Blame Bolshevism For Greek Debacle

(Special to The Guardian.)

LONDON, Sept. 17.—The Daily Mail's correspondent at Famagusta, island of Cyprus, quotes Smyrna refugees arriving there as declaring that Mustafa Kemal Pasha, the Turkish Nationalist leader, owes his victory over the Greeks in Asia Minor to the fact that half the Greek army turned Bolshevik and immediately the Turks moved against Afium Akari sheva, fraternizing was begun.

The rebels, according to the refugees, stole army funds and looted wherever possible, shouting "Long live Lenin and Trotsky."

The refugees state that rebels burned towns and abandoned their artillery which was in perfect order although the Greek generals and clergymen vainly attempted to bring them to reason.

Annual Meeting OF SOCIAL SERVICE COUNCIL

PRINCE EDWARD ISLAND In Prince of Wales College Hall, Charlottetown, P. E. I. Tuesday and Wednesday, September 19th and 20th 1922

PROGRAMME

Tuesday Evening, 19th.

8.35—Dr. Shearer—Address and Conference on Prohibition and the proposed Plebiscite.

9.10—Discussion on the New Responsibilities of Women. (Silver collection.)

Wednesday, 20th.

FORENOON

9.45—Business Meeting and Election of Officers.

10.45—Dr. Shearer—Short Address on New Social Legislation in Canada; and on our duty to the Mental Defective.

AFTERNOON

2.00—Miss Rathbun—Address and Conference on Children's Aid Society and Juvenile Courts.

4.15—Motion Pictures, showing their use in Sunday Schools and Public Schools.

Wednesday Evening

Admission: Adults 25 cents, Children 15 cents.

8.00—Moving Picture Show (Comedy, Travel, Nature Pictures, etc.)

9.15—Miss Rathbun—Address on Big Sister Movement

GOD SAVE THE KING

INDIAN'S "DEATH ARROW."

NAPOLEON'S SUBSTITUTE FOR TOBACCO.

Snuff-taking, according to Mlle. Bertrand was not one of Napoleon's habits. In one of Mlle. Bertrand's published letters she states that Napoleon hated tobacco in any form, but "soothe his chronic indigestion the Emperor had a mixture of liquorice and brown sugar made up, which he carried loose in his waistcoat pockets. He frequently had recourse to this, and when in company would convey a pinch to his nostrils as if it were snuff, but, instead of inhaling it, slid it surreptitiously into his mouth."

How You Dread

Buying new shoes when you know painful corns will make all the fun out of them.

DE Scholl's Zino-pads

FOR CORNS, CALLOUSES AND BUNIONS

This adhesive, absolutely safe, waterproof, and wonderfully healing. Sold by all shoe, drug and departmental stores.

Central Guardian Dye Skirt, Dress Or Faded Draperies In Diamond Dyes

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool, cotton, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

Ask for Minard's and Take no Other PERSONALS

THIS AFTERNOON AT 4.30 Prof. H. L. Stewart opens his series of lectures in St. James Church schoolroom. The subject is "Tolstoy" in the evening at 8 p.m. he will lecture on Curiosities of the Mind."

ODD LINES MEN'S Hats worth up to \$6.75 clearing \$2.59 each at—SINCLAIR'S, 7077-16-21

SHOP FURNITURE FOR SALE—On account of a change in equipment, we have three large racks suitable for men's or women's clothing, which we will sell very cheaply. Write or telephone inquiries. Moore & McLeod, Limited, 7079-17-31.

CORRECTION.—Through an error in the advertising department, two lines appeared in Samuel Martin's Auction sale postponing sale to Sept. 22nd. These lines should have been in Farm For Sale ad of John S. Martin, Kinross. See both advertisements corrected in another column of today's issue.

A VERY PLEASANT time was spent at the home of Mrs. Milton Bell, Gt. Geo St. on Thursday evening, when a number of the friends of Miss Ethel Campbell gathered to tender her a surprise in the form of a shower. Many useful gifts were received by the bride to be.

HANDMADE POPIES.—Some handsome poppy decorations which are being made in Canada by dependent of returned soldiers and duplicates of which will be sold on Armistice Day have arrived at the G.W.V.A. rooms and are being much admired.

AN APPRECIATION.—As a small token of appreciation for valuable services rendered his team in the icy areas last winter, Roy C. Dowling of this city received from his team-mates in Moncton a beautiful gold watch, suitably engraved. It will be remembered that the Moncton aggregation although being defeated last winter in the local arena, put up a strong game against the champions and it is to be hoped that this sports squad of puck chasers will again be seen in action on Charlottetown ice this season.

McAulay Breaks 5 Mile Bud Hal Paces Three Run Record in Sports Held at Picton is Second to Hawboldt in 25.46

ST. STEPHEN, Sept. 16.—Pacing the three fastest heats ever raced on this track. Bud Hal owned by L. R. Acker, Halifax and driven by the veteran Danny Steele, won the Free-For-All here today and established a new track record. Roy Volo New Brunswick champion and Calgary Earl could not hold the Halifax pacer. This is the second time this season that Bud Hal has easily defeated Roy Volo. The Summary.

