The Boston Globe says of the match between the Canadian teams on Soldiers' Field played last Saturday: "It is too bad that the rugby football game between the Canadian players, which will be played Saturday while Harvard is at Philadelphia, could not be arranged for a date when the varsity players as well as the real football enthusiasts who will follow the Harvard team to Philadelphia, could see it. Walter Camp says this game has several salient points of advantage over the game as played in the American colleges."

AWAY back in the Forties of last century good seed grain was accumulated by grain shows conducted by agricultural societies throughout the Province. The Colonial Herald of March 7th 1840 contains the announcement of the annual fair of the annual fair of St. Margarets Agricultural Society which was to be held at the house of the Secretary John McEachern. Prizes of 15 shillings, 10 shillings and 5 shillings were awarded for the best wheat, black oats and barley of the growth of 1839. The following were the judges Alexander McDonald; John McDonald, Bic Spring; Peter Stewart West River.

YESTERDAY on the C. P. R. going west were several young men from P. E. Island who work for the Portland Packing Company all summer and go to Portland every fall and work for the same company there. Making cans and tin boxes and preparing for next year's work is what these young P. E. Islanders work at from now till the first of May when they will return to P. E. Island and work with the same company on the Island during the summer months. They were about twelve in number, all strong and able fishermen, and were enjoying themselves in the smoking car as only fishermen know how to enjoy life on such a voyage. —Moncton Transcript, 9th.

THE lobster season in most of the fishing districts of the Maritime Provinces ended on Monday, 10th July. Reports from all districts are not yet available but along the north shore of Nova Scotia lobsters were very plentiful and most of the packers had secured the full output of their factories long before the legal period had elapsed. It is expected that the catch in all the Gulf factories will be the largest in recent years. In P. E. I. the catch this season will be about an average one. This season, owing to bad weather, the fishermen were late in starting. The rather unusual fact of lobsters starting to shed their shells in July instead of in June as in previous years operated to the advantage of the fishermen. The price this season is about one dollar a case less than in 1904. The total catch is estimated at about 50,000, valued at \$850,000.—Ex.

IN AND ABOUT NORTH TRYON.

Miss Dora Thompson is visiting a O'Leary.

Augustus Kehoe has returned home from the Canadian Northwest after an absence of two years.

Robt Carr has returned from the State of Maine, where he had a position during the summer months.

Willie Pooley, student of the U. C. C. has returned to College after spending a few holidays at his home in this village.

William and Mrs. Woods, formerly of this village but now of Winthrop, Mass., are spending a brief sojourn with their many friends and relatives here.

Percy Reid of Dawson City spent a couple of days recently with Gordon Dawson talking over old times when they were together in the gold fields a few years ago.

Johnny Hekoe, who has been suffering from a severe attack of pneumonia, is slowly recovering from the very doors of death. He is under the skilful treatment of Dr. Sutherland, Beleque.

L. B. Crue, Summerside, spent a few days in this village recently shooting and fishing. Mr. Crue while here was accompanied in his expeditions by the expert sportsman Hamilton Gamble.

The turnip crop in this section of country, which has been far above the average this season, is now almost completely housed. With the exception of a small amount of ploughing this finishes the farmer's autumn work.

B. Leard and Eugene Hall who went west on the Harvest Excursion a few months ago returned home recently. Both are pleased with the west and their trip, but nothing captivated them like their "dear little Island home."

Mrs Henry Dawson who was stricken with a stroke of paralysis a few weeks ago had recovered only for a short time when she was again stricken. She is now reported dangerously low. Dr. Sutherland, Beleque, is in attendance.

James F. Lord of this village sold a very promising four-year-old filly to Mr. Bowness, Summerside, a few days ago for a handsome sum. Doubtless this beauty of the equine stock will figure conspicuously on the race course next summer.

William Brien who sold his farm to Mr. Toombs of Rustico intends taking his departure for the Canadian Northwest in April. It is with deep regret the community hears of the intended departure of Mr. Brien and his family, for Tryon loses a citizen who has always looked forward to the bettering of the village.

By the ring of the anvil and the bustle of work all still know that the village jolly smith Thomas McNeill is at his old stand catering to the wants of his many customers. For quite a number of years through summer's heat and winter's snow he has remained at the old stand obliging so many that his trade has increased very much. In fact several assistants had to be secured during the last year. Much of this progress is also due to the capable and energetic foreman Ira S. Wood.
