

# CLARK'S PORK and BEANS

They taste so Good!

The Kiddies just love them. Growing children need vitamins and easily digested nourishing foods that build bone and muscle.

W. CLARK LIMITED, Montreal, P.Q., St. Remi, P.Q., & Harrow, Ont.

## The Public Forum

This column is open for the discussion by correspondents of questions of interest.

### APPRECIATION

Sir.—Having just completed an extensive business trip by auto on your beautiful Island, I would like to add a word of appreciation and say, "It is a wonderful Island."

I travelled, while on the Island, seven hundred and thirty-five miles by car and found the most perfect dirt roads that I think it is possible to find anywhere.

The approaches to the City of Charlottetown have been travelled. This gives the appearance that the Good Roads Policy is being carried into effect.

I also noticed that after the rainy days men were out with drags, leveling and rounding up the roads, which made them almost equal to a tarvia highway.

With your excellent roads, with good, cheap, delightful hotels and pleasant people to deal with, Prince Edward Island is surely a Mecca for Commercial Men.

May your prosperity and good roads continue.

Thanking you, for your valuable space.

I am, Sir, etc., H. C. S. Commercial Traveller

### CO-OPERATION NEEDED

Sir.—I am glad to note that Mr. Baldwin has emphasized the importance of co-operation on the part of the people of Canada and of the whole British Empire.

We have a great inheritance from providence and from the brave and wise men of earlier ages, and we can let it go to other hands or we can develop it that it will be a blessing to our children and children's children and to mankind in general.

To let it go, we have first of all to allow foreigners to invest in it and to get deeply into debt to them.

To develop it, we have to operate individually, and co-operate among ourselves and with our own folk in the Mother Dominion and Colonies.

We have but to keep our heads level, to look to our own interests (as Americans do) to work together, and, in respect to trade, to consider the claims and interests of the British peoples rather than those of foreign nations.

With various governments, all under one sovereign, we can act unitedly and yet promote Imperial Canadian and Provincial interests—action is now required.

So long as we have a Liberal government let us, in the interests of our country and ourselves, support them in all their measures that are calculated to safe-guard and develop the incalculable wealth which nature has bestowed and which the Conservative come in it will be equally the duty of the Liberals to help work out the policies that will promote national development and improvement.

I am, Sir, etc., A BRITISH CANADIAN Charlottetown, Aug. 8th, 1927.

### BUYING AND SELLING POWER.

Sir.—Our experience of responsible government is that it is not free from the curse of barter. Governments buy support. Who can deny this deplorable fact? Just now the government of this Dominion is promoting a mad cap chase in the desolate and inhospitable regions around Hudson Bay.

Why is so much public money thrown away and the country committed to spend millions more in a foolish attempt to overcome the obstacles against making Hudson Bay and Strait and the iceberg infested waters of the far north Atlantic, practical highway of commerce? Why? It is because the government has bought support! Had the King Government refused to barter with the people of the prairies, they would not be in power today. It is nothing short of public robbery to take the people's money and throw it into this great sink hole of the north!

What do these Western farmers know about ice navigation? The majority of them never saw sea ice. Massachusetts is an impertinence. This was the curt reply given by Albert Halstead, United States Consul General here, to F. W. Gerrish, who had acted as chairman of a meeting of the Canadian Labor Defense League and had been commissioned to ask Mr. Halstead to convey to President Coolidge the protest of the League against the electrocution on Thursday of Nicolo Sacco and Bartolomeo Vanzetti, condemned murderers of a shoe factory paymaster, and his guard in 1920. To Mr. Gerrish's comment that outside interference appeared quite general, the Consul General retorted that it was still "impertinent" regardless of its extent.

Just think of it! Twenty miles or more of deep dredging must be done before a ship can come to a dock. And how long will it take the waves of the shallow bay to refill that channel? And how long are the intelligent people of Canada going to stand such "foolery"? It is a fine paying frolic for a lot of fellows, but the people must pay the piper.

I am, Sir, etc., JACK FROST.

## HOUSEHOLD SCRAP BOOK

By ROBERTA LEE

### Mud Stains On Garments

Dry the garment and then rub with a piece of flannel. Or spread on a paste of fullers' earth and water, allow it to dry, and then brush and sponge with warm water.