Free-For-All

Bud Hal, L. R. Acker, Halifax (Steele) 1 1 1
Roy Volo, B. Lint, Fredericton (Lint) 2 2 2
Calgary Earl, L. W. Fowers, Houlton, (Burrill) 3 3 3
Time—2:10 1/4; 2:10 1/4; 2:10 1/4.

2:21 Mixed

Mr. Dell (Cone) 3 1 1
The Acrobat (Etter) 4 5 3
T. J. Devlin (McDonald) 2 3 2
Uscita (Steele) 6 3 2
Future Queen (Southard) 4 5 4
The Finisher (Ryan) 5 6 6
Time—2:18 1/4; 2:17 1/4; 2:19 3/4; 2:17 1/2.

2:15 Mixed

Little Peter (Douse) 1 1 1
High Knob Bouay (Rice) 2 2 4
Zelma Strong (Holmes) 4 4 3
Mud Lark (Southard) 3 4 2
Time—2:14 1/4; 2:14 1/2; 2:16.

The motor boat race at 10.30 a.m. had nine starters and took place over a triangular course. The winner was S. B. Harper's New Premier; 2nd, Harry Johnson's Pearl; 3rd, Robert Bowen's Valley Star; 4th, Wm. Bowen's Swallow; 5th, John McCarroll's Dinty Moore. The officials were: Starter, Norman Rudolph, Times, William Emory and Chester Crowell; Committee in charge of race, J. F. Carson, Blake Carleton and Albert McDonald.

At eleven o'clock a baseball game took place on the P. A. A. grounds between the Westville team and Picton. Westville was out first for the locals and won out by a 13 to 2 score. A large turnout of fans attended the game and were rewarded by the scrappy clean cut exhibition put up by the county champs. Batteries Westville, Richardson, Thompson and Oliver; Picton, O'Brien, Roach and Crofte. Umpires, Andy Richardson and Henry Dorton. The ball game concluded the morning's program.

At noon it commenced to rain and throughout the afternoon rain fell at intermittent intervals but not sufficiently heavy to mar the sports program. Over 1000 fans were present at the athletic meet on the P. A. A. grounds in the afternoon, it being the best and most successful meet conducted by the local athletic association in years.

Not in years has there been assembled in Picton such a galaxy of stars of the track and field as took part in today's competition. Nova Scotia, New Brunswick and Prince Edward Island were represented by the leading athletes of respective provinces and Picton appreciates the honor they did to her on this the 49th Anniversary of her natal day. Charlottetown sent over her five leading athletes represented by the Abbies, J. A. McEachern who won the pole vault at the Maritime Championship at Picton in 1917, came over in charge of the Abbies and fielded as their chief advisor. Mr. McEachern received a warm welcome here and proudly displayed the championship medal he won 35 years ago.

The Crescents club of Halifax paid a grateful tribute to Picton when they sent their star aggregation, Mooney, Holmes, Smith and Lott to compete here today. The P. A. A. greatly appreciates the action of the Crescents in sending their athletes to this meet. Two other Halifax athletes added greatly to the success of the meet. Tom Fripps and Steve Kennedy the performance of whom on the field was lauded by the spectators.

Summary of events:—
500 Yards Dash—1st heat, 1st Bert Crockett, Westville; 2nd C. R. Large, Charlottetown. Time 11 seconds. Second heat, 1st, Eria Smith, Crescents; 2nd Chris Lott, Crescents. Time 10 3/5. Semi-finals, 1st, Bert Crockett; 2nd Eria Smith; 2nd Chris Lott. Crescents. Time 10 3/4.

16 Pound Shot Put—1st James T. Meagher, P. A. A.; 2nd T. Hen Pripps, Crescents; 3rd F. Henessey, Charlottetown, 38 ft 1 1/2 inches.

Pole Vault—1st Wm. Halpenny, Charlottetown; 2nd Len McDonald, P. A. A.; 3rd Wm. McLean, P. A. A.; 4th Wm. Cormier, P. A. A.; 5th 5 ft 1 1/4 inches. Crescents; 2nd Chris Lott, Crescents; 3rd Bert Crockett, Westville. Time 24 3/5 seconds.

16 Pounds Hammer Throw—1st Steve Kennedy, Halifax, Wanderers; 2nd James T. Meagher, P. A. A.; 3rd D. R. Chisholm, Antigonish, 135 feet 3 inches. 440 Yards—1st Wm. Mooney, Crescents; 2nd, Grant Holmes.

How to Construct and Operate a Radio Telephone Receiving Set

By Harry F. Dart, Compiler of the Radio Operator's Course for the International Correspondence Schools.

