WHAT CAUSES COLDS?

This question is asked every day. A cold is really a fever, not always caused by the weather but often due to disordered blood or lack of important food-elements. In changing seasons fat-foods are essential because they distribute heat by enriching the blood and so render the system better able to withstand the varying elements. This is the important reason why Scott's Emulsion should always be taken for colds, and it does more—builds strength to prevent sickness. Scott's Emulsion contains Nature's rare strength-building fats, so skillfully blended that the blood profits from every drop. It is free from harmful drugs. Sold at drug stores—always get the genuine.
Scott & Bowne, Toronto, Ont. 15-28

PERSONALS

Mr and Mrs Artemas Lord have gone to Tryon to spend the week-end.

Dr. Starratt of the Magdalen Islands was among the recent visitors to this city.

Mr. and Mrs. Albert E. Dumont have returned home from a short honeymoon trip to Montreal.

Miss Helen Clements, Murray Harbour, has left for New York, where she will spend the winter.

Miss Maude McLean left yesterday morning for Boston, where she will spend some time visiting with friends.

Miss Edna Munroe, Milton, is at present visiting her home in Glen Valley, P. E. I.

Mr Frank Bell, West Royalty, is in the P. E. I. Hospital suffering from a broken ankle, the result of a runaway accident.

Mr Albert Hyndman, of St. Peters, brother of Mr. F. W. Hyndman, is undergoing treatment in the P. E. I. Hospital.

Miss Hilda Burhoe, Alexandra, was among the passengers on the western train this morning on her way to Boston, where she will spend the winter.

Miss Cox, of this city has been spending the past few weeks at Ste. Anne de Bellevue visiting her brother-in-law and sister, the Rev. Mr. and Mrs. Lancaster.

Y.M.C.A. WORK AT SUSSEX CAMP

At Sussex Militia Camp last month the representatives of the Maritime National Council of the Y.M.C.A. spent two days to good advantage in checking up their programme of work with the staff officers, and conferring with the O.C. of the 64th Battalion and some of the citizens of Sussex regarding the erection of a permanent building on the grounds, which would greatly facilitate the prosecution of the Association's work among the troops mobilized at the camp from time to time. One of the citizens of Sussex offered to furnish all the lumber. Another agreed to have the lumber dressed and delivered on the ground, while a third gentleman promised to supply hardware. Owing to this splendid response an application was at once made to the military authorities for permission to erect a suitable building on the site mutually agreed upon. This building, when completed will mean much to the work of the Association.

A number of Charlottetown boys have been at Sussex camp. The work for the men of the 64th Battalion assigned there has gone successfully forward. During the week the number of men increased from about 1,800, and service of the most valuable kind was rendered these men as they came fresh from their home into camp life. Many of these men are under twenty years of age, and are away from home for the first time. The following recent week's statistics are very significant:—

- Visits to tent 4,000
- Letters written 3,000
- Letter paper distributed 3,500
- Letters received for men 800
- Express parcels handled 41
- Thirty-six men mobilized with the Association Secretary, Mr. A. S. McAllister, for safe keeping the sum of \$470.

A number of letters were written for the men, and an abundance of good reading matter supplied.

Visits were made to the hospital daily, and reading and writing material supplied. Many happy hours were spent by the men playing checkers and other games. The Association marquee is a veritable home for men away from home. The work of the Y.M.C.A. during this world-wide campaign has been quietly but none the less efficiently going on. This splendid institution is filling a most important part in the life of the men of the British army, far-off training camps of the world.

Were the Association's finances equal to their aims and endeavours, far wider programmes of work would speedily be entered upon, and increased efficiency in every respect would be attained. Already the Association has gained the respect of every Tommy, some of whom have a rooted antipathy to anything that savours of religion. But this adverse opinion soon vanishes when the effect of the Association's unselfish work begins to dawn upon him. When once he has commenced he will be the first to admit the value of the work.

NEW YORK MAN COMMITTED SUICIDE.

NEW YORK, Nov. 4.—Edward McManus, thirty-one, secretary to a wealthy woman to-day killed his wife and four year old son, William, by cutting their throats with a razor, slashed the throat of his two month old daughter Gertrude, and then committed suicide by cutting his own throat. The little girl, hospital surgeons said, will probably live. McManus has been ill for some time and is believed suddenly to have become insane.

BRITISH GOVT. FEEDING PRISONERS IN GERMANY IS TRAVELLER'S STORY

LONDON, Nov. 1.—Travellers arriving from Scandinavia say reports are current there that the British Government is now supplying food to British prisoners in Germany. In official circles here it is denied that any such step has been taken by the Government. It is known, however, that relatives and friends of the prisoners are sending by parcels post enormous quantities of food, especially bread, as the prisoners complain they are unable to eat the German war bread. The report aroused interest in official circles, where the opinion was expressed that Germany might be making overtures through the United States for some such arrangement. The belief is growing here that shortage of food in Germany is becoming serious.

