ATTEND DISTRICT COUNCIL MEETING—Messrs. Maurice Mill, Elmer Oiler and Cleve Whalen, of the Summerside Kinsmen Club attended the district council meeting of the Kinsmen Clubs of the Maritime Provinces held in New Glasgow, N. S., on Saturday evening.

ISLANDERS MEET IN LONDON AND PARIS—Mr. Charles E. MacNeill, son of Mr. and Mrs. W. B. MacNeill, Summerside, who is in Europe on a buying and selling trip for different firms that he represents, writes to a friend in Summerside that he accidentally met another Summerside man over there. He writes: "I ran into Roy Lockhart, son of Dr. A. A. Lockhart in the elevator of the Strand Palace Hotel, London one night. Roy is with T.C.A. at Prestwick, Scotland and was spending a few days in London and Paris. We made arrangements to meet in Paris and since I had my car over here with me we drove back from Paris to London together. We had intended crossing from Dieppe, France to New Haven, England, but when we arrived at Dieppe the boat hadn't crossed so we looked over the ruins at Dieppe, took some pictures and drove on to Boulogne where we had lunch and took the auto ferry to Folkestone."

Mr. MacNeill also describes the food situation in France and England. In France, he says, the prices are very different but there are not many choices on the menu. He says he has been offered the equivalent of \$7,200.00 for his car from several people. He expects to be back home by the middle of October.

ALBANY AND VICINITY

Mr. and Mrs. Keith Cameron, Halifax are spending two weeks vacation at the home of his mother, Mrs. Ewen Cameron.

Friends in Albany are glad to hear that Mrs. Ernest Paynter is improving after undergoing an operation in the Prince County Hospital.

Miss Jennie Davison, Summerside, spent the week-end at the home of her parents, Mr. and Mrs. Murdoch Davison.

Violence Flares In Farm Strike

EDMONTON, Sept. 29 (CP)—Some 27 or more arrests were reported by Royal Canadian Mounted Police Saturday as renewed violence flared along the picket lines in the delivery strike of farmers in two western provinces. Meanwhile plans were completed for consideration of Dominion proposals for settling the 23-day-old strike for higher produce prices.

Police said "at least 20" farmer pickets were arrested near Beaver Crossing where a cattle buyer was injured and his cattle stampeded in a rock-throwing blockade involving 300 pickets, the worst incident of violence since the strike was called by the Alberta Farmers Union Sept. 6.

While an additional seven arrests were made at Rochford Bridge and other incidents indicated a growing tension, union officials said its central strike committee of seven members would go to Saskatoon tomorrow to confer with officials of the United Farmers of Canada.

The U.F.C., whose 30,000 members are confined to Saskatchewan, has also indicated a strike call resulting in some stockyard blockades at picketing in Saskatchewan. At Saskatoon the two farm organizations whose main demand is for establishment of a fact-finding board to determine parity between farm costs and returns, will consider proposals put forward by Agriculture Minister Gardiner. The minister has proposed they place their views before the Agricultural Prices Support Board, which he said had all the powers they ask.

Forest Fires Rages Over 3-mile Front

BATHURST, N.B., Sept. 29 (CP)—A forest fire raging on a three-mile front was reported tonight to be threatening the settlement of East Allardville after destroying a winter sawmill and several houses. The mill was owned by the Gloucester Lumber and Trading Company.

Reaching points about one mile from Allardville, the fire has entered the limits of the lumber company. A 1,000-acre well-timbered block on the Tracadie River, owned by Sir James Dunn, lies in the danger zone. The property includes a number of valuable buildings.

A large crew fighting the outbreak was handicapped by brisk wind and extremely dry weather, with brooks low and ground dry to a depth of five feet.

NEW ZEALAND ELECTION Results May Differ

AUCKLAND, N. Z., Sept. 29—Saturday's general election in Australia is not any sure guide to the result of the coming New Zealand election, though both elections are for the same purpose—whether the present Socialist Government should be retained.

The New Zealand election is scheduled for Nov. 27. There are many differences between the situation in the two countries. Labor has been in power much longer in New Zealand than in Australia and the people have had a fuller exposition of the Socialist program.

The voting system in the two Dominions is different and this has led to a different political set up. The issues are more simple and direct in New Zealand where there are only two major parties, Labor and National.

Simple majority voting is used in New Zealand so that as in Canada no matter how many candidates stand for any seat the one with most votes is elected whereas preferential voting is used in Australia.

Since the last election, a commission has made the greatest shuffle of electorates in the coun-

Settlement Plan Is Accepted By Nat. Committee

(By The Canadian Press) MONTRÉAL, Sept. 28—A proposed plan of settlement of the steel strike has been accepted by the national negotiating committee of the United Steel Workers of America and has been submitted to union workers in the works at Sydney, Sault Ste. Marie and Hamilton for ratification.

This was announced late Saturday by F. B. Kilbourn, government controller of basic steel, who issued the following statement: "I have been advised that the proposed plan of settlement has been accepted by the national negotiating committee of the union and their recommendation for acceptance has been sent to the Steelworkers of America, Sault Ste. Marie and Hamilton for their consideration."

Mr. Kilbourn gave no indication as to the amount of any wage increase included in the proposed terms of settlement. However, a Press dispatch from Ottawa Friday had reported a well-informed source as saying the union committee of the United Steel Workers of America would accept a 12 1/2 per cent increase to April 1 and a further three cents an hour when work is resumed.

