

How to Save Your Eyes

Try This Free Prescription.

Do your eyes give you trouble? Do you "always" wear eyeglasses or spectacles? Thousands of people wear these "eyes" who might easily dispense with them. You may be one of these. It is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read and do something else that keeps your eyes busy; you work your eyes until you go to bed, and finally other eye troubles that threaten partial or total blindness, which has benefited the eyes of so many, may work equal wonders for you. Use it a short time. Would you like your eye troubles to disappear as if by magic? Try this prescription. Go to the nearest wide-awake drug store and get a bottle of Bon-Opto tablets. Drop one tablet in 1/2 glass of water and allow it to thoroughly dissolve. With this liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, but marvelously effective in multitudes of cases. Now that you have been warned don't delay a day, but do what you can to save your eyes and you are likely to thank us as long as you live for publishing this prescription. The Valmas Drug Co., of Toronto, will fill the above prescription by mail, if your druggist cannot.

A prominent City Physician to whom the above article was submitted, writes as follows: "This remedy is very remarkable. Its constituent ingredients are well known to ministers eye specialists and are prescribed by them. It can be obtained from any good druggist and is one of the very few preparations which are kept on hand for regular use in almost every family."

THE PICTOU ADVOCATE SAYS:—The Russian Government are feeling the need of experienced ice captains to command the ice breakers they have bought from Canada and Newfoundland and have been negotiating with Captain John Read, who took the Minto over to Russia. They want Captain Read to be admiral of the ice breaking fleet and to take over to Russia with him a number of ice captains. We hear that First Officer Seabough, of the Stanley, Second Officer Paquet, of the Prince Edward Island and Pilot McGregor Fraser are willing to go to Russia with Capt. Read. The Russians now have two ice breakers bought from Canada, and four secured in Newfoundland and have recently purchased an ice breaker just completed for the Canadian Government for work in the St. Lawrence.

I feel fit as a fiddle—thanks to my New

OSTERMOOR MATTRESS

That's the way every OSTERMOOR owner feels after his first night on this famous Mattress; it soon becomes a hardship to use any other.

☐ One-third of your life is spent in sleep. If you spend this time (as so many people do) on a hard, lumpy, unsanitary hair or mixed Mattress, made worse by a sagging woven-wire spring, why should you expect real rest—even if you do own a \$50 bed?

☐ A soft resilient Ostermoor Mattress (preferably on a Banner Spring) will give you an entirely new idea of sleep comfort. You pay

\$15 FOR FIFTY YEARS OF RESTFUL SLEEP.

☐ And you pay it only once because the Ostermoor, unlike other mattresses, never needs cleaning or re-making.

☐ This means 30 cents per year. Who can't afford that?

☐ There are Ostermoors in use today that have seen service continuously for 20, 30, even 50 years, and are still soft, buoyant and comfortable.

☐ This question of restful sleep is insistent. Why not settle it right, and at once?