ARTICLE I — THE ANTENNA AND ITS AUXILIARIES

The construction of a set for receiving radiophone signals over very short distances requires only a simple array of apparatus. The adjustments of the receiving set may be easily made, and once made they are not difficult to maintain. Furthermore, the cost of such an installation may be materially reduced by the construction of some of the component devices by the operator himself. An elevated wire, called an antenna, is required to intercept the radio signals. It is important that this antenna be located in an exposed position so that it will pick up as much of the energy as possible.

are required by the National Board of Fire Underwriters. Any special regulations of the local district office should be implicitly followed to prevent the fire insurance on the building from becoming automatically ineffective in some districts an inspection of many types of receiving sets is required. The ground wire should be securely fastened to a heavy galvanized rod or pipe driven into moist earth for 6 feet, or it may be connected to a clamp fastened onto the street side of the water supply pipes. The ground wire should run in as direct a line as possible from the switch to the antenna connection and sharp turns should be avoided. All permanent connections should be carefully soldered to prevent bad contacts due to corrosion. The lead in through the wall to the receiving set should be through an approved bushing (porcelain tubes not being acceptable) so inclined in the wall that they will tend to drain water out rather than into the house.

Keep Minard's Liniment in the house

MASSAGED MAN'S HEART

LONDON, Sept. 14.—A patient of St. Bartholomew's Hospital, whose heart had stopped beating, was restored to life Wednesday night, and remained alive for more than 24 hours.

The man had been operated on for septic tonsillitis and immediately after the operation his heart action stopped and his breathing ceased. The operating surgeon, in his statement says: "We did artificial respirations of the usual kind for five or ten minutes, but there was no response on the part of the heart. I decided to open the abdomen and massage the heart through the diaphragm. After that had been going on for about ten minutes more with no response from the heart. I perforated the diaphragm and massaged the heart in the pericardium. The heart was completely lax, but after a time it began to quiver and after about ten minutes more massaging began to beat normally. The man certainly lived, but he never gave any sign that he had recovered consciousness. The operation took place Wednesday night and the man died early Friday morning."

100 TO 500 FEET

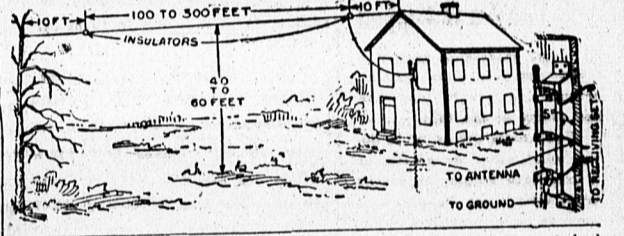

INSULATORS

TO ANTENNA

TO GROUND

It should be from 100 to 300 feet long and may be made of No. 14 solid copper wire or of 7 strands of No. 22 hard drawn copper wire. In a long span it is desirable to use stranded phosphor bronze wire or No. 14 copper wire which has a steel core. There is very little advantage in using several parallel wires in a receiving antenna except where a long span wire cannot be used. Where parallel wires must be used, they should be placed about three feet apart. The antenna should be supported in as high a position as possible. High trees or buildings near a receiving antenna in the direction of the station which it is desired to receive will absorb much of the energy from that direction. It is therefore, important to get the antenna high enough that nearby objects will not affect it. It should not run parallel electric light wires, else it is apt to pick up annoying noises from these circuits.

The antenna should be insulated by approved insulators, such as glazed porcelain. The insulators are in turn supported by ten foot lengths of sash cord or 1/4 inch manilla rope. The antenna is thence connected with a "lead in" wire which also connects to screw at the base of the bade of a single pole, double throw, 100 ampere 500 volt switch. This switch should be mounted five inches from the wall of the house, on a secure mounting. One clip or terminal of this switch should connect with a wire leading to the receiving set. The other terminal of the switch should be connected with ground by a No. 8 insulated copper wire and another lead to the receiving set. The ground lead, will also terminate at the clip. This switch and the large insulated ground wire, as well as certain other regulations

Senior Highland Fling—1st Miss Stewart, Charlottetown; 2nd Mr. McRae, Charlottetown; 3rd George Walker, Charlottetown.

Senior Sword Dance—1st Miss McRae, Charlottetown; 2nd Mr. Stewart, Halifax; 3rd Geo. Walker, Charlottetown.

Junior Sword Dance—1st Dorothy Allan, Truro; 2nd Dulcie Walker, Charlottetown.

Junior Highland Fling—1st Miss May McKinnon, Truro; 2nd Dulcie Walker, Charlottetown; 3rd Ruby McLean, Antigonish. Miss McRae gave a wonderful exhibition, being correct in all details in the opinion of the judge and a perfect dancer. Miss McRae is the possessor of numerous medals and the winner of several Pacific Coast events. It was very pleasing to all Scots to see so many Junior competitors and so many young people taking up the art of Highland dancing.

Piping Competitions.—Marches—1st Murdoch McLeod, Truro; 2nd Wallace Roy 78th Band, Truro and Strathpeys—1. Alex McDonald, Halifax; 2nd William Murdoch; 3rd McLeod, Trenton.

Amateur Marches—1st Alex S. Stewart, Halifax; 2nd J. W. Holmes, 78th Band.

Strathpeys—1st Alex S. Stewart, Halifax; 2nd Fraser Holmes, 78th Band.

Dr. and Mrs. Notting returned Saturday night from a holiday visit to Dartmouth, N. S.

—BY GEORGE McMANUS
