

# WILLIE'S HURRY-UP MOLASSES SPIGOT GETS HIM DISLIKED

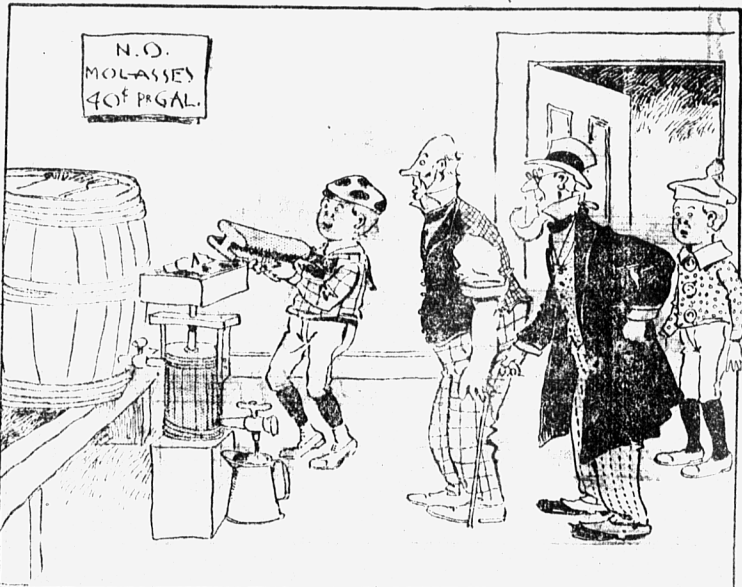

Dear Mamma—Uncle Tom gets angry every time he sells a gallon of molasses because it runs so slowly.

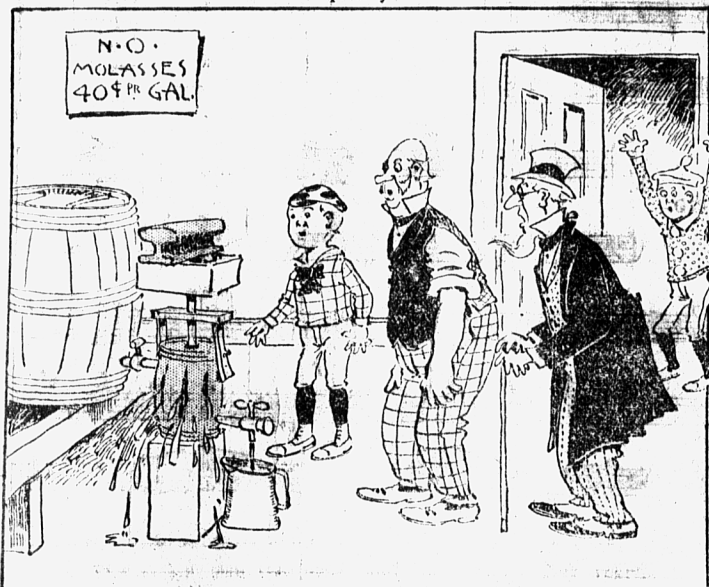

This is a diagram of an arrangement I built to force the molasses out quickly.

The cylinder fills up when you're not using it. Then you turn the connecting faucet off, and the weights force the molasses out.

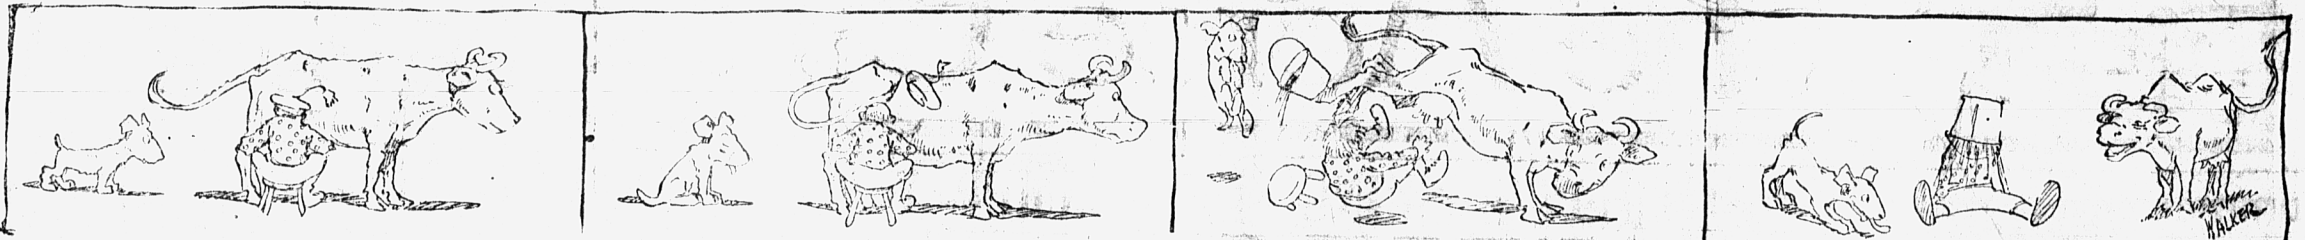

It worked all right, only Tommy tried to improve it by adding more weight.

