WHY SNIFFLE AND SNEEZE.

Don't suffer any more with a cold in the head, just carry a CATARRHOZON INHALER in your vest pocket, use it now and again and you won't have colds. Catarrhozon knocks out a cold in ten minutes, kills a headache in five minutes, and hark racking coughs in half an hour. Inhale the pleasant Catarrhozon vapor five minutes four times daily and it will cure Bronchitis, Lung Trouble, Deafness, Asthma, and Catarrh in any part of the system. Catarrhozon is the most direct, modern and scientific method, and is guaranteed to give satisfaction. Complete two months' treatment costs \$1.00, trial size 25c. Druggists or N. C. Polson & Co., Kingston, Ont.

Is a few applications of Putnam's Painless Wart and Corn Extractor. It has been used successfully for 30 years and never fails. Try "Putnam's."

THE MORNING GUARDIAN

MONDAY, FEBRUARY 15, 1904.

THE FORESTRY REPORT.

The fourth annual report of the Canadian Forestry Association is to hand covering the work of the year 1903. It covers 116 printed pages and is illustrated. The last annual meeting was held in Ottawa on 5th and 6th March last and the annual meeting of this year will be held in Toronto on 10th and 11th March. The total membership of the Association is 400 of whom nine are life members, an increase of 53 over the previous year. The membership is distributed over a wide area, Prince Edward Island having one, Nova Scotia and New Brunswick 10 each, Quebec 24, Ontario 128, Manitoba 78, the Northwest Territories 100, British Columbia 17, Yukon one, United States 17, England three and Germany one. The reports and papers submitted at the last annual meeting and the discussion thereon are quite fully reported.

The objects of the Canadian Forestry Association are concisely stated in the opening of the annual report, as follows: The preservation of the forests for their influence on climate, fertility and water supply; the exploration of the public domain and the reservation for timber production of lands unsuited for agriculture; the promotion of judicious methods in dealing with forests and woodlands; re-forestation where advisable; tree-planting on the plains and on streets and highways; the collection and dissemination of information bearing on the forestry problem in general. These objects are almost all of general interest, to the Provinces in which the forests are abundant as well as to those in which the absence of forest growth is deplored. It is worthy of note that the prairie country is represented in the Association by 178 members, or eight times the membership

contributed by the Maritime Provinces, and more than three times the membership from Quebec and the three Eastern Provinces taken together.

Lieutenant Governor Snowball contributed a paper on the forests of New Brunswick which contains some facts of interest on this side the strait. He tells that of the 18 million acres of the neighboring Province 12 million acres are under forest. Thus nearly 67 per cent of New Brunswick is clothed with trees. Russia in Europe has 42 per cent, Sweden 40, Prussia 24, Norway 22, Austria 32 and France 16 per cent of forest. Of the forest lands of New Brunswick 60 per cent is under spruce, 10 per cent pine, 5 per cent hemlock, 5 per cent cedar and 20 per cent hardwoods, which latter consist principally of birch, beech, maple and ash. Every country in Europe has a large area of forest lands except Great Britain, which has less than 4 per cent. Germany takes the lead in wise forestry administration and most other European countries have established forestry academies and give the most serious attention to the conservation of woodlands. So far down to very recent years the most wasteful and destructive methods have been applied to the forests in both the United States and Canada. It is high time for a change.

No Man or Woman Can Have Dyspepsia

And Still Be Agreeable, Attractive and Popular—A Certain Cure in Reach of All.

There is nothing that will put you to the front so rapidly in the business or social world as a cheerful disposition and a pleasant appearance. Other things being equal people will go out of their way to give the fellow a lift who always wears a cheerful countenance. The man or woman with a cranky disposition and a sour face will always meet with an indifferent if not a chilly reception. The commercial traveler, who is the recognized business barometer, appreciates better than any one the value of this rule and governs his actions accordingly.

Dyspepsia destroys all the agreeable qualities that enter into a man or woman's make-up. It is almost a human impossibility for anyone with a severe case of dyspepsia to look pleasant. The continuous, miserable, cast-down feeling is bound to make itself shown in the appearance and conversation. Stuart's Dyspepsia Tablets are the sufferer's certain cure. They are so recognized all over the world. The cures they have brought about and the happiness they have caused and the suffering they have relieved has made their name a household word in all the English-speaking world. The reason that Stuart's Dyspepsia Tablets are a certain cure is that they are a natural cure. There is nothing to prevent them curing. They contain the essential ingredients of the digestive fluids of the stomach and simply do the identical work of the stomach, relieving that weakened organ and permitting it to rest and recuperate. Could anything be more simple or natural? They are bound to cure. They cannot help themselves. It is just like putting a new stomach into a man—if that were possible—and letting the old one go off on a vacation. Rest is what it needs. Nature will do her own work of restoration, never fear. Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cts. a box. All druggists means all druggists. They have become so necessary to the people that the druggist simply has to keep them anyway. There are other remedies that he can make much more money on if he could sell them, but he can't. He will not take chances on losing his customers by not always having on hand a supply of Stuart's Dyspepsia Tablets.

6c, 8c, 10c, 12c, 15c.

F. PERKINS & CO.,

The Millinery Leaders, Sunnyside.

Reports received from different sections of West Queen's show great activity in both political camps. The Opposition are putting up a vigorous fight and yet there appears strong confidence all along the line in the Ministerial party.

Referring to the article on Needed Civic Reforms in Saturday's Guardian it will be seen that Summerside is ahead of Charlottetown in some particulars. The following is from the Summerside Incorporation Act:

No person being a School Teacher or School Trustee, Stipendiary Magistrate for said Town, Judge of the County Court or Sheriff shall be qualified to be elected Mayor or Councillor, nor shall any person be so qualified who has not been a resident of said town for the twelve months preceding such election or nomination, or who is authorized to sell spirituous or intoxicating liquors, or who has within twelve months prior to the day fixed for nomination been convicted of any violation of any Act in force in said town relating to the sale or prohibiting the sale of intoxicating or spirituous liquors.

BORN.

At North Tryon, on the 31st of January, to Edgar and Mrs. Nihelson, a daughter.

DIED.

- At Dundas, on Feb. 9th, Hugh MacLean aged 82 years.
- Suddenly at Sea Cow Pond, on January 29th, Patrick Morrissey.
- At Darnley, on Feb. 7, 1904, Mary Eliza, beloved wife of Edward Mackay.
- At Miminigash, on the 4th inst., Bridget Kelly, relict of the late James Coyle, aged 75 years.
- At Springfield, Lot 67, on Feb. 1st, Edith, beloved daughter of James and Mr. Mackay aged 1 year and 4 months.
- At Brae, Lot 9, on Jan. 26, 1904, Mrs. Alexander MacDonald, in her 57th year. She leaves to mourn a husband, six daughters and six sons and a large circle of relatives and friends.

GOT LAMB BACK OR LUMBAGO?

No need of that now. That sort of pain can be knocked out in short order, for Polson's Nerviline, which is five times stronger than any other penetrates at once through the tissues, reaches the source of suffering, drives it out and thus gives relief almost instantly. Not magic, but strength that gives Polson's Nerviline this power. You will think it magic however if you try it, pain goes so quickly. Sold by dealers everywhere, in large 25c. bottles.

SPECIAL NOTICES.
