CRAZED MAN RUNS AMUCK.

(Canadian Press Despatch.)
PEMBROKE, Ont., March 4.—Crazed through drugs and determined to gain his liberty, Joseph Jordan, an American Negro, who was a member of the 20th Battalion, met his death in the armory here last night when he made an attack with a knife on the guard in charge of the detention room. Jordan, since enlisting in Montreal some months ago, had acquired a bad reputation as being addicted to drugs and liquor, and since coming to Pembroke spent most of his time in the guard room. He had been there for a week and had several times threatened that he would break out. He tried last night, but the guard called for help and Jordan was quickly surrounded with bayonets, to which he seemed to pay little heed. He continued slashing right and left with a knife, without effect, but received a number of bad bayonet thrusts about the hips and legs which bled profusely until he finally fell exhausted to the floor.

The wounds were treated by a surgeon, but did not appear to be of a fatal character. The man was a physical wreck, however, and he expired about an hour later.

Battalion officers reached here today and a military inquiry is to be held. Jordan is said to have a wife and family in England, but little is known about him.

P.E. ISLAND TOBACCO BEST

The following letter has been received by Miss Elida J. Dingwell, Sailors Hope from her cousin Gunner Philip Francis of the 272nd Canadian Siege Battery, Aldershot, England, Jan. 14th, 1917.

Dear Cousin:—Received your most welcome letter today Jan. 14th and was glad to hear from you.

Well Elida you say you think a soldier's life must be lonesome, you are right to a certain extent. We are lonesome for our dear ones at home and nothing makes us feel better than to receive a letter from those we are thinking so much of but as you say I am having a pretty fair time of it.

I was glad to hear that grandma is well and so smart, I wish I could have spent Christmas with you all. Was sorry to hear that Uncle Warren had such a sore hand.

I got two pair of socks that grandma sent me, and I was more than pleased with them. I wrote a letter just after I got them and hope you got it.

Well Dear you mentioned about sending me a box, would be more than pleased if you sent me a box and I know that anything that you would send would please me greatly.

It is pretty hard for me to get smokes over here and I would love to have some Island twist chewing and some good old Island plug smoking Tobacco, but dear don't put yourself out any, in getting anything for me.

But if you want to send me anything why tobacco is a great gift for a soldier over here, and you will have to do it up in a good strong box, as cardboard boxes will get all broken up in the mails and are not liable to reach its destination. A tin box is a great thing to send anything in.

I had a great trip to London and saw the places you mentioned in your letter and they are all well worth seeing. Some of the 105th has gone to the front, but most of them are in

SAYS A CORN ACTS LIKE ELECTRIC BELL

Tells Why a Corn is so Painful and says cutting makes them grow.

Press an electric button and you form a contact with a live wire which rings the bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow just step into a drug store and ask for a quarter of an ounce of freezone. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug never inflames or even irritates the surrounding tissue or skin.

BELGIANS REDUCED TO DIET OF CATS AND DOGS

Appalling conditions in Ghent as a result of shortage of food. Quick Action is Necessary

That cats and dogs are now being eaten by starving Belgians is the information received today by the Central Belgian Relief Committee in Montreal. This news came in a despatch sent to J. Goor The Belgian Consul-General in Canada, which says:

The misery of the Ghent population is beyond description. The food death is continually increasing throughout the city. People are now reduced to eating cat and dog meat almost daily when they can get it. Cats are sold for 2 francs each, dogs bring from 4 to 5 francs apiece. Potatoes have not been obtainable for several weeks past. People are eating beets instead, and other vegetables.

That this eating of dog and cat meat is not an isolated case of necessity is proved by information from other parts of Belgium, which describes the food shortage there as appalling.

"Canadians simply cannot realize the agony of the people from the want of food alone," said one member of the Committee today. "Mothers are watching the children fade out of life because their eyes, for want of food, the brave wives waiting for the return of their husbands are wasting away to shadows. The only hope of these people lies in the Belgian Relief Commission, which continues its work under all difficulties, and distribute food every day to the starving."

There is a big shortage both in money and food. The Relief workers get barely enough supplies to keep the large portions of the population alive, and are sending agonised appeals out to more fortunate people on this continent for greater help.

Canada is sending a seventh ship load of food immediately on the opening of navigation. Will you help load this ship? Your contribution will be most thankfully received by your local Belgian Relief Committee or by the Central Belgian Relief Committee, 59 St. Peter Street, Montreal.

England yet. Some of the 105th boys come up to see us often, there are four of them here today, as they know most of the boys in our battery.

We are having a very moderate winter over here, hardly any snow at all and the weather isn't very cold, but I guess we can stand it all right. We Canadians are made of the right kind of stuff to fight those Germans.

Elida dear, I must close for this time, so good-bye, give my best regards and love to all and hoping this will find you all well. Your loving Cousin PHILIP.

It is hard to break the chains of habit. It took one man six months to stop saying "Gee Whiz."

It is astonishing how habit will keep a person asking for "the same as usual" tea long after she has intended to try Red Rose Tea. Why let habit prevent you enjoying this richly flavored Indian-Ceylon blend?

To MAKE MONEY

go to its extreme limit is the aim of every good housekeeper. That is why she buys Zam-Buk when in need of a household balm—because she knows that it will give better results, last longer, and keep better than any ordinary ointment. A small quantity of Zam-Buk will give better results than many times that quantity of an ordinary ointment. It is, therefore, not only best, but most economical. Besides, as Zam-Buk contains no animal fat it cannot turn rancid, and remains perfectly good to the last application.

Zam-Buk's superiority is due to the fact that it is all medicine, whereas ordinary ointments contain a large proportion of animal fat and a small percentage of medicine. Zam-Buk is not only soothing and healing, but it is germicidal. This makes it invaluable as a "first-aid."

An application of Zam-Buk to a wound as soon as sustained will prevent all danger of blood-poisoning. Zam-Buk is splendid for eczema, ringworm, scap sores, ulcers, abscesses, old wounds, blood-poisoning, pimples, boils and piles, as well as cuts, burns, scalds, bruises, and all skin injuries. 50c. box, 3 for \$1.25. All druggists and stores, or Zam-Buk Co., Toronto. Send 1c. stamp for free trial box.