CANADA GIVEN PREFERENCE IN WAR CONTRACTS

PARIS, via London, Nov. 3.—Canada is a name to conjure with just now in Government and Trade circles here. Last night the French War Office issued a contract awarding to the Ogilvie Mills of Canada seven to ten thousand tons "Bakers Special." The flour must arrive in France by the second week of December, and there is every probability of repeat orders. The contracts were won in competition with the largest milling concerns of Chicago.

Two other large contracts have been awarded Canadian firms during the week. The National Car Foundry Company of Hamilton have, I am assured, been given an order for 3,000 trucks, immediate delivery, with an option on follow-up orders of same amount, while a Maritime Provinces concern has practically a similar contract.

A large Dominion railway company has been approached by a French committee and will ship a large amount of rolling stock immediately for the use of the French States and Paris, Lyons and Mediterranean Railways, and the same Canadian company has offered several hundred miles of steel rails of moderate weight on which the French committee seems to favour acceptance.

The first shipment of frozen meat from Canada has proved to be over standard and sold well in the Paris markets and figures on the menus of several restaurants with world-famous names. The Burns Company, I am told, have signed a greatly enlarged contract.

Five thousand sectional wooden houses, such as used on our western prairies, are now being constructed by an Ottawa company, and first deliveries are to be made this winter, to be used in the Senlis, Chateau, Thiers and Villiers Cotterets districts, where French farms are already being cleared of the debris of war.

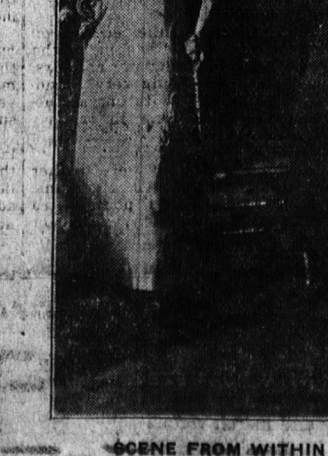

Shell forgings and smaller ammunition are arriving in France from the Dominion almost daily, and several large contracts are now before the Russian and Italian commissions buying here and may be awarded to Canadians this week.

TIBER OVERFLOWS AND STOPS TRAFFIC.

ROME, Nov. 4, via Paris.—The floods caused by the overflowing of the Tiber have interrupted railroad traffic, uprooted trees and drowned cattle. Many peasant families have been rescued from areas surrounded by water. No loss of life has been reported. Fine weather has set in and it is hoped the floods will soon subside.

GROCCERS DISTRIBUTING FOR DR. JACKSON.

Dr. Robert G. Jackson, who has invented a food, and not a drug, that relieves constipation and indigestion, reports that live grocers all over Canada are now large distributors of his food.

WHAT CANADA PAYS!

SOLDIERS PAY AND ALLOWANCES, CONDITIONS OF ENLISTMENT PROVISION FOR WIVES, MOTHERS AND CHILDREN

Canada is determined that her sons shall be as well paid and their families as well cared for, as a grateful and wealthy country can afford. The scale of pay for Overseas Service, the allowances from the Patriotic Fund, and the Pensions, are on a more liberal basis than those of any other country engaged in the war.

SCALE OF PAY

RANK	Pay per day	Field Allowance per day	Separation Allowance per month
Sergeants.....	\$1.95	\$0.15	\$25.00
Corporals.....	1.10	.10	20.00
Privates, Buglers, Drummers etc.....	1.00	.10	20.00

The men are, of course, fed and clothed by the Government. The Separation Allowance is the sum paid by the Government to the wife of each enlisted man, or to the widowed mother if the son is unmarried and is her sole support. This is in addition to part of his pay which is reserved for her. One-half of a soldier's pay is withheld by the Government and paid to his dependents. This ensures that at least \$35.00 per month is paid by the Government to the wife of each soldier.

THE PATRIOTIC FUND

The Patriotic Fund has been created to assist those dependents of a soldier who need more help than the Government gives. From this Fund the following sums are paid if the need exists:—

Wives.....	From \$5.00 to \$10.00 per month
Children of widowers.....	
Mothers of unmarried men.....	
Children of married men according to age and number in family.....	\$1.50 to \$6.00 each per month

Ladies representing the Patriotic Fund pay regular visits to families of men on Overseas Service, and give friendly advice and practical help in case of need. Many employers have pledged themselves to give preference to returned soldiers when engaging men.

PENSIONS

The Canadian scale of pensions range for private soldier, from \$75.00 per year for certain minor injuries to \$264.00 for total disability. In case of death \$22.00 a month is paid to the widow, and \$5.00 a month for each child. A widowed mother whose son was her whole support receives \$22.00 a month.

CONDITIONS OF ENLISTMENT

Age—18 to 45 years. Height—5 feet 2 inches minimum

HOW TO ENLIST

Apply to CAPTAIN CAMPBELL or to any recruiting officer MAJOR LEIGH, CAPTAIN COOK, LIEUTENANT MOORE or write for information to Provincial Patriotic Association, Charlottetown

TALK OF PEACE SPREADING AMONG GERMANS

BERLIN, Nov. 2.—Cold weather, bringing the first snowfall, has given salutary chill to the premature hopes of excessively optimistic Germans who have been talking about peace by Christmas, or saying that war could not last through another winter.

