Teacher's Convention at Summerside

In spite of bad weather about 100 teachers from East Prince County attended a most successful convention in Summerside last Friday.

The morning session opened with an address by the president, Mr. Davis Lidstone. He emphasized the present awakening on the part of the public to the value of education and recommended an extensive program of public enlightenment on education.

Mr. Jelly then outlined the curriculum for the coming year and said that a pass of 50 per cent will be required in future in each junior entrance subject.

The President of the P. E. I. Teacher's Federation, Miss Estelle Bowness spoke next taking as her subject "What the Federation can do for us and what we can do for the Federation." She deplored the present status of the teaching profession since any uneducated person can earn more money than a teacher. However while money-conscious, the teacher must make the child's welfare her greatest concern.

Miss Newsome, director of Junior Red Cross, outlined the year's work and presented the Red Cross Banner for 1943-44 to Miss Mill, teacher of the Primary Department, Freetown.

The highlight of the convention was an inspiring address by Mr. Lloyd W. Shaw Director of Education. He asked the support of all teachers to the Federation, whose object is to help materially to improve the whole status of education. He paid tribute to his predecessor, Dr. H. H. Shaw. Mr Shaw stressed the need of co-operation between the teacher and the Department of Education, and also the need of getting the public to think along certain lines in order to work out an educational program. All must work together so that there will be as little sand as possible grinding in the educational machine. Unless the educational field can get back to doing more than the 3 R's, we are giving inadequate education.

Hitler said, "He who has the youth has the future." He worked this out in educational organization and moulded children from three years of age, into ruthless, cruel, tyrannical citizens proving that we can shape our educational program to do anything we want. We must mould ours so that our children like the Great Master, will "improve in wisdom and stature and in favor with God and man," that is with a four fold object—mental physical, spiritual and social growth.

Mr. Shaw cited the Junior Red Cross as an excellent example of training in citizenship.

Children should live in school the kind of life we want them to live out of school. Teach children to play, laugh and sing. He is an unsatisfactory citizen who does not know how to play. Too much value is placed on exams and book-learning. The spirit of competition may lead to anti-social citizenship.

Mr. Shaw gave to the teachers the motto "Where the whole man shall be educated in all men there shall mankind be nearer to humanity."

The officers for the ensuing year are:—President—Mr. Davis Lidstone. Vice President—Mr. J. Murphy; Secretary—Miss Doris Muncey.

"Gentle All-Bran keeps me regular"

"You bet I think ALL-BRAN is helpful for constipation. It sure helped me. You see I'd been dosing myself for years with many kinds of purgatives which helped only briefly. But eating ALL-BRAN keeps me free of that. Now I'm regular as a clock—and I like ALL-BRAN a lot."

If your constipation is due to lack of "bulk" in the diet, simply eat KELLOGG'S ALL-BRAN regularly (as a cereal or in several ALL-BRAN muffins) and drink plenty of water. Remember, ALL-BRAN is a wholesome, delicious cereal—not a medicine. Get it at your grocer's. 2 handy sizes. Made by Kellogg's in London, Canada.

NEW SHADES

The top red for the reason, is Marcella, a combination bluish rose which has the effect, of crushed raspberries and cream. This shade is liked in one and two-piece dresses for young women from 18 to 35. Framboise, a trifle darker, in another new red in demand by those ranging all the way from 18 to 60.

Acanthus is the newest thing in blue. It's a medium shade with a touch of green and lots of grey and is popular among all age groups. The early fall bride appears to favor metal grey, while forest green is as popular as ever for afternoon wear.

The restrictions in styling, which limit dress manufacturers to 50 per cent of their pre-war styles, is resulting in a smaller but more choice selection.
