Miss Maria McMillan.

BAND KNITS 400 YEARS Mrs. Dora Montgomery and her "Young Ladies" of Maidenhead, England, came to be the world's champion knitters. They have been knitting for a total of nearly 400 years and have used more than 1,000 miles of wool. Mrs. Montgomery helped with comforts for the troops in the Crimean War. Today, at 90, she is still doing her bit.

Imagine a flock of many kinds of sparrows and hundreds of individuals. From early morning till evening all are busy picking, pecking, pulling at the seeds from the ground and this goes on for days. When we consider that every seed means a seed devoured a seed that will not grow next year. Then, we can form some slight idea of the value of the sparrow flocks in keeping down the noxious weeds which so often harass the agriculturist. How puny our own efforts seem, and how beneficent of Nature to lend us her help in the humble yet efficient little workers the sparrows.

Then, as though it were a kindly act of Nature herself, just when we need her help most, the sparrow flocks drop down upon the weed patches where the seeds are ripening, and who can measure the result.

There are many places throughout the country where weeds grow in abundance. The meadow land allowed to grow wild for a season or two, the rough pasture lot, the hedge row and even the odd corners of the cultivated field, in fact everywhere, untilled by man, becomes a variety of wild flowers during the summer but, what we are pleased to call a "weed patch" in the Autumn. There is, of course, no such thing as a weed. All plants are part of the world of botany. But when some become too common, or get out of place and are not wanted by man, they are called as weeds. In spite of human efforts either as town counsels or farmers dependent on the soil, we do not seem to be able to exterminate weeds.

Then, as though it were a kindly act of Nature herself, just when we need her help most, the sparrow flocks drop down upon the weed patches where the seeds are ripening, and who can measure the result.

NEWSY NATURE NOTES

By Stuart L. Thompson

FEATHERED HARVESTERS

Everywhere we look nowadays is the outdoors we see signs of harvest. The crops have ripened and are gathered from the fields. The pumpkins are gleaming orange and the trees are laden with fruit. But though we do not realize it there is another harvest ripening and a host of harvest-buntlers at work toiling from morning till evening, unnoticed, unpaid and almost unknown. Who are these humble toilers? The flocks of finches and sparrows. And the harvest? The millions of seeds of the weeds everywhere.

Nature has designed this family of birds to be the natural harvesters of her world. They all have stout conical bills well fitted for the task of cracking open the husks and extracting the seeds within. A familiar example is the tame canary of your home, whose fare is almost entirely seeds. There are many outdoor examples among the sparrows. Some, like savanna the vesper, the chipping, the goldfinch, and the song sparrows are with us throughout the year. Others, like the white-crowned, the tree, the fox sparrows, junco and redbell are spent their summers in the north and are now returning to their homes. Like the others, they too, have their fledgling families with them. In October these two groups of sparrows meet in the agricultural parts of our country and find awaiting for them the seed harvest. And, as gathering the harvest seems to be the order of the day, all fall to work and for days, even weeks to come, they are the busiest, most useful, of all our feathered benefactors.

There are many places throughout the country where weeds grow in abundance. The meadow land allowed to grow wild for a season or two, the rough pasture lot, the hedge row and even the odd corners of the cultivated field, in fact everywhere, untilled by man, becomes a variety of wild flowers during the summer but, what we are pleased to call a "weed patch" in the Autumn. There is, of course, no such thing as a weed. All plants are part of the world of botany. But when some become too common, or get out of place and are not wanted by man, they are called as weeds. In spite of human efforts either as town counsels or farmers dependent on the soil, we do not seem to be able to exterminate weeds.

The War This Week

By DON GILBERT. Canadian Press Cable Editor. If similar meetings in the past can be taken as a criterion, the Premier's conference of Hitler and Mussolini in the 57th week of the war forebodes a new drive by the axis which may be as novel in its direction as was the Norwegian stroke, which followed the April meeting of the dictators.

News Briefs

TORONTO, October 4 (CP)—Ontario lumber mills are being urged to work at full capacity to meet war needs. Hon. Peter Heenan, Minister of Lands and Forests said today following disclosure of one American newspaper writer, who after viewing Canada's war efforts, reports a lumber shortage due to military requirements.

HAMPTON, N. B., Oct. 4 (CP)—Fourteen men who elected speedy trial and pleaded guilty to charges of illegally manufacturing liquor and defrauding the Government of revenue were sentenced yesterday by Judge L. P. D. Tilley, of the Kings County Court, to terms ranging from two months to two years with fines. Felix Leger and Foster Green, whom Judge Tilley termed "responsible for this whole transaction," were sentenced to two years each in Dorchester Penitentiary and fined \$1,000 each with an alternative of six months if the fines are defaulted.

OTTAWA, Oct. 4 (CP)—Several offers of air training facilities have been received by the Canadian Air Ministry from municipalities in the southern United States but to date the only official reaction to them has been statements that Canadian facilities are based on year-round training.

LONDON, Oct. 3 (CP)—The King made a tour of London air-raid shelters during a German raid this afternoon. He talked with scores taking refuge in the shelters while Nazi warplanes droned overhead.

WASHINGTON, Oct. 4 (AP)—The coast guard assigned 1,500 men today to protect vessels against sabotage and perform other new tasks in United States harbors. The men will work under captains of ports, and their duties will include watching foreign ships to prevent departure without treasury licences, checking ships of belligerent nations for compliance with armament and radio regulations, and enforcing rules on anchorage of incoming ships.

HOLLYWOOD, Oct. 4 (AP)—A light earthquake, apparently causing no damage, was felt at 2:54 a.m. (6:54 a.m. EDT) today here and in adjoining Beverly Hills.

BRIGHTON, England, Oct. 4 (CP)—Mary Davey, 108 years old, believed the oldest woman in England, died yesterday. She had lived in the reigns of six monarchs.

SHANGHAI, Oct. 4 (AP)—A general withdrawal of United States women and children from the Far East, especially China, appeared probable today as the feeling grew among Americans that conflicting Japanese and United States policies in the Pacific are heading toward an eventual frontal collision.

BERLIN, Oct. 4 (AP)—The newspaper Boersen Zeitung, in a dispatch from Copenhagen, said today Jews would be excluded from German-occupied Norway's civil service and that Jewish stores in Norway must be marked as such. The dispatch also said the Nor-

wegian Rotary Club had been banned.

NEW YORK, Oct. 4 (AP)—A drive against syphilis and gonorrhea has begun by the American Social Hygiene Association with announcement of a four-point program to prevent, control and eradicate the diseases among the armed forces of the United States.

REGINA, Oct. 4 (CP)—The development of Canada's air defences at the Pacific coast impressed air minister Power most during his inspection of Western Canada air stations and training centres, he said last night in an interview during a brief stop here on his way east by train. "I think the west is more air-minded than anywhere else in Canada," he said. His tour took him as far north on the Pacific coast as Prince Rupert and Queen Charlotte Islands.

MONTREAL, Oct. 4 (CP)—A prediction that Canadian exports to the British West Indies will increase shortly was made here by F. W. Fraser, Canadian Trade Commissioner to Kingston, Jamaica, who has just concluded a tour of Canada.
