Attention to Farmers Near Charlottetown

Apparently some of my customers, as well as some of my competitors, have misinterpreted my circular letter published last December, which reads as follows:

To the Farmers near Charlottetown:

Your splendid patronage this fall, in my judgment, warrants more up to date warehouse facilities.

My aim is to buy practically all my requirements from the farmers near Charlottetown, rather than telephone all over the Province. This means better facilities at Charlottetown to look after my customers, and it gives me great pleasure to announce that I have plans now in the hands of contractors for a new modern potato and turnip warehouse to be equipped with the latest electric grading devices for both potatoes and turnips.

In the spring I plan to put on a couple more trucks, whereupon we will buy your potatoes and turnips for cash in your yard, and sell you fertilizer delivered on your farm.

These improved facilities have only been made possible by your very hearty co-operation of which I am extremely grateful.

We expect to get started on the warehouse the latter part of this month, and have it in readiness for the spring movement. The Modern Electrical Grading Device referred to will be supplied, and will be for the use of my customers, as well as other dealers' customers, providing they wish to pay me a nominal fee for the use of same.

My idea is that there is a sufficient movement of produce near Charlottetown, by the numerous farmers, to warrant an up-to-date Electric Graders.

Regarding fertilizers. My price will be the same at Charlottetown as other dealers, and the Island Fertilizer Co. Ltd., but if you want your fertilizer delivered on the farm I will charge you fifty cents per ton truckage, and deliver it with my own truck. For illustration, Superphosphate, 16%, is advertised in to-day's paper at \$17.00, that is the carlot price delivered at, say for illustration, Mount Stewart, that Superphosphate, 16%, will cost the farmer \$16.50 if he hauls it from Charlottetown, or \$17.00 delivered by my truck.

I respectfully solicit a share of your fertilizer business, and should have your orders filed at the office within the next three weeks, to enable me to order my total requirements. My terms will be as near as possible cash.

Remember last fall that neither dealer or farmer was permitted to recondition potatoes or turnips in the Export Shed at Charlottetown, and whether or not you are a customer of mine, I will be in a position to allow you to recondition any load that might be rejected. Kindly give me a share of your fertilizer business to warrant this considerable expense that I am undertaking.

(Signed) FRANK B. CLARKE

Produce & Insurance,
Prince Street Wharf,
Charlottetown.

Georgetown

The citizens of Georgetown and surrounding districts were very privileged to have with them Professor Edlt of the Experimental Farm, Kentville, who gave three very excellent and instructive lectures in the Georgetown public hall. The first on Monday evening was "Vegetable growing and commercial fertilizers." A full hall greeted the learned speaker and he dealt with his subject in a thorough and efficient manner. Mr. D. P. McKinnon presided at the opening meeting.

On Tuesday afternoon another large crowd greeted the lecturer who spoke on "small fruits and berries". Much valuable information was given to the audience who were quick to sense that here indeed was a field rich in possibilities of which they knew but very little. At this session the speaker let it be known that this season from the farm at Kentville ten thousand blueberry bushes would be given out to selected growers in the Maritimes, one hundred to each grower.

At the final session on Tuesday evening the subject was canning, and in the course of his address Professor Edlt found time to give some real tips on jam making. At the close of the lecture a vote of thanks moved by the Rev. O. Kiggins, seconded by Capt. Charles Fitzgerald and supported by Rev. Mr. Sterling, Rev. Mr. Payne, Mr. D. P. McKinnon, Mr. E. B. McLaren and others was tendered the speaker by His Worship Mayor J. J. Condon, who presided.

Mr. Louis Victor, son of Joseph and Mrs. Victor, Georgetown, returned recently to his home, having spent the past year or so in New Brunswick. Louis is looking hale and hearty and plans to return some time in April.

Congratulations are being extended to Mr. and Mrs. George Mair, Burnt Point, on the arrival of twin boys.

The Georgetown Junior school boys journeyed to Montague on Saturday last, where they were defeated by the local team 4-2. Several of the school girls accompanied the young lads and report a most enjoyable sleigh drive.

Mr. Wilfred Hunter of the post office staff, Charlottetown, motor-ed to Georgetown recently.

The many friends of little Bobby Hobbs, Georgetown, will be pleased to learn that he is about again after several weeks' illness.

Frankie Parker, youngest son of Mr. and Mrs. Henry Parker, Georgetown, was the victim of a peculiar accident while coasting on a hill adjoining his home on Friday.

The girls' hockey team of Souris attempted to reach Georgetown on Friday night by motor car. They got through as far as Dundas but were then forced to return. Naturally the girls were disappointed as were also the Georgetown girls.

