Mr. Biette of C. N. R. Deals With Colonization

C.N.R. MONTREAL, P. Q. (Reported by Allie MacLeod)

The following address delivered during Farmers Week, that is embracing England, Ireland, Scotland and the Scandinavian countries. Last year was about the first year we have been able to get any Danish farm labourers to come to Prince Edward Island; and I might say although the numbers are not great, there were thirty-seven single Danish boys came over here and two families. In some instances I have heard that they have left the Island, gone West on the Harvesters Excursion. Personally, I have had letters in my office in Montreal telling me that they were afraid the farmer was not going to keep them all winter, and that they would be through as soon as his potato crop was harvested. They got in touch with Mr. Boulter, and he in turn got in touch with these men; and if these men remained, Mr. Boulter, through the kind assistance of Captain Heesehen, went and had a talk to these boys, and they decided they would remain on the Island.

At Moncton we have had very good success with single Danish farm workers, and in the Apohaqui district three families arrived, one of them with a capital of over \$500. Mr. Boulter had three farms, and he said I will give these farms to these new settlers at a purchase price, and they pay me 6 percent for the first three years. At the end of three years we will divide that into ten annual instalments, retiring the principal in thirteen years. One of these farms arrived in May, and he had possibly \$600 cash. He went to work and at the present time he has five cows, two pigs, about forty chickens, a team of horses, and has been paying his way all along. He didn't have much of a chance, but he worked out, and he had sufficient money to meet all his bills. He had a family of course that helped. There are three families exactly like that in that district.

We placed the first farmer on a farm at \$2900. We put another Mr. Dane on the next farm at \$1300, and what do you think that chap wants for his farm today—\$6,000. That is some increase in the value of property. In that district where those Danes have gone into the property has raised in every case, and we will have to move elsewhere in order to get farms. In the Danish colony at New Denmark in order to try and rent a house I was unable to rent a house in the district. There is not a vacant farm in the district, and the Danes now number about 800, about 185 families in this colony in Victoria County in New Brunswick. They are very prosperous; there is no poverty among them, and all are well satisfied. We placed 200 Danes in farm labourers in Charlottetown, that one colony last year. We also scattered around throughout New Brunswick somewhere around 400

Danes, counting the other 200, which is a very good year's work for these men in employment. We kind of called a halt on sending men of the Land Settlement Board, who to the Island after that; but in about two weeks' time we couldn't get sufficient men. We had stopped the flow coming in, and once you stop the machine it takes a little time to get it started again.

I have here a telegram where we have recruited in Holland forty experienced Dutch families. Is there anyone in the audience, or have you any friends that could take one of these Dutch families, place them on the land, or employ them, unfortunately they have not very much money they will only have \$100 or so on arrival here? With Hollanders and Scandinavians, in all due fairness to them, I must point out that they do not get any assistance in paying their passage to Canada. For instance, this Holland family placed with Mr. Milligan had to pay out \$1500 in steamship transportation. In order for them to come to Canada. When a man brings up fourteen children on a farm in Holland, he must be a pretty good man to have \$1500 to pay their fare over here.

We are working in co-operation with the Department of Agriculture and anyone who desire to employ a man, if they will get in touch with Mr. Boulter, he will relay the word on to me, and I am confident that the Canadian National Colonization Department can send you all the men that you will require for the year 1928.

I have ordered around 150 men, that is British and Danish, for the Island this year, and I hope we will be able to place them. That is just doubling our quota of 1927, which doubled the quota of 1926. I wish to thank you, Mr. Chairman, for the opportunity of being allowed to address this meeting, and to be able to point out some of the little difficulties in recruiting men Overseas. The C. N. R. last year brought in 57 percent of the immigration which came to Canada, and do not forget to order your men early in order to give Mr. Boulter's Department and my department a chance to make a careful selection of the men, and have them here in time to go to work in the spring.

\$243,750,000 Loss Taken By British

LONDON, March 13.—Sir Frank Nelson said in the House of Commons, today, that British investors had lost at least \$250,000,000 (\$243,750,000) supplies of crude rubber and by depreciation of shares in rubber companies because of the government's announcement that a committee would investigate the Stevenson restriction scheme. Sir Frank Nelson said that present investigation of the Stevenson scheme would be "deplorably inopportune." Losses incurred because of the investigation, he said, would mean partial, if not complete ruin to some of the smaller investors.

Fashion Show At The Prince Edward Last Evening

An occasion of most marked interest was this Fashion Show at the Prince Edward Theatre last evening when Messrs. Moore & McLeod Limited, Alley & Co. Limited and R.T. Holman Limited co-operated with the theatre management in playing before the public very effectively the new garments and shoes that fashion dictates for spring. The models were displayed by Misses Margaret Collings, Inez Mutch, Violet Owen, Jean MacKenzie and Gertrude MacAulay, Messrs William Henry and Menton Whitlock. Garments and shoes worn were all taken from the regular stock of Moore & McLeod and Messrs. Alley & Co., and are to be seen in these stores at any time. Nothing was specially imported for the occasion. Following is a brief description of garments worn by the young ladies and gentlemen who acted as models.

General McRae Injured In Fall

(Special to the Guardian) OTTAWA, March 13.—General Alexander D. McRae, M.P., for North Vancouver, suffered a bad fall at 10 this morning as he was leaving the parliament building, accompanied by Hon. Dr. Robert F. Preston, M.P., for Lanark, and W. Earle Rowe, M.P. for Dufferin. He was passing through the main gateway when he slipped on the icy pavement and struck his head on the ground. A doctor was summoned and the extent of his injuries had not been determined at 12 o'clock this morning.

E. Ryan	113	123	139
Total	1548		

D. Ferry had the highest single for the Braves, 141—while E. Ryan had the highest for the Granites, 139.

NOTES

The Captain of the Granites was watching the pits very closely, she must have been struck on the pin boys.

Mary led good last night. Thanks to her coach.

Glady says she gets the exercise even if she doesn't get the pins.

Mary has been warned against using her speed ball, as several pins boys have already been injured.

Eileen doesn't think goose eggs are good for whooping cough.

Dot has asked the management for rubber balls, as the regular ones don't bounce enough.

The managements wishes to warn contestants against all undertone remarks as some of them have been overheard.

K. please don't waste so much time looking for small balls, the big ones roll just as good.

Edna thought the Granites were going to win the first game. But never mind Edna, better times coming.

Anyway this bowling is a ladies game, as we all roll our own.
