Lord Curzon Makes Reply To Montagu

LONDON, March 15.—Speaking from a strong emotional strain, and a voice that shook with indignation, Lord Curzon, Secretary for Foreign Affairs, replied before a crowded assembly in the House of Commons this afternoon to the address of Edwin S. Montagu before his constituency at Cambridge, in which he said the Foreign Secretary had been guilty of having given permission to publish the Indian Government's telegram which led to Mr. Montagu's resignation as Secretary for India. Lord Curzon said a sick bed in the country in order to make a personal statement instead of making a statement in Parliament, which he could be "assured" said Lord Curzon, "Mr. Montagu went to his constituency and publicly travestied both this letter of protest and the private conversations with him and his wife a colleague."

Prohibitive Duty On Live Silver Foxes Entering United States

The following despatch from Washington is published in the New York City Journal of Commerce of March 7th:—The Senate Finance Committee is understood to have reversed its action in the matter of a tariff on imported silver foxes and has agreed to a rate of \$200 per head. The Fordney tariff bill as it passed the House of Representatives provided a rate of \$350 per head on black silver foxes for breeding purposes, but the first act of the Finance Committee is said to have been to throw out that rate entirely.

Protest Against Gandhi's Arrest

(Special To The Guardian) DUBLIN, NATAL, March 15.—The Indian Congress of Natal has protested against the arrest in India of Mahatma Gandhi. The civil disobedience leader attempted to precipitate a general strike in Natal industries. The attempt, however, has proved only partially successful. ZANZIBAR, ISLAND OF ZANZIBAR, March 15.—The East Indians here have declared a one-day holiday in protest against the arrest of Gandhi. No disturbances marked the observance of the holiday.

No New Light on British Politics

LONDON, Mar. 15.—Little light was thrown on the political situation last night. A meeting of the Unions had been convened in the House of Commons for the purpose of voting confidence in Premier Lloyd George. An attempt was made to exclude the "die-hard" members but they attended in considerable numbers and the purpose of the meeting was thus frustrated. After an hour and a half of lively discussion the meeting was adjourned without an attempt being made to vote on any resolution. The meeting was private. A non-committal official communication issued afterwards admits that there was criticism of the Government's policy, but that the general impression was that the Government was supported. The meeting was adjourned without an attempt being made to vote on any resolution.

New Montreal Agreement is Snowed Under

SYDNEY, N. S., March 15.—The triumph of Mr. MacLachlan and his radicals of the United Mine Workers' union, and the overwhelming defeat of the new Montreal agreement were conceded at nine o'clock tonight. At that hour, the vote of the Cape Breton miners stood at 4,622 to 829 against the agreement with every mine from the mainland bringing word of similar results in Cumberland and Pictou coal fields.

Mr. S. S. Hessian asked that the three hundred names signed to the speaker be read. The SPEAKER replied that this would delay the business of the House. Mr. HESSIAN wanted to know the names were representatives of the whole province. The SPEAKER informed Mr. Hessian that this matter had not yet come up, but he would be merely for first reading. Mr. HESSIAN—But I can demand to have the ladies named.

The SPEAKER said he would not enter into details about the legislation on this subject. He would refer to the resolutions of the House on this subject. Another Liberal Govt. Goes to the Wall

(Special To The Guardian) WINNIPEG, March 15.—The Norris Government was defeated on a straight vote of censure resolution in the Legislature yesterday afternoon and as soon as Lt. Governor Atkins returns from Toronto Premier Norris will place the resignation of the government in his hands. A general election at an early date is inevitable and the only point in doubt is whether the Lieutenant Governor will induce the government to carry on until the election arrangements are made or whether he will call upon one of the group of leaders to form a government that will do so.

(Special To The Guardian) OTTAWA, March 15.—20 per cent of the Dominion government's expenditures for public works went to Toronto during 1921, according to the annual report of the department. The total expenditure was \$8,500,000, chiefly for harbor improvements of which more than \$1,600,000 was spent on Toronto harbor.