There is a very strong feeling, however, not only among people in general, but also in well-informed circles, that the turning point of the war has been passed, and that the Balkan campaign is bringing the peace goal appreciably nearer.

The Tagblatt in an editorial says that the Reichstag must have a say in framing the conditions of peace. It comments: "The German people still seem far away from peace. Still less is it possible to see to-day in what form peace will come. For this and other reasons, therefore, in discussing the question of what responsible factors will have to work together in the re-establishment of the peace of the nations, everything must be left out that concerns the possible terms of the coming peace."

"Nevertheless, against the influences that seek to sidetrack the Reichstag one must maintain the ground with utmost emphasis that among the factors that will figure in the peace negotiations the Reichstag must not be

CHICAGO MARKETS

(Special to the Guardian.)
CHICAGO, Nov. 5.—Wheat, No. 2 red, \$1.08 to \$1.10; No. 2 hard, nominal; No. 3 hard, \$1.03 to \$1.06. Corn, No. 2 yellow, 66c; No. 2 white, 65 1/2c. Oats, No. 3 white, 36 1/2c to 37c; standard, 36 1/2c to 40c. Tye, No. 2, \$1.02. Barley, 55c to 65c. Timothy, \$5 to \$8. Clover, \$10 to \$20. Pork, \$14.25. Lard, \$8.80. Ribs, \$9.37 to \$10.50.

The chief editor of the Leipzig Zeitung publishes an interview with Hakkı Pasha, the Turkish Ambassador to Germany. To the question as to what would become of Albania the envoy replied:

"That is a difficult problem, all the more difficult because in regard to Southern Albania the Greek wishes will have to be taken into account. Northern Albania is a problem all by itself. The best plan would be, perhaps, to make it an independent State, with strong protection at its back."

As to the future of Serbia the Ambassador said:

"The best thing would be if the devil would take the Serbians, but even he won't do that."

"That depends on how long the war lasts," answered the Ambassador.

The editor asked: "Shall we march to Egypt?"

THIS WASHER MUST PAY FOR ITSELF

A MAN tried to sell me a horse once. He said it was a fine horse and had nothing the matter with it. I wanted a fine horse, but I didn't know anything about horses men. And I didn't know the man very well either.

So I told him I wanted to try the horse for a month. He said "All right, but I'll give you back your money if the horse isn't all right."

Well, I didn't like that. I was afraid the horse wasn't all right and that I might have to waste my money if it once started with me. So I didn't buy the horse, although I wanted it badly. Now this set me thinking.

You see I make Washing Machines—the "1900 Gravity" Washer.

Our "Gravity" design gives greatest convenience, as well as ease of operation. It washes clothes as I wash them, and about the man who owned it.

But I'd never know, because they wouldn't write and tell me. You see, I sell my Washing Machines by mail. I have sold over half a million that way. So, thought I, it is only fair enough to let people try my Washing Machines for a month, before they pay for them, just as I wanted to try the horse.

Now, I know what our "1900 Gravity" Washer will do. I know it will wash the clothes, without wearing or tearing them, in less than half the time they can be washed by hand or by any other machine.

I know it will wash a tub full of very dirty clothes in six minutes. I know no other machine ever invented can do that without wearing the clothes. Our "1900 Gravity" Washer does the work to ease that child can run it almost as well as a strong woman, and it don't wear the clothes, fry the edges or break buttons, the way all other machines do.

It just gives away water and steam through the fibres of the clothes like a force pump might.

So, said I to myself, I will do with my "1900 Gravity" Washer what I wanted the man to do with his horse. Only I won't wait for people to ask me. I'll offer first, and I'll make good the offer every time. Let me send you a "1900 Gravity" Washer on a month's free trial. I'll pay the freight out of my own pocket, and if you don't want the machine after you use it a month, I'll take it back and pay the freight, too. Surely that is fair enough, isn't it?

Doesn't it seem that the "1900 Gravity" Washer must be all that I say it is?

And you can pay me out of what it saves for you. It will save the whole cost in a few months in wear and tear on the clothes alone. And then it will save 50 to 75 cents a week over that on washwomen's wages. If you keep the machine after the month's trial, I'll let you pay for it out of what it saves you. If it saves you 60 cents a week, send me 50 a week till paid for. I'll take that cheerfully, and I'll wait for my money until the machine itself pays the balance. Drop me a line to-day and let me send you a book about the "1900 Gravity" Washer that washes clothes in six minutes.

Address me personally, N. C. Morfit, Mgr., Nineteen Hundred Washer Co., 257 Yonge St., Toronto, Ont. (Factory: 79-81 Portland St., Toronto, Ont.)

SCENE FROM WITHIN THE LAW AT THE PRINCE EDWARD MONDAY NIGHT.
