"a man in Lunenburg, Nova Scotia has a potato which weighs three pounds seven ounces." "Now I have a potato in my possession which weighs exactly three pounds fourteen ounces. In our Province it is not customary to boast. But at the heel of the hunt it can compare favorably with any section of the Dominion." All of which is as true now as then!

On the 3rd of November forty years ago it was reported that "Colonel Cotton of the Royal Military College, Kingston, yesterday afternoon at Victoria Park, inspected the brigade of Jamison Artillery under command of Major J. D. Irving, consisting of No. 1, Captain Passmore's company and No. 2, Captain Morris Co. The Colonel, after witnessing the various movements of the brigade expressed himself well pleased with the inspection and said that it was the best brigade he had yet inspected."

IN MEMORIAM

NOV. 3rd, 1889. Edward Palmer, Chief Justice of this province, died at his residence. "The souls of the righteous are in the hands of God." The love of those you have left, is with you always. Inserted by his children.

"My Boy was Starving to Death"

"As He Was Getting No Nourishment He Was Gradually Wasting Away."

"Here's a story which will interest every mother. Before my boy was born, I was in such delicate health that the doctor didn't think I would have a boy. Four weeks after he was born my life was despaired of, so I couldn't feed him and the poor little fellow was left to the care of friends. He wasn't naturally strong. No care was taken in choosing his food and his poor little stomach kept anything on it. As he was getting no nourishment from his food, he was gradually wasting away. Finally, in desperation, we sent for a child specialist and he said that my boy was starving to death. He gave him some medicine and advised a certain diet. The child did improve but somehow couldn't seem to get strong. This went on for four or five years and the boy still continued weak and puny looking. He could not play like other children without having to lie down and rest. My sister who lives on a farm near the sea, said that she could fix him up if I would send him to her. While I hated being separated from him, I was ready to make any sacrifice to get him strong. He was away from me for three months and it was with

awaited his return as my sister had written me that I would be surprised when I saw my boy. When my sister got off the train, I could not believe that it was my own boy that was leading by the hand. I never saw such a change in any child. He was fat and rosy and full of life with a happy smile. 'What on earth have you done to him?' I asked. 'Why?' she replied, 'Simply made him live out of doors, gave him good food—and here's the real secret. I gave him three bottles of Carnol. Before he had taken half a bottle his whole appearance had changed. He got heavier, his face took on a colour and he would run round for hours at a time.' The change in my boy is the most wonderful event in my life. I am a regular 'fan' for Carnol and never lose a chance to boost it. As I write I am looking out of the window and when I see that rosy, active, healthy child running round, I cannot believe that he was once a puny delicate boy."

Carnol is sold by your druggist, and if you can conveniently buy after you have tried it, that hasn't done you any good, return the empty bottle to him and he will refund your
