"Someday" comes closer
with every dollar you save

Most of us have to plan for the good things of life
And a big part of that planning is a matter of dollars
and cents—of earmarking a certain part
of our earnings for the things we want most.

It's not always easy, especially these days
But the fact remains that what you save is still the
most important—the most satisfying—
part of what you earn.

Are you hoping for something... or saving for it?
