

Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor. We have no secret! We publish the formulae of all our preparations. Lowell, Mass.

It is pleasing to learn that the road machine has been put to work and has gone over the road from Dollar's Mills to the Melville Road, the bad condition of which had been complained of in these columns. It is now in fairly good condition and it is practicable to trot over the road where before the speed was limited to a walk. With a little attention next spring and when the work becomes solid by use it will be a good road. The Guardian desires to give due credit to the Road Inspector in charge, as well as to the Commissioner of Public Works for the notable improvement made in this important public highway.

The concert in St. James Hall last evening, under the auspices of the Y. M. L. A., was one of the finest ever given and the performers were greeted with a well pleased and appreciative audience. Miss Harrison who was the accompanist of the evening opened the program with a bright piano solo. The soloists of the evening were Mrs. J. McD. Taylor, of Halifax, Miss Furness, of Boston, Miss Mann of Vancouver, and Prof. Barlow, Mrs. Taylor who has a splendid contralto voice, sang several selections most enjoyably and will always receive a warm welcome should she visit Charlottetown in the future. Miss Furness, who is an old favorite sustained her reputation as an excellent soloist, her selections being very difficult and showing the excellent range of her voice. Miss Mann is thoroughly acquainted with Scotch music and with her Scotch accent and sprightly manner captivated her audience who persistently called for encores which were very happily accorded. Prof. Barlow is also an old favorite and warmly applauded during his song "I am King of the Mountains". Miss Amy Carver in her selections showed her versatility, capability and power to charm, and will no doubt in the future meet with the success her cleverness deserves. The young men of St. James' Church are to be congratulated on the excellent talent which they procured for the last night's entertainment.

The Correct Adjustment
of glasses is a matter of considerable importance. The beneficial effect of one's glasses may be largely nullified by ill-fitting mounts. We pay particular attention to the correct fitting of mounts, so that the full benefit of the lenses will be obtained. We supply the lenses of such shape and size as will be most becoming in each individual case. This is possible because we grind our own lenses and make them any desired shape. Our methods of examination give better results. Try us.

Notice to Farmers

We will now receive dressed hogs from 125 to 200 lbs. Heavy hogs weighing over 200 lbs not wanted before 1st October.

Nothing but well-fatted stock will be received.

Would advise farmers to kill on cool days only, and allow hogs to hang overnight as it will not do to market some day as killed.
