JACK THE HUGGER AT FREDERICTON

FREDERICTON, April 29.—The man arrested as a result of numerous recent reports that a Jack the Hugger had been active at night in Fredericton on the secluded streets

during the past few weeks has been made.

Declared by the police to have been identified by two girls as the man who grabbed them on King street, on Tuesday night, a foreigner appeared in the police court this morning and pleaded not guilty to the charge preferred against him.

Judge Limerick remanded the prisoner until this afternoon, when the police were told to have the girls on hand as witnesses. It is understood to be the foreigner's contention that anything he did was in fun, but his difficulty may be to get the police magistrate to look upon the incident as a joke.

Do not suffer another day with itching, bleeding or protruding piles. No surgical operation required.

Dr. Chase's Ointment will relieve you in one and a half hours. It is the best of all ointments for piles. It is sold by Dr. Chase's Ointment Co. Limited, Toronto.

Indemnity Difference Small Says Berlin

One London Paper Declares German Proposals Are Worthy of Consideration

PARIS, April 29.—The German embassy here has issued a lengthy explanatory statement regarding Germany's reparations offer. It claims that the difference between the sum offered in Berlin's last proposal of two hundred billion gold marks and the \$20,000,000,000 gold marks under the Paris terms "is but small."

"Deserves Consideration"

LONDON, April 29.—The Daily Mail in an article printed this morning concerning the German note says the British Government's attitude is that "it deserves examination." Premier Lloyd George, it is understood says the Daily Mail has declared privately that if Germany arbitrarily makes her offer dependent upon having her own way in Upper Silesia and upon the immediate withdrawal of the Allied troops from the Rhine—meanings which are generally read into paragraph twelve—it will be impossible to consider it at the Supreme Council Saturday.

ELIMINATION OF IMMODEST DRESS ETC.

HAMILTON, Ont., April 29.—The elimination of immodest dress and smoking, amongst women, "joy riding," promiscuous, improper and immodest dancing, vulgar and indecent pictures and the encouragement of wholesome counter attractions is the programme of the social service work undertaken by the Anglican church as outlined by Bishop Clark yesterday at the annual meeting of the Women's Auxiliary of the Niagara Diocese.

The Bishop advocated the appointment of women factory inspectors for factories and moving picture theatres. He said many mothers neglected everything for pleasure, and the result was the degradation of women and the divorce courts.

Bishop Clark said it was a restless age, and the clergy were all most as restless as the people. Five years, he said, was the average length of time for a clergyman to remain in a parish.

AGGRAVATED STATE OF BRITISH BUTTER TRADE

MONTREAL, April 29.—Produce men are watching the British butter situation with interest. At the close of the Food Control last month there were fully 57,000 pounds of butter which had been imported by the Government either in the country or due to arrive. The sale of this butter will be controlled by the Board of Trade through a disposal board.

British traders say the distribution of such large stocks constitutes a serious problem for the Board of Trade contends that it has no concern with the question of distribution but merely wants to get rid of the surplus. This attitude traders contend is shortsighted because it is obvious that such a big supply will only be bought up as and when buyers are confident that the market can absorb the goods. As "free" butter will be more plentiful as each week passes, the public are now as dependent on Government stocks as they have been up until this season. The big buyer, moreover, will take care to select the best of the goods, leaving the less attractive stocks alone to deteriorate, possibly to waste.

PONZI'S RIVALS WERE FOUND GUILTY

BOSTON, April 29.—Chas. M. Brightwell, president of the Old Colony Foreign Exchange Company which sought to rival Charles Ponzi in easy money promises last summer were found guilty today of conspiracy to defraud and of larceny.

The jury, which was out twenty hours, returned a similar verdict against Raymond H. Meyers, secretary of the company. Sentence was deferred in each case.

Verdicts of not guilty were returned in the case of Charles F. Meyers, sales agent; Wm. R. Bouchie, auditor, and Mrs. Katherine W. Brightwell, wife of the president.

The British Coal Strike

LONDON, April 29.—The close of the twenty-fifth day of the coal strike finds the miners and coal owners practically no nearer an agreement than when the stoppage of work began, although the owners today made new proposals for both temporary and permanent wage payments, which they claim is a considerable advance on the original terms.

Under the new plan it is proposed that the Government subsidize the poorer mines for the next three months in order to prevent wage cuts being too great. As regards a permanent settlement, the owners offer a plan under which both they and the miners would have a minimum standard of profits and wages, but that the pay of the workers shall be the first charge against the profits. If there is any surplus profit both standards of remuneration have been attained. The excess would be divided between the owners and the miners by a Joint Em-

ployers and Employees Board, the members of which would have access to the books of the companies.

However, under these proposals wages would still be fixed separately for each of the six different mining areas of Great Britain. The miners have been fighting tenaciously for the principle of national agreements from the very first and this is the point on which apparently no agreement can be reached.