### Onion Odor

Onion odor on the hands can be removed by rubbing with a slice of raw potato, with salt, or with a sprig of parsley.

### How to Make Mucilage

Mix equal parts of gum arabic and tragacanth. Dissolve in hot water to the proper consistency.

### OUR CABINET CLAIMS

Sir.—We are all glad to see that you are again asserting the right of Prince Edward Island to official representation in the Cabinet of Canada.

I, for one, hope that you "keep it up." From the Party point of view, the people of this Province are certainly entitled to such representation.

For three-fourths of their representatives in the House of Commons are thick and their supporters of the Party now in power. And from the Provincial point of view, it is surely right that at least one member of the Cabinet shall have some direct influence in the Government of the country.

We may not all think that the men we elected last year are the men to well and truly perform the duties of a Cabinet Minister. But it may be truly said of each and all of them, that they are just as good men, mentally, normally, and physically as those who are now enjoying large salaries at the expense of the country and as those who are now seeking Cabinet position.

Who will dare to say that Mr. Jenkins does not compare favorably with Mr. Davy, or Mr. Mackenzie King's grand aggregation? Who will dare to say that our Mr. McLean of Prince, is not competent to preside over a Department of Agriculture or of Fisheries? I agree with you that Mr. McLean has the stronger claim in the fact that he is besides being a practical farmer and occasionally a fisherman, a first-class advertiser and a man of good tact in the promotion of his own interests.

One who can do so well for himself, may, certainly, be trusted to do well for the country if placed in a position to do so. Mr. McLean's promotion to do the scullion's job, and his success in obtaining the services of a zoologist to investigate and report concerning it, is surely proof of his fitness to preside over the Fisheries Department of Canada.

Of this Province it may be said truly that, though not large, it has quality. That fact was noticed by the Prince of Wales, the Governor General and his good wife, the Prime Minister of Great Britain, not to speak of the Prime Minister of Canada, and all and sundry those who attended the poultry show recently held in Ottawa. It has been marked that the most valuable articles are contained in the smallest parcels; and that undeniable truth, appears to the smallest of the Provinces. Why our Prime Minister, Mr. Mackenzie King, should be so long in the fulfillment of his promise to give a representative of Prince Edward Island a ministerial position in his cabinet I cannot understand. It will evidently not contain all the jewels available until at least one of the Island's Liberal representatives have a place in it.

I am, Sir, etc., FAIRPLAY. Aug. 8th, 1927.

### U. S. CONSUL GENERAL IN MONTREAL MADE CURT REPLY TO LABOR MAN.

MONTREAL, Aug. 10.—"Outsiders interference with the processes of justice in the Commonwealth of Massachusetts is an impertinence." This was the curt reply given by Albert Halstead, United States Consul General here, to F. W. Gerrish, who had acted as chairman of a meeting of the Canadian Labor Defense League and had been commissioned to ask Mr. Halstead to convey to President Coolidge the protest of the League against the electrocution on Thursday of Nicolo Sacco and Bartolomeo Vanzetti, condemned murderers of a shoe factory paymaster, and his guard in 1920. To Mr. Gerrish's comment that outside interference appeared quite general, the Consul General retorted that it was still "impertinent" regardless of its extent.

