

NURSES
 Know that good diet is of the greatest importance during convalescence. A beef tea that contains the smallest amount of fat or is weakened by foreign ingredients often hinders, instead of helping, recovery.
 As a perfect, strengthening, stimulating essence of beef, nothing approaches

 COMPANY'S EXTRACT
 OF BEEF

THE FRUIT GROWERS.
 Continued From the First Page.

was discussed forcibly by a number of the members: Senator Ferguson, Robertson, J. S. Clarke and others.
 The subject of "Medical Treatment for Plants" was discussed by J. S. Clark, and owing to the press of business, the paper was incorporated in the minutes of the Association by motion without discussion.
 A committee was now appointed consisting of J. H. Gill, John Johnstone, and J. S. Clarke for the purpose of preparing a permanent exhibit of preserved fruit to be kept at some central place and added to at such time and in such way as may be considered advisable.

On motion by Rev. A. E. Burke, seconded by C. R. Dickie, the thanks of the association were tendered to the press for courtesies extended in promoting the interests of the Fruit Growers at this Annual Meeting.
 The following resolutions were then presented and adopted:—Moved by Geo. Vessey and seconded by Rev. Dr. Chaisson;
 Resolved that the Legislature of the Province be, and is hereby requested to pass the necessary legislation to cause all nursery stock imported into the Province to be either accompanied by a certificate of competent inspection or inspected on landing here; so that this province may be saved from the many pests—notably the San Jose scale—which infest orchards elsewhere.

Resolution moved by J. S. Clark, seconded by J. H. Gill.
 Whereas the knowledge of fruit and fruit-culture is yet very limited in our Province, and our people are being imposed upon by unscrupulous agents, who are doing continual injury to all the interests which we as an Association are endeavoring to conserve.

Therefore Resolved that we request our Local Legislature to so amend or add to the present law relating to travelling agents that tree agents shall be required to register, giving the names of the nurseries they represent; and that such only be allowed to register as present a recommendation from the Executive of the P. E. I. Fruit Growers' Association.

Resolution moved by John Tweedy, seconded by Robt. Carruthers:
 Resolved that in view of the paramount importance of direct steamers with cold storage for all kinds of fruit and meat shipment from this Province to the Old Country, the Honourable, the Minister of Agriculture, be and is hereby requested by the F. G. A. of P. E. I., to procure for the coming season such shipping facilities as the trade of the country demands.

And further Resolved that efficient inspectors be appointed at the respective ports of departure, to see that the products of the dairy, the orchard or farm, sent forward shall be properly marked with the shipper's name, and the grade of the article shipped; and any such shipment as in their opinion is calculated to adversely affect the market or tarnish the good name of Canadian exports, be promptly excluded.

Resolution suggested by the Ontario F. G. A. moved by A. E. Burke, seconded by H. A. Stewart.
 Bentley's Liniment will cure Croup in a few minutes.

GRADING AND INSPECTION OF APPLES.
 TO THE HONORABLE MINISTER OF AGRICULTURE, OTTAWA.

Whereas, it is well known that fraudulent packing of apples for export is a very prevalent evil which is yearly bringing discredit upon the name of our Dominion, and ruining the English Market for our Canadian apples;

Whereas as a matter of fact Canadian apples are the finest in the world, and will bring the very highest prices in the English markets, if confidence in the packing can be sustained.

Whereas, we believe that about eighty-five per cent of the apples grown in Ontario that are shipped to Great Britain are purchased, graded, packed and shipped by dealers, and as it is to their interest, as well as the interest of all concerned, that a reliable brand should be established;
 Therefore, resolved, that this Fruit Growers' Association, of P. E. I. do humbly pray that you will provide some remedy for the same.

We would suggest that certain marks or numbers be adopted to indicate certain grades and sizes of apples, and that it be made a misdemeanor for any one to stamp these marks or numbers upon the outside of his packages unless the contents of the packages are in accordance therewith; that the name and address of the owner and shipper be always required on either the inside or outside of closed packages intended for export; and that an inspector be appointed with power to open any packages and, if found fraudulent to have the grade marks removed, and to expose the offender.

Resolved that a committee of three be appointed from this meeting to take steps for the placing of a permanent exhibit of Island fruit in the Provincial Building, Charlottetown; and further
