**THE GUARDIAN
COVERS THE FIELD**

The Guardian covers the City and Pro-
vince within which it is published more
fully and completely than any other news-
paper printed in Canada.

With a daily circulation of its morning
and rural edition now about 8,000 and
growing from day to day, it has broken
all records for a daily publication in a
small community.

Charlottetown has a population of 12,000
and Prince Edward Island has 100,000. The
Guardian's daily circulation is therefore
1 to 14 of population in the city in
which it is published, or 1 to 13 of the
population of the Province. This is, the
management believes, unequalled by any
daily newspaper published in Canada.

Take one or two comparisons with other
leading newspapers in other cities and
Provinces.

St. John has a population of 40,000 and
the Province of New Brunswick 820,000.
St. John has five newspapers and among
them The Telegraph and The Sun are
perhaps the foremost. Each claims a cir-
culation of about 8,000 or say as 1 to 5 of
the population of that city and 1 to 40 of
the population of the Province.

Or again, Toronto has a population of
some 280,000 and the Province of Ontario
about 2,250,000. The Toronto Globe is a
great Canadian newspaper, known all
over the world as one of the foremost
journals. The Globe's published daily cir-
culation is slightly under 80,000. That is
1 to 3 of the population of Toronto and
1 to 44 of the population of Ontario.

The point is this: that The Guardia
covers the field of its circulation three
and a half times as well, if compared
with population of the city, and over
three times as well, taking the popula-
tion of the Province, as the best New
Brunswick and Ontario daily newspapers,
and these are admittedly among the best
in Canada.

These facts are printed in no spirit of
boasting, but for the satisfaction of
Guardian readers and advertising patrons
alike. They have a right to know how
completely their favorite Journal is en-
dorsed by the reading public among
whom it circulates and how completely
it covers the field as an advertising
medium in this City and Province.

The Guardian news office closes at
twelve midnight Saturday and does
not open again until midnight
Sunday. In the meantime any
news items, duly signed by the writer
and dropped in the letter box in the
Guardian main entrance door, will have
prompt attention when office opens.

**Eczema,
Salt Rheum.**

Eczema or Salt Rheum, as it is often
called, is one of the most agonizing of skin
diseases. It manifests itself in little
round blisters, which contain an extremely
irritating fluid. These break and subse-
quently a crust or scale is formed.

The intense burning, itching and smart-
ing, especially at night or when the part is
exposed to any strong heat, are almost
unbearable.

The pre-eminent success which Burdock
Blood Bitters has met with in permanently
curing a disease of such severity is due to
its wonderful blood cleansing and purify-
ing properties.

No other remedy has done, or can do,
so much for those who are almost driven
to distraction with the terrible torture, as
our thousands of signed testimonials can
testify to.

Mrs. Jno. R. Keady, Linton, N.B.,
writes: "I was so troubled with Salt
Rheum for eight years, that I could not
work my hands were so sore. By using
Burdock Blood Bitters my hands were
eventually cured."

Mrs. Isa C. Buckner, Eden, Ont., writes:
"I was troubled with Eczema for a long
time. I came out on my face and between
my shoulders. I then told me about
Burdock Blood Bitters. I took two bot-
tles and it helped me so much I cannot
recommend it too highly."
