

## ECZEMA ON LITTLE GIRL

Sleepless Nights for Mother and Awful Suffering of Child.

### CURED BY CUTICURA

Had Given up All Hope of Ever Making Any Cure.

"My little girl has been suffering for two years or more from eczema, and during that time I could not get a night's sleep, as her ailment was very severe."

"I had tried so many remedies and spent much money, deriving no benefit, I had absolutely given up all hope of making any cure. But as a last resort I was persuaded to try a set of the Cuticura remedies, and to my great delight a marked change was manifested from the first application. I gave the child a bath with Cuticura Soap, using a soft piece of muslin cloth. This I did twice a day, each time following with the Cuticura Ointment, and at the same time gave the Resolvent, according to directions. One box of the Ointment and two bottles of the Resolvent, together with the Soap, effected a permanent cure. I submit this for publication if you desire, hoping it will aid to your success and assist so many thousands of sufferers in curing themselves." MRS. L. B. JONES, ADDINGTON, IND. T.

The first step in the treatment of the chronic forms is to remove the scales and crusts and soften the skin, by warm baths with Cuticura Soap. The scalp, ears, elbows, hands, ankles and feet will require frequently a thorough soaking in order to penetrate the thickened skin and crusts with which these parts are often covered. Dry carefully, and apply Cuticura Ointment, liberally at first, and where advisable spread it on pieces of soft cloth and bind in place. Take the Resolvent, pills or liquid, in medium doses. Do not use cold water in bathing, and avoid cold, raw winds.

Cuticura Resolvent, Liquid and the form of Chocolate Coated Pills, Cuticura Ointment and Cuticura Soap are sold throughout the world. London, 77, Charterhouse Lane; Paris, 2, Boulevard des Capucines; Toronto, 10, Spadina Avenue; Boston, 15, Columbus Avenue; Philadelphia, 15, Chestnut Street; Montreal, 15, Rue St. Jacques; New York, 15, West 17th Street.

### A STRANGE PARTNERSHIP.

In the correspondence respecting the Grand Trunk Pacific agreement submitted to Parliament the other day is a letter from Sir Charles Rivers Wilson to Sir Wilfrid Laurier in the course of which he says:

"It has always seemed to me that the Government of Canada and the Grand Trunk railway being in point of fact partners in the enterprise, the former actuated by considerations of national policy the latter by the necessity for securing its share in the growing prosperity of the Northwest, the burden of financial liability should be shared between the two in as equitable proportions as possible."

It may be that the Government of Canada has entered into a partnership with the Grand Trunk people, but if so it is a strange sort of partnership. In the first place the Government finds practically all the money for the enterprise—all of it for the Moncton Winnipeg section—and gives its guarantee for three fourths of the cost from Winnipeg to the Pacific Ocean. Canada is the big partner so far as finding the money and giving a basis of credit to the partnership is concerned. But when it comes to the profits of the enterprise where does the senior partner come in? Simply not at all. The Grand Trunk, without putting a dollar into the eastern half of the road, and being endorsed by the Dominion for the western part, will have all the profits for fifty years to come.

But this not all. The Dominion as the leading partner will not only not share in the profits but must be subjected to loss and outlay from year to year. It will pay the interest during the time of construction and for years after, getting nothing back. The Dominion cannot now borrow money at 3 per cent, but is paying more, and we know nothing of what may be the rate in the years to come. All the Grand Trunk, as the sole profit-getting partner will have to pay will be 3 per cent, and will not pay that, or any interest at all for years to come. And then, on the 1800 miles to be built and owned by the Dominion from Moncton to Winnipeg there will be heavy depreciation. Bridges, stations and all the permanent work of the road will be fifty years old when it is to be returned by the profit-making partner to the profit paying partner, and the depreciation—how many millions may it amount to?—must be suffered as a loss by the Dominion. Truly it seems a strange partnership in which all the profit goes to the single partner who contributes, say one fourth of the capital, and all the losses to the partner who risks three fourths of the capital put into the enterprise.

Tomorrow, Good Friday, The Morning Guardian will not be issued.

### DELEGATES FROM THE INSTITUTES.

(Continued from page 1.)

