### PERSONALS

Mr Hammond Kelly, Charlottetown, left last night for Amherst.

Mr H. R. Douglas, Preetown, spent Sunday in Charlottetown and returned home Monday.

His many friends are glad to see Mr Frank McDonald, Charlottetown, around again after his recent indisposition.

Hon. Charles Dalton and Mrs Dalton came to Charlottetown yesterday from Tignish and registered at the Victoria Hotel.

Miss Annie R. MacPhee has returned to the city after spending her Easter holidays at her home in Cumberland.

Rev. Father P. C. Gauthier, St. Louis, came to Charlottetown yesterday and left again by the mail special last evening. He will cross by the Capes to-day en route to Ottawa.

Hon. John McLean, Souris, Hon. A. E. Arsenault, Summerside, and Hon. John A. Macdonald, Cardigan, returned to Charlottetown yesterday to attend the Provincial Legislature after the Easter recess.

Mr Daniel J. Shaw, Uigg, teacher at Cherry Hill, and Miss Eva Horton, Village Green, teacher at Martinvale, came in on the Murray Harbor train yesterday morning, returning to their schools, having spent Easter holidays at their homes.

Mr. Fenton McLure, Brackley Point, left last evening (via Georgetown) for Moncton to meet his sister Rowa who is dangerously sick with appendicitis. Her many friends hope for a speedy recovery.

Mr Arthur Huskins, who closed his engagement at the Prince Edward Theatre Saturday night, left Charlottetown last night by the mail special en route to St. John, N.B. In that city he and Mr De Witt Cairns will rehearse for duet work before opening an engagement in Halifax on April 17th. During the three months in which he sang in the Prince Edward he was one of the great attractions of that popular theatre and invariably delighted the audience with good clean and enjoyable singing. While here he made many friends, who will be delighted to welcome him back.

### RIFLE SHOOTING

No. 2 Coy. Home Guard had a very successful shoot last evening. Thirty-three members shot, which is the record for attendance at shooting.

It has been arranged that the competition between companies shall be team shooting. A team to consist of twelve, and the twelve highest at the shoot to compose the team. This induces large attendance, so that there may be many scores to select from, and their careful shooting to get on the team. The result below shows that the other companies will need to get their full forces out, for there is advantage in numbers. Below is the result:—

- W. S. Louson, 46
- O. Baird, 43
- R. V. Longworth, 41
- D. P. Murdoch, 40
- E. G. Love, 38
- G. H. Holbrook, 38
- E. L. Cotton, 38
- F. Barlow, 37
- H. V. Buntain, 36
- C. S. Drew, 36
- G. M. Moore, 36
- R. Curtis, 35

Average, 38.8.

All those present appreciated very much the services of Captain Landri-gan, who helped the men in loading and cleaning the rifle. Three hearty cheers were given for Captain Landri-gan at the close.

### CHESS TOURNAMENT

After the signal victory which his forces won on Wednesday of last week Gen. Ross made the serious mistake of underestimating the strength of the enemy and as a result he suffered a very serious defeat on Saturday, his forces, horse, foot, artillery and aeroplanes being routed.

So confident was he of the invincibility of his troops that he did not appear on the field of battle till late in the day and on his arrival was met by Brigadier Tanton, his chief of staff, with the gloomy tidings that Tanton's famous cavalry brigade together with all the rest of the troops, were in headlong flight. The woe begone looks of the rest of his officers proclaimed the same thing, while the exultant shouts and the taunts of the enemy showed the extent of the disaster and the ridiculousness of Gen. Ross' position. He, however, observing that Gen. Lundie, like the Kaiser, when victory seemed assured went to another part of the front leaving the command to Brigadier Louson, rallied his scattered forces and administered a check (mate) to that famous officer and thus saved his forces from utter annihilation and conducted a masterly retreat from Lundie's Lane to Pons Asthorum which the enemy could not cross and where he is now entrenched awaiting the onslaught of the enemy to-night.

On Gen. Ross calling a council of war after he had entrenched, to enquire into the causes that led to the defeat of his forces, and to lay plans for the next engagement Brigadier Tanton communicated to him the amazing information that at a council of war called by General Lundie after his defeat on Wednesday last it was decided to ask a certain renowned medium of Charlottetown to invoke

### BANNER OATS

Three years ago the Banner Oat Club was formed for the purpose of encouraging the growth and sale of Banner oats. It met with a very considerable degree of success, but there was always some difficulty experienced in getting samples of oats to send to intending purchasers that would represent what could be supplied.

Plenty of oats of good quality was raised and there was plenty of enquiry but there was a gap between the producer and the consumer that had not been bridged. A short time ago a meeting was held in Summerside to consider the situation and a committee of five appointed to prepare a plan. This committee met yesterday and resolved to form a co-operative association to be known as the Prince Edward Island Co-operative Seed Association which would handle the grain of its members. A committee of two were appointed to draft a Bill for the incorporation of the Association and to draw up by-laws to submit to a meeting to be held before cropping begins. It is intended to begin with Banner oats and as the organization grows to include all kinds of seed that successfully grown in the Province. The oats will be all inspected in the fields and only that will be accepted that is free from other varieties and other kinds of grain and from weeds. It will then be assembled in centres and graded to the standard of the association, inspected and sealed. Purchasers will then be certain of the quality of the grain they are buying and the members will be paid for their produce according to quality.

Already many farmers have secured good seed with the idea of taking advantage of this Association, and everyone who plans to sow should be certain of what they are sowing as no grain will be accepted that is not free from other varieties and other kinds of grain.

the shadows of Morphy and Staunton to advise them in their dilemma. This being done at a certain rendezvous near Water street these venerable chess spooks advised General Lundie to communicate by wireless with Dr. Lasker and Capablanca. He was by then advised to batter General Ross' lines with Ruy Lopez's, Guoco Plan and especially with the Scotch attack which was done with the result explained above, on which appalling information able plans were laid to trench the enemy to-night.

In the meantime Gen. Ross has entrenched and fortified his lines at Torreo Vedras beyond Pons Asthorum which he is persuaded the enemy will never cross.

The public are invited to come and see the engagement which is intended to prove the fiercest in the (Chess) war.

### PROHIBITION IN NEW BRUNSWICK WHILE THE WAR LASTS.

ST. JOHN, April 6.—There is a possibility that the province of New Brunswick may be required to do without intoxicants for the duration of the war.

In reply to an inquiry by long distance telephone this afternoon, Premier Clark informed the Times that the provincial government has the matter under consideration, and that a decision on the subject may be announced before long.

It is understood that the action of the imperial government in intimating that prohibition may be enforced in the British Isles has had something to do with the discussion of the question by the provincial government, and that their decision may be affected by the final attitude of the British Government.

Between fifteen and twenty years ago a plebiscite on total prohibition was taken throughout the dominion. At that time New Brunswick went on record in favor of prohibition by a large majority, but no further action was taken.

The fact that many counties in New Brunswick are already under the Scott Act would simplify the problem before the government, and it is understood that the attitude of St. John in the matter might be one of the largest factors to be taken into consideration.
