

LEADER J. A. MATHIESON ISSUES A MANIFESTO.

(Continued from page 2.)

signally failed to meet the growing requirements of the Province.

Though in close affiliation with the late Federal Government, our Government has failed to secure recognition of our rights to an adequate subsidy or settlement of our claims.

Our transportation grievances have been increased instead of remedied.

The School Book ring is still in possession of a large part of the field, extorting from the parents double prices for text books (other than readers) and school supplies.

The Government has lost the leadership "of Hon. F. L. Hazard, and the "Government-in-line at Ottawa," which were its chief assets.

With a growing debt, declining services, and lost influence, what reason can be given for allowing the Party now occupying the place of administration to prolong its injurious existence?

Consider on the other hand some of the advantages which will arise from a change of Government.

In respect to Education, Honorable Mr. Borden has promised, out of the abounding revenues of Canada, "liberal assistance to the Province" for the purpose of supplementing the work of agricultural education and for the improvement of agriculture.

With our educational system specially adapted to the requirements of this province, the aid thus promised would afford the necessary financial relief, and would fill the departments of Education and Agriculture with new life and vigor.

Mr. Borden has also promised "To grant substantial assistance towards the improvement of public highways, and to remove the disadvantages under which we labor in the transportation of goods and passengers to and from the mainland."

The fulfilment of these promises means good roads from the farm to the point of shipment, greatly reduced freight and passenger rates, cold storage of perishable goods from the

place of origin to the destination and the consequent increase in value of all our exports.

It is essential to place ourselves in the best possible position to take advantage of these splendid offers. While the Government led by Mr. Borden would withhold justice from any Province for party reasons, yet it is not reasonable to expect that the Local Government, constituted as it is, would now be able to improve on the dismal failure they made in dealing with a Federal Government with which they were in accord for fifteen years.

The same may be said of the several claims which this Province has against the Dominion for the cost of the Railway, non-fulfilment of the terms of Union, the alienation of the Public Lands of Canada and other claims set forth in our platform.

Prompt and energetic action is necessary as to all these claims, but particularly in respect to an indemnity for our share of the Public Lands which we helped to buy from the Hudson Bay Company and equip for settlement. Large areas of these lands have already been given away to the larger Provinces, and the remainder is now about to be disposed of in the same way. We should have been heard long ago to protest against the alienation of this invaluable property in which we had a partnership interest unless we received compensation for our share, but every effort to induce the Provincial Government to look after our interests was unavailing.

If it is your will that the party which I have the honor to lead be returned to power we shall at once proceed to realize upon the promises above set forth, to deal effectively with the problems of education; the construction of good roads and other public works; the reform of the Election law; the equalization of revenue and expenditure; and provision for the public debt; a modern system of keeping the public accounts; and lastly, but of vast importance to our welfare, the proper presentation of our just claims against Canada for larger subsidy and additional consideration.

In the circumstances, I respectfully ask you to terminate as speedily as possible the existence of a worn out Government, whose retention cannot fail to operate disastrously to the interests of this Province, and by your votes for Dr. Dewar and Professor McPhail, to usher in a brighter and more prosperous day for the Province.

Faithfully yours, J. A. MATHIESON.

OBITUARY.

It is with feeling of sorrow and regret that their friends learned of the death of Frank, beloved son of Daniel McDonald, Souris, who entered into rest on Friday, Oct 27, at the early age of twelve years. The de-

ceased had been in good health up to three weeks ago when he complained of a blistered ankle, from which blood poisoning developed, and despite medical aid and kind treatment death was the result. On Sunday afternoon a large concourse of people followed the remains to St. Mary's Cemetery where all that was mortal of dear Frank was laid to rest. He is survived by a father and mother, seven sisters and four brothers, who have the sympathy of all in their sad bereavement. The pallbearers were: Ade McDonald, Walter Cheverie, Joseph McCormack, John Cheverie, Earnest White and Percy Paquet. May he rest in peace.

Oh, brother thy gentle voice is hushed, Thy warm, true heart is still; And on thy pale and peaceful face, Is resting death's cold chill; Thy hands are clasped upon thy breast, We have kissed thy marble brow, And in our aching hearts we know We have no dear Frank now.

HORSE NOTES

Among the New Standard performers of this year in the Bay gelding, Ginger, race record, 2:22, sired by Progress Lad, owned by J. H. Curtis of Peakes Station. Ginger started this year practically green, raced in all twelve races winning eight first money's, one second and three thirds. He was raised and is owned by Patrick McKenna of Port Vernon and can be seen any day hauling the plow and doing any odd job around the farm. He will be raced again next year and in his class will be hard to beat.

Physicians agree that grip is not so much to be dreaded for itself as for the weakened condition of the system it produces, which leaves the body an easy prey to other diseases. It is particularly dangerous to old people just on this account.

The very wisest thing that we can advise to all who have had the grip is to begin taking Vinol right away. This splendid tonic braces up the body and makes new strength by enriching the blood and sharpening the appetite, causing more food to be used by the stomach. Vinol is our cod liver and iron preparation, without oil, and is delicious. An Indianapolis lawyer, Mr. John Kinney, says Vinol built him up wonderfully after grip left him weak and run down. We have such perfect faith in Vinol that we warrant it absolutely—money back if you are not pleased.