He was left more to him to discuss. The speaker traced the rapid development of the bacon industry during the past fourteen years owing to improved methods in breeding and marketing. He told of the beginnings of the industry and the great profits made in Denmark. The methods in vogue in purchasing hogs in Canada were explained; in all cases the hogs are weighed at the factory and the shrinkage is noted. The mode in Denmark was also outlined; whose scheme is similar to the one being advocated.

Mr. Easter said the farmers did not feel like sending hogs into Charlottetown if a sworn official were not appointed, the Company having sent out notice that

they would not buy any more at outlying stations.

Mr. Matthews, Alberton discussed the question both from the D. P. Co. and the farmers sides. If the D. P. Co. want the hogs they must bid for them as others do.

The Chairman advised the speakers to "keep cool". The D. P. Co. would make a mistake if they undertook to drive the farmers, but the farmers should not attempt to drive the D. P. Co. P. E. I. pork is the best pork in the world, he could testify by long experience.

William Welsh said the farmers would be satisfied only by weighing at the station.

Hon. Benj. Rogers wanted to know if farmers would agree to send in their hogs to have them weighed by the Company.

At this point Mr. Wiley came to the Hall, was invited to the platform and after some further discussion was heard. Mr. Wiley in a short speech stated he was present in order to answer questions and hear suggestions from those present as to the best methods whereby the farmers and the Company may come together, in a more amicable understanding. He thought the best way to solve the questions was by a sworn inspector.

Robert McLeod, Uxigg, said mutual confidence must exist. He advocated a sworn inspector.

Mr. Wiley, in answer to a question said the Co. could not afford to have a weigher and inspector at each station in order to buy hogs. This was the principal reason they were going to buy only at the plant.

J. A. Ferguson advocated the abolition of middle men.

After further discussion pro and con and the endorsing of the scheme for an Inspector by the chairman Hon. Mr. Rogers submitted a question.

(1) Are you prepared to have hogs weighed and inspected in Charlottetown? In answer to a question Mr. Wiley said the company would be able to weigh the hogs at least 24 hours after shipment and as good a price as anywhere in America would be given.

The question in all its phases was discussed further by many of the gentlemen present and Mr. Callbeck urged that the question be settled by having the hogs weighed at Charlottetown as in every up-to-date factory of which he had read. It was moved that an Inspector be appointed to be paid mutually by the Company and the farmers; and in amendment that the matter be allowed to stand over for twelve months.

The amendment carried. Lauchlin McDonald moved that a committee of five be selected to consider the marketing of hogs and that their report be submitted to the various Institutes. Carried.

The Committee were selected as follows: Lauchlin McDonald, J. W. Callbeck, Mr. Howett, Mr. Agnew, John Craig. The meeting then adjourned till 7.30.

### EVENING SESSION.

At the evening session A. J. Brennan, Alberton, was Chairman. The Committee appointed in the afternoon by the Central Institute reported that they had waited upon Commissioner Rogers and he was favorable to such an organization.

Walter Simpson thought much good would result from such organization. Capt. Read also spoke in favor.

Robert Easter proposed a provisional executive which was carried. After further discussion the following provisional directors were appointed: Lauchlin McDonald, East Point; E. J. McMillan, city; Robert Easter, Hamilton; Robert Agnew, Wilnot; Alex. Matthews, Alberton; J. T. Reid, Miminegash; Walter Simpson, Bay View; Jas. Howlett, Gowan Brae; John Bernard, Clifton.

Jabez Lea moved a resolution favoring annual exhibitions and at this point the meeting was addressed by E. B. Elderkin, President of the Maritime Province Live Stock Association. He was enthusiastically in favor of annual exhibitions. He told of the fat stock show, which would next year be held in November, and also of the Auction Sale of fat stock. He showed the benefit of the latter in better prices especially from the South American republics and urged that the farmers ask for annual exhibitions.

J. W. Callbeck endorsed what the previous speaker had said. Walter Simpson also spoke in favor of annual exhibitions but condemned side shows etc. in connection.

F. G. Boyer followed along the same lines and advocated a fat stock Easter show.

F. L. Hazard suggested that the resolution ask that the Government enter into a contract for a number of years with the company. All the fatter side shows referred to could easily be removed if the public wishes. Speaking of the horse races he said the exhibition could not be financially successful without them.
