FORMAL OPENING OF CHARLOTTETOWN HOSPITAL

Impressive Ceremony Carried Out Yesterday, Including Blessing Of The Building by His Lordship The Bishop, Sermon By Rev. Dr. McLellan, Followed By Pontifical Benediction.

The formal opening of the new Charlottetown Hospital was held yesterday afternoon, the weather being ideal for the memorable event.

At two o'clock His Lordship Bishop O'Leary blessed the building, after which a sermon was delivered by Rev. Dr. G. J. McLellan.

This was followed by Pontifical Benediction in the Hospital Chapel at which the Corpus Christi Choir rendered the music.

Benediction addresses were given by His Worship the Mayor and other prominent citizens.

The function concluded by afternoon tea served in the Nurses Home (St. Anthony's) by the ladies of St. Charles Auxiliary and during which a musical programme, under the direction of Mr. Albert Blanchard was given. This included vocal solos by Miss Lucy Blanchard and violin solos by Miss Kathleen Hornby.

In the evening hundreds of citizens thronged the corridors and balconies of the hospital, all interested in the beautiful interior of the building, a description of which was given in yesterday morning's Guardian.

Reverend Dr. McLellan, in the course of an eloquent and impressive address, said that care for the suffering of humanity has been in evidence all the ages. At first there was a great deal of superstition attending it as in Pagan days, as shown by the erection of the temple to Aesculapius, (the god of medicine). The coming of the Saviour changed all this. He showed compassion on the multitude by undertaking the work of miracles to prove His Divinity. He cured those afflicted of ill and diseases, even the most loathsome of all diseases, leprosy. He commissioned His apostles to carry on the same work, thus proving His Divinity and showing His compassion on the multitudes. The Master not only heals the soul but He heals the body, although His chief mission was to restore the soul in its original to its Eternal Father.

After further elaborating this thought, Dr. McLellan said that when the church emerged from the catacombs in the time of Constantine, institutions were established to combat disease, to work for the common good. In the east and western hospitals across the Catholic Church, being the first hospital for the care of the sick and in-

ORDINATION IS FEATURE OF CONFERENCE

President's Son and Two Others Enter United Church Ministry — Boundaries of Two Presbyteries Change.

SACKVILLE, N. B., Sept. 4.—Three candidates were ordained in the ministry of the United Church of Canada at this afternoon's session of the Maritime Conference now in session here. They were Rev. Ian MacKinnon, Halifax, son of Rev. Clarence MacKinnon, President of the Conference; Rev. W. H. Forsythe, Sheriff Mills, N. S.; and Rev. D. S. McLeod, Dunstonsburg, Prince Edward Island.

The evening session was given over to Social Service discussions, led by Rev. H. R. Grant, New Glasgow, who declared that evangelism was the remedy to be found for many of the problems that beset the leaders of state. He believed that the prohibitory law was greatly in advance over any form of Government control, and emphasized the necessity of the Government to enforce more strict observance of the laws in this respect. He urged the necessity for industrial farms for delinquents, and for Government care of defective children.

Rev. Thomas Marshall, reporting for New Brunswick, said that the outlook for prohibition enforcement was never better, with a new Government in control pledged to support prohibition to the hilt. Addresses were given by missionaries from Trinidad, China and Japan.

The feature of the afternoon session was the ordination ceremony. The three candidates were presented by Rev. Dr. Pidgeon, Moderator, and they were personally greeted by each Presbytery representative present. Rev. Dr. J. M. Shaw, of Pine Hill Theological College, Halifax, addressed the conference on the life and work of the church. He said great things had been wrought by God through church union and he believed the churches embodied in the union had entered into a large fellowship and heritage, not for mere material gain but that the church might enter upon a higher task. "The minister of today is the nation's inner statesman," declared Dr. Shaw.

The report of the committee on Presbytery boundaries aroused considerable discussion. No changes were recommended for the Presbyteries in Nova Scotia, but two were recommended in New Brunswick, and the report went back to the Committee for more detail.

In connection with the Forward Movement, launched by the General Council, and setting a mark of \$4,000,000 to be raised for the purpose, the committee recommended that the obligation be accepted by the Maritime Conference, and organization be set at once in motion to raise the portion assigned to the Maritimes, \$375,000.

Meetings of Presbyteries for prayer and devotion were scheduled for October with a special period of dedication from October 4 to 18. The first three Sundays in November were ordered set aside for the special appeal to raise the Maritime contribution.

Members of the extension fund of \$4,000,000 and a strong committee appointed to inaugurate and carry out a campaign in this connection.

Strike Won't Halt Ships For Canada

MONTREAL, Sept. 4.—"There is no danger of any Canada-bound ships from Liverpool being delayed by the strike, because of the inexhaustible supply of labor there," said J. Havelock Wilson, president of the National Union of Seamen today in regard to the shipping situation.

