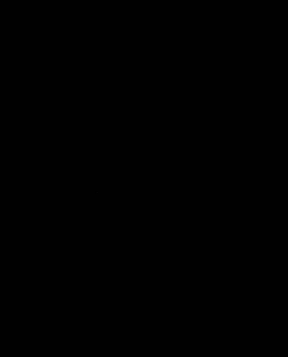
Modern HEATING in the HOME

Fawcett

The housing problem of today is not simply one of more roofs. Many homes are in need of modern up-to-date heating equipment. In some cases this involves no great structural difficulties for present duct channels can be utilized.

That is one of the reasons why the Fawcett line of forced-air or gravity warm-air furnaces appeal to the contractor.

They are so easily installed and so readily solve almost any heating problem.



(Write for details of the complete Fawcett furnace line for indoor comfort.

Fawcett Boiler plate air conditioning units with deluxe casing housing fan and air filters, scientifically baffled for noiseless operation.

Fawcett cast iron furnaces for pipe or pipeless gravity installations are supplied to burn either coal or wood.

Science Has Been Working For You In The Field Of Heating

THE FACTS THESE LEARNED MEN HAVE UNCOVERED ARE YOUR BUSINESS!

Warm air heating is not new—primitive methods were used by the Romans and probably even before that period. Today, however, only the principle is used while the methods are tremendously advanced—30 years of serious theoretical and practical study by scientists have brought into being modern methods and strict rules to be adhered to in planning and installing all warm air heating systems.

Your protection for a proper system is in the knowledge that the manufacturer who makes your furnace and equipment and the dealer who installs it, is a member or associate member of the "Canadian Chapter, National Warm Air Heating and Air Conditioning Association." INSIST on purchasing from such member ONLY.

SEVEN REQUISITES FOR INDOOR COMFORT:

1. Air at a Satisfactory Temperature.
2. Air Containing Proper Amount of Water Vapour.
3. Air Moving Constantly But Imperceptibly.
4. Air Free of Dust, Dirt, Smoke, Pollens.
5. Air Free of Staleness.
6. Air Free of Germs and Bacteria.
7. Air Of Adequate Density.

...*LOSS OF SHIP REGRETTED —His many friends in Montague, will regret to learn of the disaster which befell Capt. George Lake last week, when his ship, the Laverniere was cut down by the 5,600-ton American freighter Calabee of the port of Canso, N. S., during a dense fog. The six-man crew of the Laverniere was rescued by boats from the Calabee, which received very slight damage. The Laverniere, which had made many calls at the Montague port, sank in a few minutes. Capt. Lake, whose home is in Montague, said that they had not noticed the other boat until it was about 100 yds. away, and although he immediately turned the boat, the Calabee struck, shearing off the stern section, after which the boat rapidly sank.

Mrs. Eric MacPherson and Mrs. Dan Matheson of Heatherdale were visitors to Georgetown on Saturday and were the guests of Miss Betty MacPherson of Heatherdale, who is employed at the "Highlands."

At What Age Will You Go Bald?

Nature Warns You When Hair Loss is on the Way

Look in a mirror, and picture yourself 5 years from now.

If you see signs of thinning hair now—hair that looks drab and dull—if you see *dandruff*, take warning!

Dandruff often warns you of thinning hair, unhealthy scalp. This is because your hair traps dirt, dust and grime from the air. These combine with scalp oil, dried skin and perspiration to form a waxy accumulation of dandruff lying tightly on your scalp. Your hair is choked off from nourishment it needs, may become dull, lifeless and thin out.

For healthy, good-looking hair, you should dissolve away all dirt and dandruff from your scalp. Use Fitch *Dandruff Remover* Shampoo, the *only* shampoo *guaranteed* to remove dandruff.

Fitch works right down into the thousands of tiny hair openings in your scalp. It leaves your scalp antiseptically clean, able to breathe freely, so your hair can be healthy, lustrous, alive-looking.

Prove It Yourself

Get Fitch *Dandruff Remover* Shampoo for healthy, good-looking hair—try the economy size, 69c. Be proud of your hair—start Fitch care tonight.

Fitch Dandruff Remover SHAMPOO

WARNING!

INTERRUPTION

The work of moving poles on the Sparrows Road, necessitated by the highway widening programme will be resumed on Tuesday afternoon, August 2nd, 1949.

The power supply to Montague, Georgetown, Cardigan, Murray River, Murray Harbour and surrounding territory will be interrupted from 1:30 to 5 p.m. each day until the work is completed.

We regret this inconvenience to our many customers but this is necessary in order that our men work with a minimum hazard.

Thank You,
