Dorothy Dix Says—

Divorces Too Easy

Marriages Broken Even Over Everyday Conversation

In other and more settled matrimonial times when a woman got married she was expected to stay married and take whatever treatment her husband accorded her without making any ado over it.

married than it was to get married and divorces were to be had just for the asking.

TRIVIAL GROUNDS

Such, however, is the case. The very air is filled with the racket of breaking and sundering of marriage vows, and we read of divorces being granted for such trivial causes that we marvel that any marriage ever survives the honeymoon.

A pertinent illustration of this is found in the fact that one of the causes for which divorce is frequently asked is conversation. Not abuse. Not the use of vile and obscene language. Just plain, everyday chit-chat.

It might seem that women, who love the sound of their own voices, would regard a dumb husband as a matrimonial prize, but far from this their nerves as for them to belong to the great-silent-man type, which is a woe in the movie, but a pain in the neck at home.

The other day a woman, the victim of one of these talkless marriages in which the husband only grunts when spoken to, in her application for divorce stated her grievance in terms that must have moved the hardest heart.

ELLEN'S DIARY

By an Island Farmer's Wife

Ellen, my niece and namesake from up the country, came to Alderlea tonight, bringing in as fresh as a breath of wind-swept air when Jeanie and I sat listening to a Radio program—Jazz in James' old armchair and I comfortable on the couch beside. The old kitchen had been a quiet spot.

Ellen, in the final grade in a rural school, is a bright, sunny, and cheerful girl. I'm sure and other wherewithal, finds many difficulties in her studies.

When she came to the farm, she was a little girl, and she was a little girl, and she was a little girl, and she was a little girl.
