Don't Have Poor Plumbing in Your Home

If your plumbing is not satisfactory in every respect it would pay you to have it attended to at once. Sewer gases, leaking pipes and other disease-breeding troubles run hand in hand with faulty plumbing and although the first cost may be less than for good plumbing it rises up nearly 300 p. c. in repairs.

Our plumbing is the kind we swear by, you rely on. First cost is last cost with us and work done in only one way, the correct way. Phone 393-J.

INTRODUCTION

The Glenaladale Silver Black Fox Company, Limited, was incorporated in 1913 with six pairs of foxes, at \$60,000. This Company re-capitalized in 1914, with 20 pairs of beautiful Silver Black Foxes, at \$15,000 per pair, making a total capitalization of \$300,000.

THE FOXES

Six pairs (one year old) proven breeders, and fourteen pairs (1914 pups), making a total of 20 pairs—all young foxes—good for at least 10 years. This Company has bought some of the year's options on foxes with a guarantee that they are pedigreed and of the highest strain and very best quality P. E. Island famous foxes.

THE RANCH

The ranch is situated on the well known Glenaladale Farm, owned by Major C. McKinnon, formerly the homestead of Sir William McDonald, and is only 12 miles from Charlottetown, in a quiet locality sufficiently removed from any disturbance.

THE RANCHER

Mr. Arthur W. McKinnon, our Ranch Manager, has had much experience in breeding foxes, and has the practical knowledge necessary to efficiently manage and care for the animals.

cent. of the increase for ranching

The promoters of this Company are retaining \$80,000 worth of stock for themselves. \$20,000 worth of stock has already been disposed of, leaving \$200,000 to be offered to investors at \$25.00 per share, with a guarantee that a dividend of 50 per cent. will be paid in cash in 1915, or whatever more it may be.

The Glenaladale Silver Black Fox Co., Limited, in 1913 guaranteed a dividend of 50 per cent. but are going to pay 50 per cent. in cash and 50 per cent. in stock in 1914.

The Company is in good standing and to each and every investor—the first of September, 1914, we can say:—"We have given you 50 per cent. more than we promised." And we feel sure that in 1915 all the shareholders in this re-capitalized company will be able to say they received more than they were promised.

This Company can truthfully say that they have not one cent of watered stock in the Company. Now, Mr. Investor, if you were a Company and we the shareholders, we would look to you for justice to give us all that was honestly due us. We would not like for you to buy 3 pairs of foxes at \$15,000 per pair (\$45,000) and form a fox company and capitalize your concern at \$60,000 and make us pay, as shareholders, for it. The Glenaladale Silver Black Fox Company, Limited, will ask you to do nothing like that. We want to let you in on the ground floor.

NOTICE

When a fox company guarantees any specified dividend to its shareholders, and when said company is an incorporated body, you need not

be afraid of any unfair play, for such a company is compelled to pay what they promise, and, besides, every interest is taken for the welfare of both the investor and the company.

The promoters of this Company are all above board and will not permit any crook to come in and do anything that is not right. Anyone holding stock in this Company who is dissatisfied can by notifying the Secretary-Treasurer, have his or her money promptly refunded.

FORTUNES IN FOXES

There is money in fox ranching more than anything else ever known. It is good for the rich man and good for the poor man. A poor man cannot buy a pair of Silver Black Foxes but he can easily raise \$25.00, \$50.00, or \$100.00. By investing in this Company he gets back his money in at least two years and then he will have an income for life and for his children to come—and after there will be money in fox farming. One of the reasons for this is that P. E. Island has now 95 per cent. of the world's foxes in captivity. For every one pelt that can be raised there are more than 25 wealthy people waiting for it in London, Russia, France and America.

PELT VALUES

The Fox Pelts have advanced greatly in price since 1910 and you can see for yourself what money was in them then.

Below are the particulars of sale of a consignment of Silver Fox Furs, shipped from Prince Edward Island ranches to London, England, and sold there in March, 1910:

Average £1284.15, 10 or \$1385.98, per skin.

These figures may be verified by E. C. Companies as stated by one of the enquiry to Messrs. C. M. Lamson & Co. Following are dividends reported Charlottetown daily newspapers, Company, 64 Queen Street, London, to have been paid by some of the 1913.

Ranch	Authorized Capital	Cash Dividends	Per Cent.

Rosemont	10,000	50,000	500
Tyne Valley	75,000	37,500	50
Maritime	40,000	18,333	33

The average cash dividends of these companies is 208 per cent. to the investor, we will figure it out for you. We have twenty pairs of foxes in the ranch and suppose each pair produces a litter of only four foxes, this is equal to 40 pairs and at \$15,000 per pair it would figure out at \$600,000. Now, if we had to pay even 15 per cent. of the increase for ranching purposes (which is considerably lower than some companies pay) it would mean that we should have to pay \$90,000 for ranching expenses.

We ranch the foxes free for the first year, so that in addition to a guaranteed dividend of 50 per cent., we save you this large outlay of money. While we guarantee 50 per cent., still should each pair in our ranch produce four pups it would mean that your dividend would be about 200 per cent., instead of 50 per cent.

FINAL WORD

A great deal has been written about Ranches, Grades of Foxes, etc., but after all the one object that every investor should keep before him is the dividend he is going to get. We have tried to show you in plain English what we can do for you and now that you have our proposition, compare it with the offer made by any other company now in business—and then judge for yourself.