# WHEN SENDING MONEY ORDERS

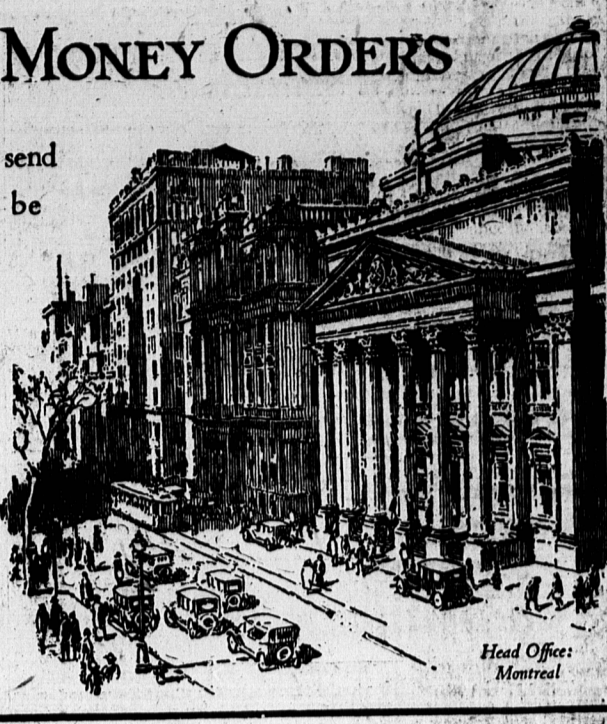

WHEN you have occasion to send Money Orders they may be obtained readily at any branch of the Bank of Montreal.

## Invention of A Patent Hay Loft Chair

By GEORGE MELLETT, UNION

When unloading hay with the hay fork the great problem is now solved of knowing where to get too when the fork full goes up the man in the loft, sometimes on the barn floor; but by stepping into the chair he is in perfect safety; it can be elevated up or down by automatic safety blocks attached to the girl. With the tripline in one hand the elevator line in the other he can lower himself down to the level of the load while the fork full is going up. It can be shut up if necessary to permit the load to pass in. If unloading outside it can slide up or down on two slats attached to post. It's something every farmer wants to save his neck and limbs.

## PETERS ROAD AND VICINITY

Ideal hay weather prevailing just now is giving the farmer opportunity to save that important crop, the work being hitherto retarded by the rain. Grain crops especially oats and all root crops give splendid promise here.

Many visitors from the United States and neighboring provinces are with us for a time. They enjoy the quiet life, scenery unequalled, and the pure, cool and invigorating air of Prince Edward Island. And besides in most cases it is not their native land? Welcome!

Miss Ethel Johnston, R. N., of Montreal, having visited her home and relatives at Peter's Road is now visiting friends in the rugged scenery of C. B., before resuming her duties in the great Metropolis.

Miss Stella Jenkins, late of Newton Centre, Mass., is now visiting at the home of her parents Mr. and Mrs. Joseph G. Jenkins, Greek River, and other relatives and friends in the province.

Mr. Milton C. McLean of St. John, N. B., arrived at his home Peter's Road, where for a short time he will spend his vacation with his parents, Mr. and Mrs. W. L. McLean, and other relatives and friends.

Mr. and Mrs. Hugh McPhee of Halifax and family, are now spending their holidays at Peter's Road, guests of Mrs. McPhee's mother, Mrs. A. M. Johnston. It is noteworthy that both Mr. McLean mentioned above and Mr. McPhee are veterans of the Great War, having both penetrated into the territory of the enemy.

Mr. Glendon Partridge, City, is spending his holidays at Peter's Road, guest of Mrs. Wm. McDonald and Master Joseph McLean.

Mrs. Murray Mattinson and little son Murray Jr., with her sister Miss Ethel Macdonald arrived at the old home, Peter's Road quite recently, where they will spend the summer months, guests of their brother and sister Randall and Miss Belle Macdonald. Their many friends wish them a happy holiday season.

Mrs. S. Ouddy, Murray River, with her sister, Mrs. S. L. Jenkins from East Medford, attended divine services in the Presbyterian Church at Peter's Road on Sunday, 7th inst. Rev. D. V. O'Meara, the Pastor, administered baptism to several children of the congregation, and preached most acceptably on the occasion at 2.30.

Mr. John L. Macdonald is more than ever engrossed in his busy duties of supplying meat to his far-flung line of customers from the grassy slopes of Murray Harbor North to the Certified Seed producers of Glen William, Glen Martin and Stern Caledonia.

Mr. J. L. McKinnon and Mr. W. B. Hicken, general merchants, Peter's Road, are doing a thriving business in their respective stores.

The streams in this locality in which the spotted beauties abound so noted in this province afford much pleasure to the sportsmen.

## Tuberculosis — Childhood Infection

No. 22

No one with any symptoms of illness or any Colds, Grippe, Cough or Bronchitis should be allowed to closely associate with Infants.

