Because we give experienced attention to all these points our glasses, in addition to giving distinct vision, fit securely and comfortably, and are becoming to the wearer.

We have our lenses ground by the most skilled experts in Montreal and thus we are sure of getting accurate results. We can duplicate any special lens at short notice, so if you break your lens send your glasses to us and we will return them promptly in perfect condition.

Hot Water for Sick Headache

Tells why everyone should drink Hot water with phosphate in it before breakfast

Headache of any kind, is caused by auto-intoxication—which means self-poisoning. Liver and bowels poisons called toxins sucked into the blood, through the lymph ducts, excites the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then your resort to acetanilide, aspirin or the bromides which temporarily relieve, but do not red the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank before breakfast for a while will not only wash these poisons from your system and cure you of headache but will cleanse, purify and freshen the entire alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar.

If your are feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphate hot water cure to rid you system of toxins and poisons.