And now with one game of the finals tucked safely away the married men's team of the Georgetown hockey league feel they are sitting pretty for the cup. Captain Leo and his gallant Hawks, however, are still in the picture and let us warn all to watch those swooping, elusive birds. Long shooting in this small rink spoils the game from a spectator's viewpoint but still there are those who will persist.

Mr. Wade Hughes, M.P.P., Souris, was a recent visitor to Georgetown, spending several days.

Mrs. Dr. D. D. Scanell, Jamaica Plains, is visiting for a brief time at her old home in Georgetown.

Train English Lads For Dominion Farms

LONDON, March 16.—(CP Cable)—The government would not limit assistance to such enterprises as the Fairbridge farm schools established on Vancouver Island and at Pinjarra, Western Australia, Earl Stanhope, first commissioner of works, stated in the House of Lords tonight. A third Fairbridge Farm School, at which young English boys are trained for Dominion farm life, is planned for New South Wales.

Lord Stanhope, speaking for the government during debate of Empire Settlement Bill, which was given third reading, was asked by Lord Barnby if any limitations were planned on contributions to such projects.

He replied there would be no limitation and the government was ready to assist farm schools and land settlement schemes generally.

OLD REGIMENT CELEBRATES

LONDON, (CP)—The Ancient and Honorable Artillery Company of Boston, a daughter company, will send 100 members to London in July for the 400th birthday celebrations of the Honorable Artillery Company, oldest regiment in the British army.

IN MEMORIAM

MRS. MALCOLM MacKINNON

In the early hours of Tuesday March 2nd Mrs. Malcolm MacKinnon, a very highly respected resident of Rocky Point passed peacefully away at the age of 83 years.

The deceased had been in her usual fairly good condition of health until a few weeks before for the coming of the end, when she began to fail rapidly. All that medical skill and kind friends could do was done to relieve her of her suffering but all to no avail. Her strength grew gradually weaker until on the above mentioned date her gentle spirit winged its heavenward flight.

Her husband passed away some 13 years ago also her eldest son Arthur. She now leaves to mourn seven sons and six daughters namely: Fred, Horace, Artemas and Harold of P. E. I., Ivan, Bert, Parker of U. S. A., (Lavina) Mrs. Nelson Gamester, Hunter River, (Edna) Mrs. John Pater, Arlington, Mass.; (Laura) Mrs. Millard Giles, W. Mass.; (Mabel) Mrs. Russell MacKinnon, Charlottetown; (Mary) Mrs. Charlie Ferns, New York; Hazel of Winchester, Mass. Thirty-four grand children, thirty great grandchildren living.

Mrs. MacKinnon was greatly beloved by her family and all are feeling their loss very keenly, especially her grand daughter Muriel whom she reared from infancy. They were eight of her family with her during her last illness, also present at the funeral.

She was the daughter of the late Mr. and Mrs. James Smith. She was one of a large family, only one brother Frank survives. She was a lady well known throughout a large circle of relatives and friends and was held in very high esteem by all. All through her life she was noted for her kindness and her hospitality. To her home all worthy comers received a hearty welcome and no one needing aid ever called upon her in vain. In time of sickness and of sorrow, because of her kind and sympathetic manner, she was much sought after. Henceforth many a one with aching brow will miss her gentle touch while others in their hours of anguish and of trial will await in vain for her word of sympathy and of good cheer. But her work is done. She has gone to receive the "well done of the good and faithful servant." Her passing was one of sweet peace. She was a faithful attendant of Zion Church until her health prevented her from attending her place of worship.

The late Rev. George C. Taylor was a personal friend of Mrs. MacKinnon, when he was the pastor of the Zion Church. Her funeral was largely attended by relatives and friends from far and near on the afternoon of Wednesday, March 3rd. The service was conducted by Rev. G. C. Webster of Zion Church at the house and grave. She was laid to rest beside her husband and son at Highfield Cemetery. The pall bearers were, Messrs. James, John, Daniel Smith, Angus MacEachern, Michael Murphy and E. T. Currie. The floral tribute: were beautiful. (Patriot and Boston papers please copy).

Mr. John Taper

Word has been received by Allan McKay, Bradabane, of the recent death of John Taper, at Buxton, Maine. Mr. Taper who was for many years a resident here, died Thursday night, March 4th, in Buxton, Maine, aged 72 years, following a weeks' illness. Mr. Taper died at the home of Mr. and Mrs. William T. Soule, where he had been farm superintendent for the past 30 years.

His home was in Brockton, Mass. where his widow, Mrs. Martha Taper resides at 26 Glenwood Square. Besides his widow he is survived by one daughter, Mrs. Henry Brink, also of 26 Glenwood Square, and two grandchildren, Ann Elizabeth, and John Gordon Brink.