The habit is not yet entirely extinct of testing food for a child by trying the spoon first in the Mother's mouth. No adult's mouth is clean enough for such usage.

The most common carrier of germs is the shoe sole. A little of the dirt and sputum that shoes walk through in stables and on the streets, reaches the floors of the oldest housekeeper. Whatever is on the floor is soon on the babies' hands, and what is on hands is instantly in mouth. If the floors of some of our homes could be examined microscopically they would be found too horrible to talk about.

Infant mortality and child mortality become lower as people become less Dirty.

The first 2 years of life, the time of floor crawling, show a heavier death rate from Tuberculosis than

## INFORMATION ON WATER-POWER RESOURCES

The official information available at a central source regarding the water-power resources of Canada, as to capacity, and availability is most complete. The Index Inventory System of investigating and recording water-power resources, originated by the Dominion Water Power Branch of the Department of Interior and developed and carried out in full collaboration with the provincial governments, has resulted in all possible information or district being available at the head office in Ottawa for any interests concerned.

## GOLD IN CANADA

Gold has been found in every province of Canada except Prince Edward Island. The first recorded discovery was made in 1824 on the Gilbert river, 50 miles south of Quebec City. Placer mining operations commenced here in 1847 and intermittent operations have been carried on ever since. Placer discoveries were

## FOR LENOX, ILE AUX NOIX

Among the historic memorials of Canada that have been from time to time placed under the care of the Canadian National Parks Branch of the Department of the Interior there is none richer in historic interest or more charmingly situated than the massive old fortress, Fort Lennox, that stands in quiet dignity on the southern end of Ile aux Noix in the Richelieu river, in the province of Quebec. This fortress was erected by the British military authorities in the early part of the nineteenth century and since its abandonment as a military post in 1869 has been visited by increasing numbers of tourists each year.

Ence surnorn with Minard's Liniment.

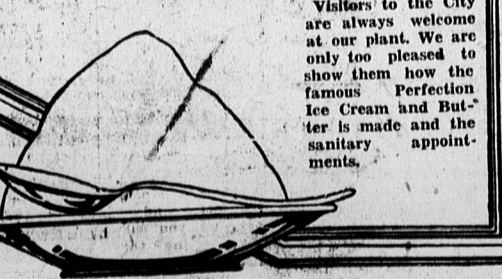

## THE FIRST TIME

You eat Perfection Ice Cream you will undoubtedly say that it is "rich" tasting—and you will be right because the best of everything—sugar, cream and flavoring is used in the manufacture of

## Perfection Ice Cream

It is richer and has more "body" than most ice creams because it contains more than the amount of butter fat required by many provinces having pure food laws. This makes Perfection taste better and richer, and makes it more nourishing—a real food.

## The New Automatic Orthophonic Victrola

Model 4-40 \$225 or with Electric Drive \$265

# New and Delightful!

It gives a new and delightful definition to the bass,—so desirable for dancing says Paul Whiteman—King of jazz music.

THINK of having the world's greatest dance organizations at your beck and call! Orchestras for a single evening! Through the new Orthophonic Victrola and the amazing new V. E. Process Victor Records you can bring these self-same Victor orchestras right into your home, exactly as you would hear them at the smart supper clubs and hotels!

Listen to that crooning saxophone carrying the melody... the plinky-plink of the banjos underneath beating a rhythmic accompaniment. Now the clarinet with its toe-teasing cadences. Now the guttural "bong" of the bass sax or the mellow "oomp" of the big brass tuba. Who can resist dance music like this?

Not only dance music but all kinds of music are yours whenever you wish through the Orthophonic Victrola. Given with a clearness and fidelity to the original that is simply unbelievable. "Matched Impedance" the new scientific Victor controlled principle of "smooth sound flow" is responsible for the unequalled tone of these marvelous instruments made only by Victor.

There are six beautiful instruments of exquisite design—from all these you may select at "His Master's Voice" dealers. They are obtainable on convenient terms from \$775 down to \$115. Equipped with electric motor to eliminate winding, if you wish, at slight additional cost. Demonstrations daily.

## The new Orthophonic Victrola