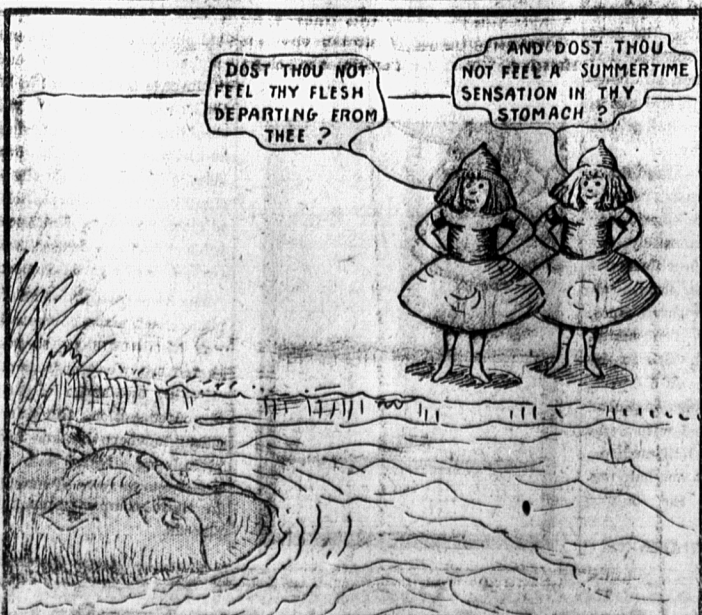

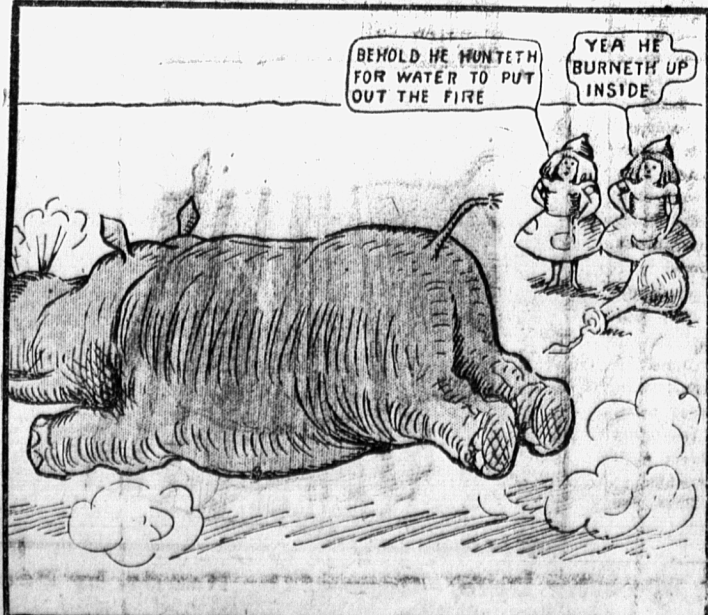

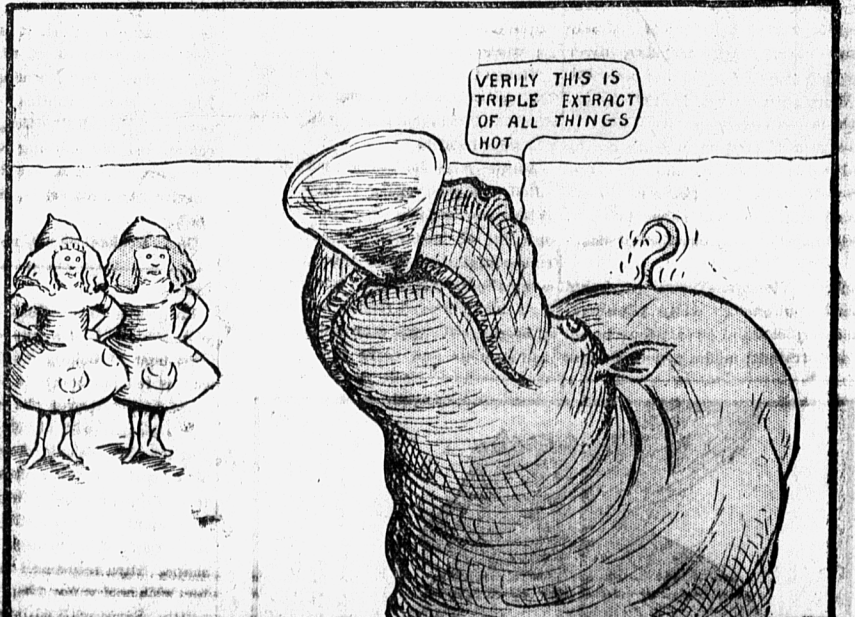

The strain was too great and the cylinder flew apart.

Uncle Tom and Squire Jones got a molasses bath, and were awfully angry. P. S.—Uncle Tom says I had better start for home tomorrow. Yours lovingly, Willie.

# LITTLE BILL AND BEN OF BABYLON TREAT THE HIPPO TO ANTI-FAT

LACKEST THOU THE SENSE TO GO IN OUT OF THE RAIN?
