THE Ottawa Free Press says that Mr. Gilbert, manager of the Experimental Farm who visited P. E. Island last winter has returned from British Columbia, and Manitoba, where for the past seven weeks he has been delivering addresses to the farmers of both provinces. In Vancouver at the beginning of the present month eggs were selling at 45 to 50 cents per dozen; chickens 50 cents each and turkeys 25 cents per lb. Dairy products were also selling at high figures. The same be said of Victoria where eggs in the winter season go as high as 60 cents per dozen. And this is the country where the conditions appear unusually favorable for profitable dairying and the raising of live stock. The winter season in British Columbia, is really the rainy season and during that time live stock require to be sheltered at night time. But grass seems to thrive all the year round. There are parts of British Columbia where irrigation has to be resorted to, but the fertility of the Okanagun Valley and the Frazer delta, as well, as many portions of Vancouver Island is very great. At present the Chinese and Japanese do much of the extensive farming—such as market gardening and as they are industrious, sober and live on comparitavely humble fare, they are dangerous rivals of the white man. But it should not be so, and if it were possible the white man should use this comparatively cheap Oriental labor to his own enrichment and that of his country.

The largest bottle in the lot is Bentley's Liniment, 25c. size.

IT is perhaps not generally known that walnuts can be successfully grown in Canada outside of Ontario. Such however is the fact. THE GUARDIAN has been shown a sample of a box of nuts sent by Capt. Edward Palmer, of Victoria, to his mother, Mrs. Edward Palmer of this city. They were grown in Capt. Palmer's garden and are very rich and agreeable in flavor.

The following letter has been received by THE GUARDIAN from Mrs. Geo. R. Beer: Through a strong desire to express my gratitude to Almighty God, through the columns of your paper, for His wonderful care over us that our friends may read the circumstances of our marvellous escape, I write this while our car goes at the rate of seven miles in five minutes. After a pleasant night on the Boston and Maine R. R. going to Boston to catch the Union Pacific on its way to Chicago we met with what might have been a sad catastrophe; but with God's goodness, we are spared to continue our journey. Two engines were destroyed and a sleeper. We felt keenly when the collision took place. We had a kind invitation to partake of refreshments immediately on our arrival in Boston, through the kindness of the officers of the road. Whatever caused the smashing of the engines, either carelessness or dastardly intent to wreck the train, there was the all-wise, the hearer and answerer of prayer, in whom my trust is firm, holding us as it were, in the hollow of His hand. My companions on this trip are constantly expressing sentiments of gratitude for our narrow escape We are nearing Chicago, in charge of excellent management of tourist cars, running on U. P. R. R.

Respectfully,

L. A. BEER.
