HAD NERVOUS PROSTRATION

Mrs. S. West Drayton, Ont., states: "I got terribly run down, and finally became a victim of nervous prostration. I had no appetite, seemed to lose interest and ambition and could scarcely drag myself about. Hearing of Dr. Chase's Nerve Food I used three boxes with great benefit gaining eleven pounds. It made me strong and well and I had such an appetite that I wanted to be eating half a pound."

"SAVED ME FROM DEATH."

A Toronto Contractor Says Dodd's Kidney Pills are Worth Their Weight in Gold to a Sick Man.

TORONTO, Ont., Oct. 13th.—(Special).—Five or six years ago Mr. W. J. Keane, of 86 Lippincott St., this city, was an invalid, confined to his bed with a severe case of Lame Back and Kidney Trouble. He says:—

"A friend advised Dodd's Kidney Pills but as I had used so many other medicines without any good results I had little faith that anything would cure me I had only used part of the first box however, when I found that my condition was rapidly improving. I used altogether seven boxes and was completely cured. As this was over four years ago and the trouble has not returned in any form. I am now sure that my cure was a perfect and permanent one.

"I believe Dodd's Kidney Pills saved me from death. They are worth their weight in gold to a sick man."

MERIT MAKES IT FAMOUS.

The Only Remedy in the World, Except a Surgical Operation, that will certainly Cure Any Form of Piles.

The study of physicians, the experiments of chemists, the loudly advertised pretensions of quacks, have been for years expended in one direction; to find a pile cure that would cure.

The results have been a number of harmless and in most cases useless ointments, suppositories and even internal remedies, which the public have weighed in the balance of experience and found wanting; nearly all of them gave some relief, but nothing approaching a radical cure resulted from these preparations.

The remedy required is one which will immediately stop the pain so severe in many cases of piles, and then by contracting the small blood vessels (capillaries) to their normal size produce a radical cure by reducing and finally absorbing the tumors and healing the inflamed, raw mucous surfaces.

Until a few years ago, no such remedy had been produced, but at that time a suppository was placed upon the market which has since proven itself to be the long-sought permanent cure for this common and distressing trouble; it has rapidly become famous throughout the United States and Canada, and is now sold by all druggists under the name of Pyramid Pile Cure.

It is now the best known because its merit and safety have advertised it wherever used. It has been advertised by word of mouth, from one sufferer to another; people who have tried everything else, even submitting to painful and dangerous surgical operations without avail have finally found that piles can be cured without pain and without expense practically as the Pyramid Pile Cure is sold for the nominal price of 30 cents and \$1 per package.

The Pyramid instantly stops all pain and at the same time contains no cocaine, morphine, or narcotics; the acids and healing properties contained in the remedy speedily remove, cause a healthful, natural contraction and absorption of the tumors; it will cure any form of rectal trouble except cancer and advanced fistula, which, by the way nearly always result from neglecting proper and timely treatment for piles.

For the benefit of some people who don't know the difference between Bokhara, Astrakan and Persian Lamb.

F U R S

These is as much difference between Astrakan and Bokhara Jackets as there is between Bokhara and Persian Lamb.

Astrakan which is situated in the South East of Russia on the Caspian Sea is noted for the immense quantity of Astrakan Lambs that are raised for their Furs. The color of the Astrakan is mostly cream with brown, greyish or red spots in them. The Lambs are killed when quite young and the best pelts are sent to Lipsig, Germany to be dressed and and dyed while the poorer pelts are dyed in Canada and other places. They require to be dyed and redied to give them a good gloss and finish, which injures the pelts to a certain extent.

Bokhara is a different breed of lamb altogether. The Bokhara Lamb is always Black and is a native of Bokhara, which lies between Turkestan and Afghanistan in Asia away south of Astrakhan in Russia.

The Fur is much closer and finer curl than the Astrakan and the pelt is also thicker and stronger. The fur being naturally black has only to be dipped in dye to give them a gloss.

Persian Lamb is a native of Persia which lies a little south of Bokhara. Persian Skins have a still finer curl than Bokhara. So you will notice the further you go north the coarser and longer the fur, the further you go south the finer the Fur and curl.

Persian Lamb and Bokhara are animals that are born back, Astrakan is born white or cream, sometimes spotted, but never Black. Now if you take the trouble to drop into the Leading Fur Store of P. E. Island, we can show you the difference and the difference is so great you won't need to take your glasses with you.