The union's original demand when the strike started July 15 was 19 1/2 cents. Two weeks ago the steel unions rejected government proposals which included wage increases of from 11 to 12 1/2 cents.

Will Meet Tuesday

SYDNEY, N.S., Sept. 29—Striking steelworkers here will meet in special session Tuesday afternoon to hear a proposed plan for settlement of the steelworkers' strike advanced by F. B. Kilbourn, government controller of basic steel.

The proposals, already accepted by the national negotiating committee of the United Steel Workers of America, will be voted upon by the union membership here Wednesday. It was reported by local secretary Jimmie Nicholson.

Blackpool Clings To Leadership

By JACK SULLIVAN Canadian Press Staff Writer

LONDON, Sept. 29 (CP Cable)—Manchester United yesterday 2-1 yesterday in English League division one football and clinging to division leadership for the second week.

The former leader, Manchester United, did well against Arsenal, winning 2-2 before 50,000 spectators in a game tougher than the score indicated.

Manchester remained in second place with Sunderland, but lost to over Blackburn Rovers, third.

The division two leaders, Barnsley and Newcastle, both remained on level ground, Newcastle 1-1 and Barnsley 1-1.

Manchester City in second position, also had a 60,000 audience when they drew 2-2 with Tottenham Hotspurs.

Newcastle United continued third and Chelsea fourth, both with 2-2 scores.

Indian summer weather brought out what was called the "country quota" under which the larger country electorates had fewer voters. All have now been adjusted to equal strength.

There will be no election for the Upper House, the Legislative Council, as in Canada this is an entirely appointed body, its members nominated by the Government.

Coincident with the election a poll will be held on the liquor issue. Electors will be asked to vote for the continuance of the present liquor system operated by private firms, total prohibition, or state purchase and control.

To carry prohibition, this option must have an absolute majority over the total of the other two.

Royal City Co-Op. Turns Potatoes Into Glucose

By PAUL ST. PIERRE

VANCOUVER, Sept. 26—Farmers of the Lower Mainland have a solution for the problem of the little Irish potato that didn't go to market in a cooperative factory in South Westminister.

The sugar plant, first of its kind to be established in the Western Hemisphere, is buying millions of pounds of 1946 spring surplus, treating them by a patented process, and producing a sugar substitute for a hungry market.

The sugar substitute is glucose, which looks and tastes like a pale variety of corn syrup. In recent years Vancouver's citizens have been consuming it daily in their bread, soft drinks and ice cream.

BAKERS LIKE IT

Pacific Glucose Company, the manufacturing firm, will not admit its product runs second to corn syrup. Glucose, they say, is a pure starch product suitable for invalid feeding in hospitals—a pure energy food. Bakers are finding it has better "binding" qualities and prefer it. Ice cream and soft drink makers have been enabled to produce greater quantities despite their sugar rationing.

In addition to its commercial buyers, glucose is finding patrons among the housewives who use it for home canning. Many families use it for a spread on bread and scones and sweetened deserts.

"We have a product with a big potential market that shows every sign of being a continued market for the potato grower," says Jack Miller who manages B. C. Chemurgy Cooperative Association.

USE CULL POTATOES

The spud men who have been selling their cull potatoes for several years to the firm, found it a life-saver this year when a late frost wiped out their crop.

We are also showing a complete range of smart Winter Overcoats for Boys, Youths and Students in greys, browns, and navy. YOU'LL ENJOY SHOPPING AT SINCLAIR & STEWART LTD. Summerside, P. E. I.'

Seeking New Distance Mark

(By The Canadian Press) PERTH, Australia, Sept. 26—The United States Navy patrol bomber Truculent Turtle took off for North America today on a flight that may carry its crew of four and mascot baby kangaroo halfway round the world and establish a new distance record.

The big twin-engine PV Neptune was heavily laden with 8,400 gallons of 100-octane gasoline and was helped into the air by four jet cylinders, jettisoned after the plane took off.

The take-off was from the R. A. F. station at Pearce, 26 miles from here, and the only announced destination was Seattle, 9,812 miles away across New Guinea and midway on the great circle course. It was understood the Turtle's crew expected to have 2,000 gallons of gasoline left upon reaching the U.S. West Coast and might continue across the continent over Chicago to Washington, another 2,336 miles.

An Army B29 Superfortress established the distance record of a little more than 8,000 miles on a post-war flight from Guam to Seattle, 12,147 miles.

The Truculent Turtle is the Navy's newest type of patrol plane, designed by Lockheed for long distance search and recon-

Will Start Handing Down Sentences

(By Thomas A. Reedy) SEPT. 29 (AP)—A grim blanket of security was thrown around Nuremberg tonight on the eve of verdicts and sentences for the 21 German leaders who have been tried for 10 months as war criminals.

Vehicles in and out of the ancient shrine city of the Nazi party were flagged and searched to get near the old courthouse and jail where Herman Goering and associates awaited their fate from the four-power international military tribunal.

Most defendants spent the day in religious devotion, and wives of the defendants were forced to leave the city at noon.

Verdicts and sentences will be handed down over a two-day period starting at 10 a.m. tomorrow (3 a.m. E.S.T.—4 a.m. A.S.T.). It is understood that Lord Justice Sir Geoffrey Lawrence of Britain, presiding judge, will start reading the decision of more than 250 typed sheets in the presence of all defendants. Justices of the other powers will read parts of the verdict in turn.