Mr. Taper was a son of the late Mr. and Mrs. Robert Taper of Grandville, P. E. I. He lived there in his boyhood and was married there, going to Brockton with his wife to make his home 38 years ago. He was a member of Damocles Lodge, K. of P., of Brockton.

The funeral service was held from his late home 26 Glenwood Square, Brockton, Mass., Sunday, March 7th, at 2 P. M. (Patriot Please Copy)

YOUR BODY'S BIGGEST ORGAN

It has so many functions that if unhealthy in action, multitude of ills result.

Yes! It's your liver that affects your digestive tract, kidneys, blood, skin, muscles, intestines and certain glands—including reproductive glands. If it's sluggish you may suffer headaches, nausea, indigestion, constipation, backache, yellow skin and other ills. So keep your liver active. Use Fruit-a-tives, the famous remedy that contains extracts of fresh, yellow, sweet works with nature to stimulate the liver, the proper flow of bile. Fruit-a-tives affects the intestinal tract to purify the blood of poisons and acids. Their tonic effects help bring new life and energy. Start Fruit-a-tives today. And be sure to get genuine "Fruit-a-tives"—don't accept substitutes.

HOW TO MAKE YOUR HOSE WEAR longer...

Wear "Fit-All-Tops." Their stretchy tops, specially knitted in, will accommodate strains that make ordinary hose run like lightning. Fit-All-Tops are as sheer and beautiful as party hose but, oh, what a difference that Kayser top makes in comfort and wear! Many lovely colors.

\$1.00

4-thread chiffon
7-thread service

POMP—(Subdued greyish beige). Correct with navy, smoky and violet blues, and all reds.
GRANDEUR—(Lively dark beige). New for "baroque" yellowish greens and rust.
ENCHANTE—(Warm light beige). Perfect for new Spring beiges and light vivid shades.
RICHESSE—(Rosy copper hue). Sprited accent for black or rust.
GLORY—(Golden tan). For town wear with beige and rich light browns.
NOBLESSE—(Radiant copper). Lively accent for bluish greens and medium blues.

Let us show them to you!

A Word to the Wise!

Suit your stockings to the occasion! and you'll save money

Three-threads are fragile as a moth's wings. They are intended for your brighter moments.

Four-threads are smart any hour of the day. KAYSER four-threads look like three-threads, but are stronger.

Fit-All-Tops* for stress and strain, not just for the woman who requires that extra "give" above the knee.

Service Weights, if you want long life and stockings not too transparent. KAYSER service weights are shadowless.

ARE YOU PAYING TOO MUCH FOR YOUR HOSE?

If so—why so? Try the 75c Kayser "Mir-O-Kleer" hose. It's wonderful—it's beautiful and it wears and wears—as all good hosiery should. You'll find it perfect for day-in and day-out purposes!

MOVING PICTURES BY X-RAY CAMERA

LONDON, March 16.—An X-ray camera which will take moving pictures has been perfected by a Harley street radiologist.

It is now being used at the Nuffield Institute, Oxford.

The invention has taken a year to complete and test out.

It enables a doctor to take a fast-moving X-ray picture, and then slow it down so that he may study it in detail.

A series of pictures taken over a period of weeks can be joined up into a "history" of a case.

It is expected to prove a great aid to the study of gastric, abdominal and respiratory illness.

Up to now it has been impossible to take more than one or two quick X-ray still pictures of a patient at a time owing to the grave risk of burning the tissues.

In a recent X-ray film shown to medical men a number of discoveries in connection with the digestive process were made.

It has never before been possible to see food being masticated, swallowed and digested.

The apparatus costs £1,500, but is no more expensive to run than the still X-ray apparatus. One has been sent to Australia.

Boots For Sheep With Foot Rot

To enable dressings to be retained on the feet of sheep suffering from foot-rot, a rubber boot has been designed which closely fits a sheep's foot. At present sheep affected by foot-rot may have their feet dressed with ointment or other remedies and then be turned out with out any covering on the wound. The result is that the ointment is soon rubbed off, and the treatment has to be renewed again and again. The boot now introduced which can be obtained in sizes keeps the dressing in place and experiments have shown that normal cases of foot-rot can be cured in a week with one or two dressings through the use of the boot. The boot is proof against acid as well as water and is made in five sizes. It is shaped in a fashion to avoid chafing.

STOPS RUNAWAY TEAM

NEW DELHI, India.—(CP)—Sergeant P. L. Stowe, artilleryman has been cited for a gallant act in hanging on to the reins of the lead horse of a bolting team and bringing it to a stop after being dragged 200 yards.
