**N. Y. Stock Price Advance Slows**

NEW YORK, Dec. 2.—(AP)—The stock market tried to extend Wednesday's sharp advance today but the results were disappointing. Immediately after the opening bell, quotations advanced rapidly. The rest of the session was spent in chipping away at the morning gains.

**At Montreal**

MONTREAL, Dec. 2.—(CP)—Although the majority of selected industrials closed on a downtrend on the Montreal Stock Exchange today, certain issues showed definite strength. Losses were mostly fractional as only two stocks dipped a point or more. Trading was moderately active as 11 issues had turnovers exceeding 1,000 shares each.

**At Toronto**

TORONTO, Dec. 2.—(CP)—Western oils sagged as trading slackened on the Toronto Stock Exchange today. Golds also moved into easier ground and base metals weakened slightly.

To clean your costume jewellery, rub it lightly with an old toothbrush that has been dipped in ammonia and then in baking soda. Wash in warm soapy water and dry with a soft cloth.

**WHERE BATTERY DEPENDABILITY IS VITAL!**

To ensure your safety, the railways leave nothing to chance. Day in, day out, regardless of conditions, "wig-wags" must not fail. It is significant that to help operate their signals, the railways rely on EXIDE batteries. Their faith in EXIDE dependability is justified from years of experience.

This fact is worth remembering when your car needs a new battery. Only EXIDE can offer such proof of dependability.

Have your EXIDE dealer check your present battery regularly. His knowledge and experience—his modern EXIDE equipment—will help you avoid battery troubles. When you need a new battery, you can rely on his judgment to select the EXIDE best suited to meet the electrical requirements of your automobile.