Ulster Parliament Is Now in Session

Two Million Pounds Will be Expended in Restoring Order. Boundary Question the Bone of Contention.

(Special To The Guardian) BELFAST, March 15.—Chief interest in the reassembling of Parliament today were the plans announced by Sir James Craig for the restoration of order in which Field Marshal Sir Henry Wilson, former Chief of Staff of the British army but now Unionist member of the House of Commons for North Down will be the prime agent and an admission that the boundary commission is still the preeminent danger facing Ulster. Sir James Craig was emphatic in his statement that no change in the boundary under the 1920 Act would be sanctioned unless by mutual agreement. He announced that £2,000,000 would be allotted if needed for the restoration of order and insisted that evildoers must be amenable to the ordinary course of law. Colonel Spender, Secretary of the Ulster Cabinet, told the Associated Press tonight that the £2,000,000 was intended to show Field Marshal Wilson that the Ulster government really meant business and was determined, in Sir James Craig's words, to see that the province is fully protected.

\$10,000,000 Fire And Death in Chicago

(Special To The Guardian) CHICAGO, March 15.—Fire today wiped out an entire business block, close to Chicago's loop district, at a damage of \$10,000,000. Wm. J. McGovern, a fireman was killed and several others were injured by debris. The fire started at one o'clock this morning in the Warren Springer building, a ten-story structure. Wind caused the blaze to spread rapidly and in half an hour the Chicago Burlington and Quincy building, a twenty-one story building was in flames. Police who guarded \$1,500,000 in cash in the vaults of the Mercantile Trust and Savings Bank on the ground floor of the Burlington structure were forced by the inferno to abandon their vault. The fire is the most disastrous to Chicago in years and not far from the scene of the origin of the blaze that destroyed Chicago. The fire was under control at 7 a.m. although it was still smouldering.

Prosperous Season Looked For

ST. JOHN'S, Nfld., March 15.—Much interest is being shown in the industrial possibilities of the ancient colony. Just now a company with an authorized capital of \$5,000,000 is being organized to exploit the coal mines on the Little River near the St. George's coal fields on the West Coast and its officials announce that development work will commence this spring. The company plans to create a bunkering station at Little River, the improved road policy of the government, he was pleased to see, would be continued. The province is an ideal one for tourists and to attract this traffic, good roads are necessary. The Hon. Commissioner of Public Works had left his seat as he wished to congratulate him upon his new roads. Mr. Crosby, the member for the province, wished to praise all the heads of the departments from the Premier down, and especially "Good Roads Crosby." No mistaking of the Opposition would stick to these facts (applauds) from the government benches. They would be much better this year because the pudding will help to make the roads solid. At least fifty per cent of the cost of the extensive program of permanent work and not a dollar of direct taxes need be levied to pay for them as \$25,000,000 has been set aside from auto tax revenue and on this annual tax over \$400,000 of late borrowed and the interest paid, and a sufficient sum set aside for a sinking fund to repay it in 20 years. The speaker praised the government for the measures taken to fill school vacancies. All the schools, he declared, were now filled with the exception of one. Mr. Hessian was wrong when he said two or three. When the government took over power there were a hundred vacancies. \$75,000 more than in 1919 will be spent this year by the government for teachers' salaries, etc. The last government did not have the "black" to put on the necessary school tax.

CLAIMS HE CAN REVIVE PERSONS GIVEN UP FOR DEAD

CHICAGO, March 15.—George Anston yesterday asserted that his invention, the "pneumaphone" can revive apparently dead persons within a 72-hour period if they have "died" of pneumonia, heart trouble or nervous exhaustion. His invention, shaped much like a bicycle pump, has revived persons given up for dead as long as three days, Anston claimed, and offered to appear before a scientific board to demonstrate it. Anston said he started work on his invention in Greece twenty years ago at the age of 15.