"Despite advice to the contrary the Germania, Montclair and Aurania will sail on time," he continued. "The strike is over, the strikers who are mostly non-union men received their worst blow when the Majestic sailed. According to the latest telegrams I have received ships are leaving all British ports on time. This even applies to Hull, which is regarded as a strike centre."

"The places of all the strikers will be filled. They are simply throwing away their jobs."

Inquiries along the waterfront today reveal that while some British seamen now in port are inclined to sympathize with the strikers the majority are firmly against "Red" influence.

CANADA AND STATES JOIN TO CURB RUM

Running Activities — Regulations Adopted by Officials of the Two Countries to be Promulgated in Few Days.

OTTAWA, September 4.—Within a few weeks the United States Government, through Secretary of State Frank Kellogg, will make further representations to the Dominion Government looking to the adoption of even more effective measures than those provided in the convention between the two countries ratified last July for curbing rum running. It is understood that the Canadian Government will be asked to refuse clearance to vessels bound for the United States and carrying goods, the importation of which into that country is prohibited, similar request is being made to the Mexican Government.

Under the provisions of the convention ratified in July the Customs officers of the two countries undertake to keep each other promptly informed about the probable movements of vessels suspected of carrying liquor, and the effect of it is that Canadian Customs officers of vessels leaving Canadian ports so that the United States authorities may prevent the landing of the contraband cargoes. It is held by Canadian authorities that they cannot refuse clearance to vessels from Canadian ports whatever the real destination, but they state that under the new convention by warning United States officials of the departure of such vessels can make landing on their side difficult if not impossible.

A way around this situation, and one which would enable the Canadian officers to do real preventive work on their side would be found in the plan to be suggested by Secretary of State Kellogg. By refusing clearance to vessels carrying goods, the importation of which is prohibited by the United States, the Canadian officers would strike a blow at the source of the trouble. Such authority to Canadian officers could only be created by an Act of the Canadian Parliament, and it is probable that the next session will see this matter dealt with. It is argued that the Canadian legislators could not hesitate to approve a measure designed to empower Canadian officials to fulfill Canada's end of an important bargain with her neighboring nation.

Robert F. Farrow, Deputy Minister of Customs and Excise, who headed the delegation of Canadian officials who conferred with Secretary of State Kellogg and other United States officials at Washington a short time ago, stated today that the best of feeling was manifested at the convention and genuine desire to help each other in curbing a nefarious business.

The regulations based on the convention between the two countries and approved at that conference will be promulgated in a few days and made effective.

SENATE APPOINTMENTS ARE NOW CONFIRMED

Mr. J. J. Hughes, M.P., And Mr. Creelman McArthur, M.L.A., Summerside, Are The Lucky Winners Of The Much Sought Honours.

Hon. John E. Sinclair has returned from attending the cabinet meetings in Ottawa and the Patriot confirms on reliable authority the announcement made two days ago by the Guardian that Mr. J. J. Hughes, M. P. and Mr. Creelman McArthur, M. L. A., have been appointed to fill the two vacancies in the Senate. No doubt the official announcement will be made after the Governor General has signed the Order in Council.

The Guardian congratulates both recipients upon their well deserved honour although there may be no doubt be others who are more entitled to the preferment. There will be a good deal of disappointment and heart burning but this was to be expected. So far as Mr. Hughes is concerned, it is generally conceded that he has richly earned his reward. He has been in active politics since 1890 and has served his party, right or wrong, consistently through all these years. There are more differences of opinion with regard to the claims of Mr. McArthur. He is a comparatively young man in years and younger still in political service. However he has been a steadfast supporter of Mr. McKenzie King, is a man of wealth, successful in business, taking a lively interest in community affairs both as regards commerce and sport. He has the honour of representing his native town as a Liberal in the provincial legislature and was beginning to make a name for himself on the floor of the House. The experience gained there will no doubt stand him in good stead when he rises to address his honorable colleagues in the Red Chamber.

As a result of these two appointments, Kings County now has the honour of having two senators. Queens and Prince Counties one each.

The sympathy of The Guardian is sincerely extended to the disappointed applicants and the hope is expressed that some other means will be taken before dissolution to recognize their services in a tangible way.

The Wreck Of The Shenandoah

(Canadian Press.) WASHINGTON, Sept. 4.—Confronted with an overshadowing tragedy in the collapse of the Shenandoah and a disaster to the Atlantic navy officials early received reports of the wreck of the dirigible and hoped vainly for some favorable word from the PN-9. No. 1 plane missing in the mid Atlantic.

The lessons of recent weeks led Secretary Vinton today to express the conviction that the Atlantic and Pacific oceans were still the best bulwarks of the United States, and this country had little to fear from enemy aircraft not operating from this continent.
