Governments Aim At World Peace

Text Of Joint Statement Issued By President Hoover And Premier MacDonald Declares Governments Of Great Britain And United States Have Adopted Peace Pact As Declaration Of Good Intentions.

(Special to the Guardian)

WASHINGTON, Oct. 10.—The text of the joint statement issued tonight by President Hoover and Prime Minister MacDonald is as follows: "During the last few days we have had an opportunity at informal talks in which we have engaged, not only to review the conversations on a naval agreement which have been carried on between us, but also to discuss some of the more important plans by which the moral force of our countries can be exerted for peace. We have been guided by the double hope of settling our own differences on naval matters and so establishing unclouded goodwill, candor and confidence between us, and also of contributing something to the solution of the problem of peace in which all other nations are interested and which calls for their cooperation. In signing the Paris Peace Pact, the nations have declared that war shall not be used as an instrument of national policy. We have agreed that all disputes shall be settled by pacific means. Both our governments resolve to accept the Peace Pact, not only as a declaration of good intentions, but as a positive obligation to direct national policy in accordance with its pledge. The part of each of our governments in the promotion of world peace will be different, as one will never consent to become tangled in European diplomacy, and the other is resolved to pursue a policy of active cooperation with its European neighbours; but

Sir Henry Hopes to Present Scheme

(Canadian Press)
TORONTO, Oct. 10.—At the next session of Parliament, Sir Henry Thornton hopes to present a scheme for re-organizing the financial structure of the Canadian National Railways, he told the Empire Club today. It was a stupendous task, he said, to catalogue and appraise the securities of the ninety-two different companies, which went to make up the system, but this had been done and the next step was to ask Parliament to approve a scheme which would secure the financial permanence of the property, and at the same time enable us to capitalize the financial improvement made in the last few years.

Would Discuss Demilitarizing Of Naval Base

At Halifax And Dismantling of Bases In West Indies, Says N. Y. Despatch, With Regard To Premier's Visit to Canada.

(Canadian Press)
OTTAWA, Oct. 10.—Canadian officials here received with interest, but without comment the intimation contained in New York news despatches from Washington that on his visit to Canada, the Hon. J. Ramsay MacDonald, Prime Minister of Great Britain would discuss with the Canadian Government the matter of demilitarizing the naval base at Halifax. This, the despatches said would be done together with the dismantling of the British naval bases in the West Indies as a gesture of goodwill towards the United States. The Imperial Government has no authority whatever over Canadian, military or naval activities, it was pointed out, all property which was once under Imperial jurisdiction, having at various times passed into Canada's hands. The last Imperial troops to garrison Halifax left the Nova Scotia Capital as far back as 1906 since when the Dominion has had complete control.

Official act have addressed to me and I greatly appreciate their kindly reference to my restoration to health. I shall follow with interest their discussions and trust they may lead to an even closer association of all parts of my Dominions. The Queen joins me in thanking them for their good wishes."

Evening Session

The first speaker of the evening was Rev. J. A. Puc-Gilchrist, of St. John's United Church, Halifax, who delivered an interesting and inspiring address on "Youth to the Fore." Taking the story of David and Goliath he drew an interesting parallel in modern conditions—the force of good in opposition to apparently overwhelming forces of evil. Vision is the first quality which must be marshalled in the army of righteousness, a quality possessed in a large measure by young men. The challenge of evil is clamorous and insistent. The evils existent are challenges to the army of the Lord to better conditions. Youth is new in the battle and eager for reform. Saul had a vision. He knew Goliath must be defeated. David had a vision
