Parker the little son of H. P. Duchemin, Sydney, was struck by a falling brick while passing the Public School building, Charlotte street, on Saturday last. His injuries which fortunately were not so serious as they might easily have been were attended to by Dr. Cowperthwaite. Inspector of buildings, Yorkton visited the block this morning and has instituted a thorough inspection. Mr. Duchemin is well known in this City.

On the 13th inst., W. M. Lea, of Victoria, addressed the members of St. Patrick's Institute of Grand River on the subject of Dairying. The meeting was largely attended and Mr. Lea's address was highly appreciated. He is enthusiastic on the subject and inspires enthusiasm in others. One of his cows gave 12,000 lbs. of milk last year, and there are not many cows giving over half that quantity. One point he emphasized was the importance of having the heifer have her first calf while no older than 2 1/2 years so that the udder may be developed while she is growing. He urged the importance to the dairyman of growing more roots and corn and less potatoes. There is no doubt but the home manufacture of soil crops tends to preserve and increase the fertility of the soil. Many speakers took part in the discussion and a unanimous vote of thanks was tendered Mr. Lea.

The annual meeting of the Grand Lodge of the Orange Association of P. E. I., held Tuesday was well attended.

The officers elected for the year are as follows: G. M.—Rev. D. McLean. A. D. M.—J. C. Matheson. J. D. M.—J. Y. Phillips. Chap.—Angus Beaton. Treas.—Joseph Wise. Sec'y.—J. W. Duncan. Assist. Sec'y.—L. Buchanan. Lecturer—E. P. Rowe. D. of C.—J. C. Phillips.

There was considerable discussion regarding the Orphan's Home recently established. Much satisfaction was expressed regarding the work being accomplished in connection with this institution. The services of J. S. McLeod will be continued as manager of the Home and farm. Joseph Wise is the Treasurer and the financial end of the institution is managed by a Board of five trustees. The Home is doing good work and will continue to do so. Orphan's Home will be admitted providing it is proved that they are really without means of support and with no person to look after them. An institution founded on such broad lines as this certainly deserves the support of all. Being situated adjacent to the Consolidated School the children entering are in a position to acquire a good education fitting them to hold their own with all others in the battle of life.

The members of Excelsior Lodge I. O. G. T. recently passed the following resolution: "We the officers and members of Excelsior Lodge No. 15, I. O. G. T., located at Pownall, assembled in regular session to decide to place on record our appreciation of the valuable services rendered to our order, and the cause of Temperance in general, by our late brother Alfred O. McGregor, who was called from among us by death on Thursday morning March the nineteenth, nineteen hundred and eight. Brother McGregor joined the order as a charter member of the above named Lodge, when it was reorganized in February, 1906, and was then appointed to the office of credit to himself and satisfaction to the lodge. When absent in the cities of St. John and Charlottetown he retained his membership with us, and lost no opportunity to advance the temperance cause both by precept and example. As a Christian and a citizen he was honored and respected by all who knew him. By his kindly disposition and pleasing manner he readily made friends wherever he went. By his removal we have suffered a great loss he has gone but his Christian life and example shall live on. To his mother, brothers and sister, and grand parents with whom he made his home, we extend our heart felt sympathy, and pray that God will grant unto them, in this sore trial and sad bereavement his comforting and sustaining grace."

"Our Compound Syrup of Hypophosphites strengthens the nerves, aids digestion, improves the appetite and builds up the system in general. It makes you feel like a new person and able to do any work that comes along. Only 75c. a bottle. A. W. Reddin, Phm B.

For the past few days the painters and paperhangers have been busily engaged brightening up the interior of Goff Bros' boot and shoe store. J. Stentiford who had charge of the work made a complete job. The pillars, after being reinforced with concrete bases, are nicely painted in white as well as all the shelving, which is finished in white with the trimmings of dark green. The ceiling as well as the walls above the well stocked shelves are nicely papered with a tasty pattern of green and gold, and the radiators received a coat of gold paint. The counters were also finished and after receiving as much attention as the other parts of this bright and roomy store are now shining like a silver dollar. Taken in all the store now presents a brand new appearance.

Despite the unfavorable weather conditions in the spring and fall of last year, the crops of Nova Scotia, in 1907, fared better agriculturally than any other province. Prince Edward Island, according to the report of the Secretary for Agriculture, which Premier Murray laid on the table of the House of Assembly at Halifax. Notable improvement in many respects over former reports is shown by this, the first report of Principal Cumming as Secretary for Agriculture and it was favorably received by the House. Besides containing an extensive and exhaustive review of the work of the year in the Agricultural Department, the report includes a series of most valuable and instructive articles on the sheep industry, edited by Mr. Cumming.
