One of the last of the experiments was to send a test party of two ladies and two city business men, all of whom were very bad sailors, on trips from Dover to Calais, from New Haven to Dieppe, and from Holyhead to Dublin, the last, especially being in what sailors call "dirty weather" and they all enjoyed their trip very much. Labor saving methods in Fur coat buying

NOT TO MINCE matters, you know that in most places when you want to buy a fur coat the deal is largely a matter of "beating the salesman down." This is a process that takes time--and is not satisfactory to anybody. When you come here you are quoted the lowest price that we can accept. And you are quoted that first. We don't waste your time over it. We show you the best coats that can be made--and we welcome the idea of "looking round." Where a customer does "look round" with care--we get the order. This is pretty strong, we know, but we make you the judge. Our leading prices are \$35, \$37.50, \$42.50, \$47.50, \$52.50, \$57.50. And if we were pricing these goods as most stores do, we would have to ask you twenty to twenty five per cent more in each case. We lay the matter before you--and merely ask an investigation when you're looking for the coat. Compare our values with the best mail order houses on earth.
